Property Law School Casebook Series:

Property Law D. Benjamin Barros, Anna P. Hemingway, Shelley Cavalieri, 2020-02-06 An innovative Property casebook that reimagines the law school casebook format and covers all the major topics included in a basic 1L Property course. Property Law Second Edition borrows some pedagogical features commonly found in undergraduate textbooks, making use of sidebars, illustrations, and other design devices to present material more clearly. The authors present concepts simply, then move the discussion toward complexity, the opposite of the approach taken by many current texts. Clear yet sophisticated, the casebook is the perfect choice for all skill levels. Including problems that students can and should be able to do on their own, explanatory answers, and skills-based exercises, this casebook is both professor-friendly and student-friendly. Themes that run through the course are highlighted throughout the book, resulting in a casebook that clearly presents the fundamentals of property law. This allows students to develop an understanding of basic concepts on their own while allowing professors to assist their students in developing an advanced understanding of property law. The authors of Property Law are experts on the property coverage on the bar exam, and while this casebook goes far beyond test-only material, students will benefit from their expertise and will learn every topic they are likely to see on the bar exam. New to the Second Edition: Additional text on racial discrimination and other critical issues in a subtle way, giving instructors the choice of how deeply to explore those issues. Revisions to Chapter 9 to include *Murr v. Wisconsin*, the Supreme Court's most recent regulatory takings case. A Revised Chapter 10 that includes new material on Intellectual Property and Property Theory. Minor corrections and refinements throughout the casebook. Professors and students will benefit from a text that starts from simplicity and moves to complexity. The book first provides text that explains the basic doctrine, then presents a simple case example, and finally moves to more complex issues. Cases that are introduced with explanatory text discussing the law and issues surrounding the case. This radically different approach from most other casebooks allows students to have a better grasp of the concepts and themes before they even read the case. Problems and exercises that students can complete on their own, with explanatory answers included in an appendix. An innovative design that aids student learning with sidebars, diagrams, charts, and illustrations that make concepts clearer to students. Cases that are used as examples, not introductions to legal rules. Many topics in the book feature introductory text, illustrations, and problem sets before a single case is introduced to aid in students' legal learning. The inclusion of sample documents helping students to understand core concepts. A book perfect for a four-credit course but also features a modular design that can be used in courses of varying credit size. More comprehensive bar exam topic coverage than any competing book.

Cases, Materials and Text on Property Law Sjef van Erp, Bram Akkermans, 2012-07-23 This casebook presents a deep comparative analysis of property law systems in Europe ie the law of immovables movables and claims offering signposts and stepping stones for the reader wishing to explore this fascinating area The subject matter is explained with careful attention given to its history foundations thought patterns underlying principles and basic concepts The casebook focuses on uncovering differences and similarities between Europe's major legal systems French German Dutch and English law are examined while Austrian and Belgian law are also touched upon The book combines excerpts from primary source materials case law and legislation and from doctrine and soft law In doing so it presents a faithful picture of the systems concerned Separate chapters deal with the various types of property rights their creation transfer and destruction with security rights such as mortgages pledges retention of title as well as with harmonising and unifying efforts at the EU and global level Through the functional approach taken by the Ius Commune Casebooks this volume clearly demonstrates that traditional comparative insights no longer hold The law of property used to be regarded as a product of historical developments and political ideology which were considered to be almost set in stone and assumed to render any substantial form of harmonisation or approximation very unlikely Even experienced comparative lawyers considered the divide between common law and civil law to be so deep that no common ground so it was thought could be found However economic integration in particular integration of financial markets and freedom of establishment has led to the integration of particular areas of property law such as mortgage law and enforceable security instruments eg retention of title This pressure towards integration has led comparative lawyers to refocus their interest from contract tort and unjustified enrichment to property law and delve beneath its surface This book reveals that today property law systems are closer to one another than previously assumed that common ground can be found and that differences can be analysed in a new light to enable

comparison and further the development of property law in Europe Cases and Materials on American Property Law Sheldon F. Kurtz, Herbert Hovenkamp, 2003 This law school casebook provides updated and revised materials on property rights Included are materials on human embryos and human body parts updated materials on gifts including gifts of engagement rings as well as updated materials on tenancy by the entirety Readers will also find completely revised and updated coverage of the law of takings and zoning including all Supreme Court decisions through 2002 and expanded and updated coverage of the law of housing discrimination with increased attention to state and local law issues as well as handicapped and age discrimination under the federal Fair Housing Act *Property* Christine A.
