## **Promoting Sustainable Economies In The Balkans:**

**Promoting Sustainable Economies in the Balkans** Steven Rattner, 2000 This report examines the prospect of the Balkan countries achieving sustainable economic growth and what the donor community and international institutions can do to help Economic Growth, Prosperity and Sustainability in the Economies of the Balkans and Eastern European Countries Maria Mavri, Patricia Ikouta Mazza, Anastasios Karasavvoglou, Persefoni Polychronidou, 2024-08-07 This book features a selection of papers presented at the 15th International Conference Economies of the Balkan and Eastern European Countries EBEEC held at the University of the Aegean in Chios Greece May 12 14 2023 The EBEEC conference serves as an annual meeting of policy makers from Eastern European and Balkan countries as well as scientists More than 300 researchers and students attended the conference and presented their work in parallel sessions This volume deals with various aspects of economic growth prosperity and environmental social and economic sustainability of countries in the region in the context of globalization and digitalization It also examines topics such as consumer behavior towards new products and services human capital teleworking the food market international trade and foreign direct investment In turn the book proposes frameworks and solutions to help countries deal with and manage the complex local and global environment **Balkans 2010** Edward C. Meyer, William L. Nash, Council on Foreign Relations, 2002 During the 1990s nowhere was the virus of militant ethnic nationalism more deadly than in the Balkans America and its allies ultimately played an indispensable role stopping atrocities and creating conditions for sustainable peace now after a decade of extensive involvement the international community is looking to wind down its commitment in the region The Center for Preventive Action a conflict prevention initiative of the Council on Foreign Relations formed this Independent Task Force to develop tangible and practical recommendations to put the Balkan states irreversibly on the path toward integration with Europe and to allow the international community to reduce its presence in an orderly fashion by 2010 The Task Force's key recommendations include first the European Union taking the lead on the Balkans but with American leadership and partnership to ensure that U S interests particularly in the areas of military reform and the combating of organized politico criminal syndicates that undermine regional and even global security are safeguarded second shifting the priorities of international and local actors toward the standards of the European Union and NATO accession plans and using conditionality carrots and sticks by the international community to achieve its priorities third increasing investment and trade in the Balkans through banking sector reform privatization of state or publicly owned corporations private sector development and legislative and judicial action on property rights The Task Force included senior experts on the Balkans and U S foreign policy from a cross section of think tanks government the military international organizations academia and the business community Book jacket **U.S. Strategy for Pakistan and Afghanistan** Richard Lee Armitage, Samuel R. Berger, Daniel Seth Markey, 2010 The Council on Foreign Relations sponsors Independent Task Forces to assess issues of current and critical importance to U S foreign policy and provide policymakers with concrete

judgments and recommendations Diverse in backgrounds and perspectives Task Force members aim to reach a meaningful consensus on policy through private and non partisan deliberations Once launched Task Forces are independent of CFR and solely responsible for the content of their reports Task Force members are asked to join a consensus signifying that they endorse the general policy thrust and judgments reached by the group though not necessarily every finding and recommendation Each Task Force member also has the option of putting forward an additional or a dissenting view Members affiliations are listed for identification purposes only and do not imply institutional endorsement Task Force observers participate in discussions but are not asked to join the consensus

Navigating Economic Uncertainty - Vol. 2 Hyrije Abazi-Alili,Abdylmenaf Bexheti,Veland Ramadani,Carmem Leal,Carlos

Peixeira Marques,2025-03-01 This book is the second volume presenting carefully selected chapters from the proceedings of the 7th International Scientific Conference on Business and Economics ISCBE Vila Real Portugal which took place in June 2024 The chapters provide key strategies for thriving in the midst of economic turbulence and explore adaptation innovation and resilience in our modern unpredictable landscape They cover a wide range of areas relevant to contemporary business and economics issues such as economic shocks high inflation energy crisis growth prospects economic forecast labor market gender inequalities migration entrepreneurship firm development and innovations and technological transformation The book is an essential compass for business leaders to navigate market volatility and economic uncertainty Competitiveness and Private Sector Development Western Balkans Competitiveness Outlook 2024: Kosovo OECD,2024-06-26 Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness Although the gap is closing gradually the standards of living in WB6 are well below those of the OECD and EU Accelerating the rate of socio economic convergence will require a holistic and growth oriented approach to policy making This is the fourth study of the region formerly under the title Competitiveness in South East Europe and it comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness It enables WB6 economies to compare economic performance against regional peers as well as EU OECD good practices and standards and to design future policies based on rich evidence and actionable policy recommendations The regional profile presents assessment findings across five policy clusters crucial to accelerating socio economic convergence of the WB6 by fostering regional co operation business environment skills infrastructure and connectivity digital transformation and greening Economy specific profiles complement the regional assessment offering each WB6 economy an in depth analysis of their policies supporting competitiveness They also track the implementation of the previous 2021 study s recommendations and provide additional ones tailored to the economies evolving challenges These recommendations aim to inform structural economic reforms and facilitate the region s socio economic convergence towards the standards of the EU and OECD

