Prophecy For Profit:

Prophets and Profits Richard Evans, 2017-09-07 This volume examines the ways in which divination often through oracular utterances and other mechanisms linked mortals with the gods and places the practice within the ancient sociopolitical and religious environment Whether humans sought knowledge by applying to an oracle through which the god was believed to speak or used soothsayers who interpreted specific signs such as the flight of birds there was a fundamental desire to know the will of the gods In many cases pragmatic concerns personal economic or political can be deduced from the context of the application Divination and communication with the gods in a post pagan world has also produced fascinating receptions The presentation of these processes in monotheistic societies such as early Christian Late Antiquity where the practice continued through the use of curse tablets or medieval Europe and beyond where the role of religion had changed radically provides a particular challenge and this topic has been little discussed by scholars This volume aims to rectify this desideratum by providing the opportunity to address questions related to the reception of Greco Roman divination oracles and prophecy in all media including literature and film Several contributions in this volume originated in the 2015 Classics Colloquium held at the University of South Africa and the volume has been augmented with additional contributions

Prophecy, Piety, and Profits Ayman Reda, 2017-12-26 This book examines in greater depth than the existing literature the history of Islamic economic thought It seeks to introduce Islamic views to debates surrounding critical economic concepts such as scarcity wealth poverty charity usury self interest rationality and markets It does so through a comparative analysis with the views of Judaic Christian and secular economic thought Prophecy is meant to signify the theoretical dimension of religion while piety represents its practical element neither part is feasible without the other Together prophecy and piety inform the Islamic view of economic concepts and phenomena This view seeks to adjust our approach to profits both in this world and the next and seeks to reexamine what is truly profitable and worthy of sacrifice *How to Profit from Prophets* Maurice A. Fetty, 1998 Prophets have not done well in history at least not by ordinary standards Elijah seemed to be the only one in Israel resisting Baalism Amos was told to keep silent and go back where he came from Jeremiah was scorned and imprisoned John the Baptist was beheaded and Jesus the greatest of them all was crucified By ordinary standards the prophets have not done well because as Jesus said we ignore or kill the messengers of God And yet it is the extraordinary standards of the prophets that intrigue us inspire us and stimulate our minds and consciences to God's ways and thoughts Because of their extraordinary standards the prophets continue to shape us and history In this challenging Advent Christmas book Maurice A Fetty reminds us again how it is important to profit from prophets Maurice A Fetty is Senior Minister of the Congregational Church of Manhasset United Church of Christ in Manhasset New York He has also served churches in Grand Rapids Michigan Minneapolis East Harlem and Brooklyn Fetty holds the Master of Sacred Theology Degree from Union Theological Seminary and the Master of Arts Degree from Christian Theological Seminary In addition to numerous articles he
