J. Stewart,1988-11 The 21 Lessons of Merlyn Douglas Monroe,2002-02 A complete introductory course in Celtic Druidism packaged within the framework of 21 authentic and expanded story lessons Cover **The Prophetic Vision of Merlin** R. J. Stewart,1986 **Magic in Merlin's Realm** Francis Young,2022-03-03 Belief in magic was until relatively recent times widespread in Britain yet the impact of such belief on determinative political events has frequently been overlooked In his wide ranging new book Francis Young explores the role of occult traditions in the history of the island of Great Britain Merlin s realm He argues that while the great magus and artificer invented by Geoffrey of Monmouth was a powerful model for a succession of actual royal magical advisers including Roger Bacon and John Dee monarchs nevertheless often lived in fear of hostile sorcery while at other times they even attempted magic themselves Successive governments were simultaneously fascinated by astrology and alchemy yet also deeply wary of the possibility of treasonous spellcraft Whether deployed in warfare rebellion or propaganda occult traditions were of central importance to British history and as the author reveals these dark arts of magic and politics remain entangled to this day *Word and Image in Arthurian Literature* Keith Busby,2014-08-13 Originally published in 1996 the articles in this book are revised expanded papers from a session at the 17th International Congress of the Arthurian Society held in 1993 The chapters cover Arthurian studies directions at the time showcasing analysis of varied aspects of visual representation and relation to literary themes Close attention to the historical context is a key feature of this work investigating the linkage between texts and images in the Middle Ages and beyond **The Alchemical Mercurius** Mathew Mather,2014-03-05 The figure of the alchemical Mercurius features ubiquitously and radically in Jung s later works but despite this there has been little research concerning Mercurius in Jungian studies to date In this book Mathew Mather explores the figure of the alchemical Mercurius and contextualises and clarifies its significance in Jung s life and works Placing the alchemical Mercurius as a central concern reveals a Jungian interpretation in which the grail legend alchemy and precessional astrology as three thematic threads converge In such a treatment Jung s belief in the dawning of a new platonic month emerges as a central consideration and an esoteric perspective on Jung s life and works is brought more fully to light constructing a life myth interpretation The book is comprised of three parts Aurea Catena locating the figure of the alchemical Mercurius within the Western esoteric tradition Daimonic Encounter the relevance of this figure in Jung s personal life Magnum Opus Jung s portrayal of this figure in key texts such as Synchronicity Aion Mysterium Coniunctionis and Emma Jung and von Franz s The Grail Legend The Alchemical Mercurius is a unique contribution to analytical psychology substantially revealing esoteric Jung and providing valuable perspectives on the theme of his myth for our times

The book will appeal to researchers and academics in the field of analytical psychology as well as postgraduate students

Renaissance England Andrew Escobedo, 2018-07-05 Andrew Escobedo here seeks to provide a new understanding of the emergence of national consciousness in England showing that many Renaissance writers articulated their Englishness temporally through an engagement with a history they perceived as lost or alienated According to Escobedo the English experienced nationalism as a form of community that disrupted earlier religious and social identities making it difficult to link the national present to the medieval past Furthermore he argues the English faced the nation's temporal isolation before the Enlightenment narrative of historical progress emerged as a means to interpret novelty in a positive light Escobedo examines how John Foxe John Dee Edmund Spenser and John Milton used narrative representations of nationhood to mediate what they perceived as a troubling breach in history attempting to bring together the English past present and near future in a complete and continuous story Yet all four authors also register their concern that historical loss may be an inevitable feature of a modern England and they come to see their narratives as long tapestries that spontaneously rip apart as they grow obliging the weaver to return to repair them Focusing on Renaissance England's perplexing sense of its time boundedness Escobedo presents early national consciousness as stranded awkwardly between the premodern and modern
