Cities, Nationalism and Democratization Scott A. Bollens, 2007-04-11 *Cities Nationalism and Democratization* provides a theoretically informed practice oriented account of intercultural conflict and co existence in cities Bollens uses a wide ranging set of over 100 interviews with local political and community leaders to investigate how popular urban policies can trigger pushes from below that help nation states address social and political challenges The book brings the city and the urban scale into contemporary debates about democratic transformations in ethnically diverse countries It connects the city on conceptual and pragmatic levels to two leading issues of today the existence of competing and potentially destructive nationalistic allegiances and the limitations of democracy in multinational societies Bollens finds that cities and urbanists are not necessarily hemmed in by ethnic conflict and political

gridlock but can be proactive agents that stimulate the progress of societal normalization. The fuller potential of cities is in their ability to catalyze multinational democratization. Alternately, if cities are left unprotected and unmanaged, ethnic antagonists can fragment the city's collective interests in ways that slow down and confine the advancement of sustainable democracy. This book will be helpful to scholars, international organizations, and grassroots organizations in understanding why and how the peace constitutive city emerges in some cases while it is misplaced and neglected in others.

Give Me Back My Lands Spartak Fikaj, 2024-07-16

Give Me Back My Lands delves into the complex history of Albania's borders, focusing on the lasting impact of the London Conference of 1912-1913. The book takes readers on a journey through the pivotal events that shaped Albania's territorial evolution, from the proclamation of independence to the unresolved disputes that continue to shape the country's geopolitical landscape. The author begins by

setting the stage examining the crumbling of the Ottoman Empire and the First Balkan War that paved the way for Albania's declaration of independence. The book then dives into the London Conference where the Great Powers convened to arbitrate between the warring parties and determine the future of Albania. The author skillfully navigates the complex web of territorial claims, power struggles, and compromises that unfolded during the conference, revealing how the decisions made by the Great Powers laid the foundation for decades of instability and unresolved disputes. As the narrative progresses, the book explores the aftermath of the London Conference, including the carving up of Albanian lands, the ethnic tensions that arose, and the unfinished puzzle of Albania's borders. The author delves into the interwar period, World War II, and the communist era, showcasing how the legacy of the conference continued to shape Albania's relationships with neighboring countries and the broader geopolitical dynamics of the Balkans. One of the book's strengths lies in its ability to shed light on the forgotten territories and lost lands that were left out of the newly established Principality of Albania, such as Kosovo and southern Chameria. The author skillfully weaves together historical accounts, political analysis, and personal narratives to paint a comprehensive picture of the struggles and aspirations of the Albanian people. Ultimately, *Give Me Back My Lands* serves as a powerful reminder of the lasting consequences of the decisions made by the Great Powers in the early 20th century. The book offers valuable insights for policymakers, historians, and anyone interested in understanding the complex and enduring legacy of the London Conference on the shaping of modern Albania and the Balkan region.
