

The background of the slide is a photograph of an open book with aged, yellowish-brown parchment pages. The book is open to a spread of two pages, with the text on the pages being mostly illegible due to blurring. The lighting is warm, creating a scholarly and historical atmosphere. A dark, semi-transparent horizontal band is overlaid across the upper portion of the image, serving as a background for the title text.

Prophecies Of Paracelsus:

The Prophecies of Paracelsus Paracelse, 2023-02-02 The Prophecies of Paracelsus attracted my attention at an early stage of my studies in the Occult which have now extended to over forty years but I have only recently thought of bringing them to public notice the extraordinary events of the present time acting as an incentive The famous French Kabbalist Alphonse Louis Constant in La Clef des Grands Mystes p 378 wrote The Prophecy of Paracelsus of which we here give the Preface is composed of thirty two chapters with allegorical figures It is the most astounding monument and indisputable proof of the reality and existence of the gift of natural prophecy Abb Constant born 1809 died 1875 better known by his Hebraistic pseudonym Eliphas L vi Fahed was a distinguished Adept Magus and Writer on the Occult Most of his works have been ably translated by Mr A E Waite The Preface Eliphas L vi refers to is not given here but will be found preceding the Predictions The Prophecies of Paracelsus Paracelsus, 2016-08-06 Theophrastus Paracelsus doctor chemist and mystic was born in Switzerland in 1493 He is celebrated as the man who on his appointment as town physician and lecturer in the University of Basle in 1526 preceded his lectures by a solemn burning of the books of his illustrious predecessors Galen and Avicenna In the course of a tempestuous life he helped to transform the highly abstract and theoretical view of medicine into one observation and experiment diagnosis and treatment At the same time he was a visionary who believed that the life of man was inseparable from that of the universe and that man is penetrated by the astral spirit as well as having a soul Paracelsus prophecies were first published in German in 1530 and enjoyed considerable popularity for about a century Thereafter they fell into oblivion until rescued in the nineteenth century by the Kabbalist and Magician Eliphas Levi The prophecies comprise 32 allegorical pictures each accompanied by a prognostication a preface and an elucidation Paracelsus images are usually obscure It was as if he saw the future as a series of moving pictures on a film but was only able to describe them out of chronological sequence Most of the events predicted are concerned with the church or state and the span of time involved seems to be 24 and 42 or probably multiples thereof Like other occult works of the period the course of future events is never explicitly stated It is up to the reader to use his insight and imagination to draw his own conclusions from the subtle hints that Paracelsus gives The Prophecies of Paracelsus Paracelsus, 1992-02-01 **The Prophecies of Paracelsus** Paracelsus, 2015-01-06 Paracelsus born Philippus Aureolus Theophrastus Bombastus von Hohenheim 11 November or 17 December 1493 24 September 1541 was a Swiss Renaissance physician botanist alchemist astrologer and general occultist Paracelsus meaning equal to or greater than Celsus refers to the Roman encyclopedist Aulus Cornelius Celsus from the 1st century known for his tract on medicine He is also credited for giving zinc its name calling it zincum and is regarded as the first systematic botanist The Prophecies of Paracelsus are cryptic similar to those by Nostradamus and filled with allegorical symbols which are capable of being reinterpreted for any purpose The Prophecies of Paracelsus. Magic Figures and Prognostications Made by Theophrastus Paracelsus ... Translated by J.K. With Introduction Paracelsus, J.

William Rider, *The Prophecies of Paracelsus* Paracelsus,1974 **The Prophecies of Paracelsus** Andrew Frew,2017-01-06 Paracelsus late 1493 September 24 1541 born Philippus Aureolus Theophrastus Bombastus von Hohenheim was a Swiss German philosopher physician botanist astrologer and general occultist He is credited as the founder of toxicology He is also a famous revolutionary for utilizing observations of nature rather than referring to ancient texts something of radical defiance during his time Like the better known Prophecies of Nostradamus the Prophecies of Paracelsus are exceedingly cryptic filled with allegorical symbols and capable of being reinterpreted for any purpose It comes with 32 surreal woodcuts which seem to reveal additional details about each prophecy

Halley,1999 Who was Nostradamus and what faith should we place in his predictions This book gives objective answers It reveals that Michel de Nostredame a 16th century French doctor was more Renaissance man than arcane magician and that his prognostications can be compellingly astute In this edition all of the cryptic short verses of Nostradamus s Centuries appear in the original French with new translations Uncanny prophecies such as those of the French Revolution and the rise of Hitler are examined in detail Here too are interpretations of the many verses believed to augur future events Editor Ned Halley works in fields of journalism as diverse as medicine wine and business He takes a Plain English approach to a subject far too often wreathed in language that seems calculated to obscure rather than to demonstrate the truth [Paracelsus \(Theophrastus Bombastus Von Hohenheim, 1493-1541\)](#) Paracelsus,2008 Drawing upon Huser s 1589 publication of Paracelsus works this dual language volume combines a critical edition of Essential Theoretical Writings on philosophy medicine nature and the supernatural with new English translations and extensive commentary on the second largest sixteenth century German language corpus
