Propaganda And The Role Of The State In Inter War Britain:

Propaganda and the Role of the State in Inter-war Britain Mariel Grant, 1994 Focusing on the development of public relations bureaus and information services in Whitehall Muriel Grant shows how during the inter war period publicity came to be regarded as a legitimate and necessary task of democratic government Although government departments pursued propaganda activities with different motives and divergent perspectives they adopted a similar approach to both the tool and their audiences Grant explores a variety of different issues and campaigns including the Post Office s attempts to make the public telephone conscious the Ministry of Health s sexual education efforts and the multi departmental and protracted Drink More Milk campaign The book offers valuable insights into the nature of propaganda and its management and contributes to our understanding of the changing role of the state in modern British society

The Arts as a Weapon of War Jorn Weingartner, 2012-06-08 In 1834 Lord Melbourne spoke the words that epitomised the British government s attitude towards its own involvement in the arts God help the minister that meddles with Art However with the outbreak of World War II that attitude changed dramatically when cultural policy became a key element of the domestic front Not only a propaganda tool it aimed to boost morale and prevent a wartime cultural blackout The Arts as a Weapon of War traces the evolution of this policy from the creation of the Committee for the Encouragement of Music and the Arts in 1939 to the drafting of the Arts Council s constitution in 1945 From the improvement of the National Gallery to Myra Hess legendary concerts during the blitz Jorn Weingartner provides a fascinating account of the powerful policy shift that laid the foundations for the modern relationship between government and the arts

the agency tried to manipulate public opinion political debate and news media content about such issues as postwar military aircraft procurement the deregulation of margarine production President Truman's seizure of steel mills in 1952 and the cigarette health scare of 1953-54. Though its campaigns did not change many opinions, she says Hill Knowlton affected the public indirectly by reinforcing the ideas of its clients and other conservatives. **BRITISH WAR FILMS, 1939 - 45** S. P. Mackenzie, 2001-01-01 The cinema was the most popular form of entertainment during the Second World War. Film was a critically important medium for influencing opinion. The question is answered through a broad-ranging narrative which links the evolution of British public relations in the early twentieth century to key political, economic, social and technological developments. Drawing on oral history interviews and extensive archival research, the book highlights some of the sociological issues relevant to a study of public relations and foregrounds the professionalisation of the occupation in the second part of the twentieth century. **The Origins of Modern Spin** M. Moore, 2006-10-31 Virtually every government communication in a modern democracy is formulated and evaluated in the context of spin. Based on original archival research, this book explodes the notion that information management is a recent phenomenon.

Communication and Health Charlene Elliott, Josh Greenberg, 2022-01-01 This book explores the unique contribution that critical communication studies can bring to our understanding of health. It covers several broad themes: representing and mediating health, marketing and promoting health, co-producing health and managing health crises and risks. Chapters speak to moral and social regulation through health communication technologies of health, healthism and governmentality. They engage with historical and contemporary issues, offering readers theoretically grounded perspectives. At base, the book explores what a critical communication approach to health might look like, revealing important and sometimes surprising ways how communication sits at the centre of understanding how health is constructed, contested and made meaningful.
