## **Proof Complete Unabridged:**

**Proofs of God** Matthew Levering, 2016-04-12 Leading theologian Matthew Levering presents a thoroughgoing critical survey of the proofs of God's existence for readers interested in traditional Christian responses to the problem of atheism. Beginning with Tertullian and ending with Karl Barth, Levering covers twenty-one theologians and philosophers from the early church to the modern period, examining how they answered the critics of their day. He also shows the relevance of the classical arguments to contemporary debates and challenges to Christianity. In addition to students, this book will appeal to readers of apologetics.

**Many Convincing Proofs** Stephen S. Liggins, 2016-03-21 While there have been various studies examining the contents of the evangelistic proclamation in Acts and various studies examining from one angle or another individual persuasive phenomena described in Acts, e.g. the use of the Jewish Scriptures, no individual studies have sought to identify the key persuasive phenomena presented by Luke in this book or to analyse their impact upon the book's early audiences. This study identifies four key phenomena: the Jewish Scriptures witnessed supernatural events; the Christian community and Greco-Roman cultural interaction. By employing a textual analysis of Acts that takes into account both narrative and socio-historical contexts, the impact of these phenomena upon the early audiences of Acts—that is, those people who heard or read the narrative in the first decades after its completion—is determined. The investigation offers some unique and nuanced insights into evangelistic proclamation in Acts, persuasion in Acts, persuasion in the ancient world, each of the persuasive phenomena discussed, evangelistic mission in the early Christian church, and the growth of the early Christian church.
