The teaching of Latin remained important after the Conquest but Anglo Norman now became a language of instruction and from the thirteenth century onwards a language to be learned During this period English lexicographers were more numerous more identifiable and their works more varied for example the tremulous hand of Worcester created an Old English Latin glossary and Walter de Bibbesworth wrote a popular contextualized verse vocabulary of Anglo Norman country life and activities The works and techniques of Latin scholars such as Adam of Petit Point Alexander Nequam and John of Garland were influential throughout the period In addition grammarians and schoolmasters books preserve material which in some cases seems to have been written by them The material discussed ranges from a twelfth century glossary written at a minor monastic house to four large alphabetical fifteenth century dictionaries some of which were widely available Some material seems to connect with the much earlier Old English glossaries in ways not yet fully understood The Promptorium Parvulorum Anglicus Galfridus,1975 The promptorium parvulorum Galfridus Anglicus (dominikánus szerzetes),1981 Promptorium Parvulorum Sive Clericorum Galfridus (Grammaticus),Camden Society,2015-11-19

A Sociolinguistic History of British English Lexicography traces the evolution of British English dictionaries from their earliest roots to the end of the 20th century by adopting both sociolinguistic and lexicographical perspectives It attempts to break out of the limits of the dictionary ontology paradigm and set British English dictionary making and research against a broader background of socio cultural observations thus relating the development of English lexicography

to changes in English accomplishments in English linguistics social and cultural progress and advances in science and technology It unfolds a vivid coherent and complete picture of how English dictionary making develops from its archetype to the prescriptive the historical the descriptive and finally to the cognitive model how it interrelates to the course of the development of a nation s culture and the historical growth of its lexicographical culture as well as how English lexicography spreads from British English to other major regional varieties through inheritance innovation and self perfection This volume will be of interest to students and academics of English lexicography English linguistics and world English lexicography

Beds and Chambers in Late Medieval England Hollie L. S. Morgan, 2017 First full length interdisciplinary study of the effect of these everyday surroundings on literature culture and the collective consciousness of the late middle ages The bed and the chamber which contained it was something of a cultural and social phenomenon in late medieval England Their introduction into some aristocratic and bourgeois households captured the imagination of late medieval English society The bed and chamber stood for much more than simply a place to rest one s head they were symbols of authority unparalleled spaces of intimacy sanctuaries both for the powerless and the powerful This change in physical domestic space shaped the ways in which people thought about less tangible concepts such as gender politics communication God sex and emotions Furthermore the practical uses of beds and chambers shaped and were shaped by artistic and literary production This volume offers the first interdisciplinary study of the cultural meanings of beds and chambers in late medieval England It draws on a vast array of literary pragmatic and visual sources including romances saints lives lyrics plays wills probate inventories letters church and civil court documents manuscript illumination and physical objects to shed new light on the ways in which beds and chambers functioned as both physical and conceptual spaces Hollie L S Morgan is a Research Fellow in the School of History and Heritage University of Lincoln