**Towards Economic Inclusion in the Western Balkans** William Bartlett,Milica Uvalić,2022-10-10 The countries in the Western Balkans have been severely affected by the wars and conflicts that led to the breakup of former Yugoslavia by political instability and the effort of creating new states weak economies and high levels of unemployment poverty and social exclusion and inequality As revealed by recent surveys such as EBRD s Life in Transition Survey and Eurofound s European Quality of Life Survey life satisfaction in the region is far below that elsewhere in Europe In recent years they had achieved a strong impetus of economic growth with falling rates of unemployment and increasing optimism for the future However the COVID 19 pandemic of 2020 has brought about a sudden reversal of these trends and a renewed deterioration in the economic outlook and an increase in social hardships that heralds a repeat of past failures in economic inclusion policies This book identifies the key challenges in the areas of economic inclusion focusing on the themes of labour markets vocational

education and skills female entrepreneurship and the integration of migrants It considers the opportunities for solutions to build back better once the recovery from the COVID 19 crisis begins and offers proposals for more acceptable equitable and effective economic inclusion policies

### **Competitiveness and Private Sector Development Western Balkans**

**Competitiveness Outlook 2024: Montenegro** OECD,2024-06-26 Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness Although the gap is closing gradually the standards of living in WB6 are well below those of the OECD and EU Accelerating the rate of socio economic convergence will require a holistic and growth oriented approach to policy making This is the fourth study of the region formerly under the title Competitiveness in South East Europe and it comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness It enables WB6 economies to compare economic performance against regional peers as well as EU OECD good practices and standards and to design future policies based on rich evidence and actionable policy recommendations The regional profile presents assessment findings across five policy clusters crucial to accelerating socio economic convergence of the WB6 by fostering regional co operation business environment skills infrastructure and connectivity digital transformation and greening Economy specific profiles complement the regional assessment offering each WB6 economy an in depth analysis of their policies supporting competitiveness They also track the implementation of the previous 2021 study s recommendations and provide additional ones tailored to the economies evolving challenges These recommendations aim to inform structural economic reforms and facilitate the region s socio economic convergence towards the standards of the EU and OECD

*OECD Development Pathways Multi-dimensional Review of the Western Balkans From Analysis to Action* OECD,2022-04-20 The Western Balkans region has come a long way over the last two decades in achieving economic and social progress Its people are the region s greatest asset Yet faced with a lack of opportunities many particularly the young decide to emigrate

*Neighborhood Challenge* Birgül Demirtas-Coskun,2009 One of the intriguing questions of the post Cold War era has been whether the EU will play a major global role in world politics as non traditional threats and challenges came to the forefront Launching new policies such as the Common Foreign and Security Policy the European Security and Defence Policy and the European Neighborhood Policy ENP have been considered important steps in the EU s evolution as a regional and possibly global actor Neighborhood Challenge analyzes critical aspects of the European Union s relations with its neighbours by extending its analysis beyond the ENP Unlike existing books on the subject the volume covers the entire neighborhood from Russia Ukraine and Belarus to North Africa from the Western Balkans to the South Caucasus and Central Asia Such an extensive overview of EU policies toward its neighbors is a timely and valuable contribution to European Studies literature This book can be used as a tool for both academicians and practitioners who specialize in European foreign and security policy as a textbook in European Union foreign policy courses both at the undergraduate and graduate level and as a comprehensive reference book for postgraduate

students writing dissertations on European foreign and security policy in general and European Neighborhood Policy in particular. The contributions analyze challenges and prospects posed by countries neighboring the EU and the effectiveness of EU policy in dealing with these agendas. Region focused chapters examine the EU's politics toward the Western Balkans, Middle East, CIS, and the Black Sea. Country focused chapters explore aspects of Russia, Ukraine, Uzbekistan, Iran, Bosnia, Kosovo, and thematically focused chapters deal with energy, security, organized crime, and other issues. Neighborhood Challenge is intended to contribute to the existing literature on EU foreign and security policy in two ways. First, its material is not restricted to the ENP. Instead, it addresses all EU neighbors in a large region and their position in European security. The authors argue that not only the countries in the immediate neighborhood of the EU but also those located in relatively far away regions have a role to play in European Union foreign affairs. Secondly, many of the contributions were written by experts living in countries which neighbor the EU. Their contributions lend new ideas and insight to the relevant literature on EU security and foreign policy.

### **Competitiveness and Private Sector Development Western Balkans**

**Competitiveness Outlook 2024: Serbia** OECD, 2024-06-26. Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness. Although the gap is closing gradually, the standards of living in WB6 are well below those of the OECD and EU. Accelerating the rate of socio-economic convergence will require a holistic and growth-oriented approach to policy making. This is the fourth study of the region, formerly under the title Competitiveness in South East Europe, and it comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness. It enables WB6 economies to compare economic performance against regional peers as well as EU, OECD, good practices, and standards and to design future policies based on rich evidence and actionable policy recommendations. The regional profile presents assessment findings across five policy clusters crucial to accelerating socio-economic convergence of the WB6 by fostering regional co-operation, business environment, skills, infrastructure, and connectivity, digital transformation, and greening Economy. Specific profiles complement the regional assessment, offering each WB6 economy an in-depth analysis of their policies supporting competitiveness. They also track the implementation of the previous 2021 study's recommendations and provide additional ones tailored to the economies' evolving challenges. These recommendations aim to inform structural economic reforms and facilitate the region's socio-economic convergence towards the standards of the EU and OECD.
