Handbook of Research on Achieving Sustainable Development Goals With

Sustainable Marketing Gigauri, Iza, Palazzo, Maria, Ferri, Maria Antonella, 2023-06-26 The prominent idea of sustainable development has influenced almost all disciplines changing our understanding and behavior toward sustainability In this respect marketing has also been transforming from the sustainability point of view as emerging social and ecological problems caused by the exponential growth require sustainable solutions and joint efforts Sustainable marketing intends to integrate ecological social and ethical concerns while creating value Consumers along with other stakeholders expect that brands will contribute to work toward the sustainable development goals therefore companies need to redesign their marketing initiatives to create promote and deliver values that are in line with sustainability The Handbook of Research on Achieving Sustainable Development Goals With Sustainable Marketing illuminates current developments in sustainable marketing and the new trends and tendencies concerning the concept in theory and practice The book also explores the concept of sustainable marketing in today's context of the digital age explains its boundaries and benefits and describes the challenges and opportunities as well as the advantages and potential disadvantages of sustainable marketing and branding efforts Covering key topics such as branding marketing ethics and corporate social responsibility this premier reference source is ideal for marketers business owners managers industry professionals researchers academicians scholars practitioners instructors and students

Solar Energy Update, 1982 **Urban Planning and Real Estate**

Development John Ratcliffe, Michael Stubbs, Miles Keeping, 2021-07-29 This fourth edition of Urban Planning and Real Estate Development guides readers through the procedural and practical aspects of developing land from the point of view of both planner and developer The twin processes of planning and property development are inextricably linked it is not possible to carry out a development strategy without an understanding of the planning process and equally planners need to know how real estate developers do their job The planning system is explained from the increasing emphasis on spatial planning at a national local and neighbourhood level down to the detailed perspective of the development management process and the specialist requirements of historic buildings and conservation areas At the same time the authors explain the entire development process from inception through appraisal valuation and financing to completion Sustainability and corporate social responsibility and their impact on planning and development are covered in detail and the future consequences of the COVID 19 pandemic are explored in new opening and closing chapters setting the text in a global context Written by a team of authors with many years of academic professional and research experience and illustrated throughout with practical case studies and follow up resources this book is an invaluable textbook for real estate and planning students and helps to meet the requirements of the RICS and RTPI Assessment of Professional Competence

Building Systems for Interior Designers Corky Binggeli, Taylor Lucas, 2024-04-16 BUILDING SYSTEMS FOR INTERIOR DESIGNERS Make design decisions informed by technical and structural knowledge with this essential guide Professional interior design demands more than simply an understanding of aesthetic and artistic considerations it also requires a detailed understanding of building systems and their

interactions Design decisions must account for mechanical and electrical equipment building components and structural elements all of which can potentially shape a designer's work Building Systems for Interior Designers has long stood as the key to understanding and evaluating these elements particularly key building systems like HVAC and plumbing and their impacts on interior design This Fourth Edition is fully updated to fit the needs of the CIDA certified interior design program and the NCIDQ exam The fourth edition of Building Systems for Interior Designers also includes Updated information on sustainable and energy efficient design Detailed coverage of topics including security concerns fire safety and designing secure spaces Classroom supplements including sample construction documents chapter specific discussion questions and more Building Systems for Interior Designers is ideal for students in interior design courses and new professionals studying for NCIDQ exams
