Prophets Of Agroforestry:

Prophets of Agroforestry Richard K. Reed, 2014-02-19 For almost four centuries the indigenous Chirip Guaran people of eastern Paraguay have maintained themselves as a distinct society and culture despite continual and often intense relations with Paraguayan society and the international economy In this study Richard K Reed explores the economic and social basis for this ethnic autonomy Reed finds that Chirip economic power derives from their practice of commercial agroforestry Unlike Latin American indigenous societies that have been forced to clear land for commercial agriculture the Chirip continue to harvest and sell forest products such as caffeinated yerba mate without destroying the forests Reed also explores the relation of this complex economy to Chirip social organization and shows how flexible kin ties allowed the Chirip to adapt to the pressure and opportunities of the commercial economy without adopting the authoritarian nature of rural Paraguayan society These findings offer important insights into the relations among indigenous groups nation states and the international economy They also provide a timely alternative model for sustainable management of subtropical forests that will be of interest in the fields of development and environmental studies

Native Peoples of the World Steven L. Danver, 2015-03-10 This work examines the world s indigenous peoples their cultures the countries in which they reside and the issues that impact these groups

Drugs, Labor and Colonial Expansion William Jankowiak, Daniel Bradburd, 2022-07-19 The emergence of European powers on the world scene after the fifteenth century brought with it more than the subjugation of colonized peoples it also brought an increase in the market for drugs which until then had seen little distribution beyond their lands of origin Growth in trade required goods for which there was demand and drugs filled that role neatly This book explores how Europeans introduced and used drugs in colonial contexts for the exploitation and placation of indigenous labor Combining history and anthropology it examines the role of drugs in trade and labor during the age of western colonial expansion From considering

the introduction of alcohol in the West African slave trade to the use of coca as a labor enhancer in the Andes these original contributions examine both the encouragement of drug use by colonial powers and the extent to which local peoples previous experience with psychoactive substances shaped their use of drugs introduced by Europeans The authors show that drugs possessed characteristics that made them a particularly effective means for propagating trade or increasing the extent and intensity of labor In the early stages of European expansion drugs were introduced to draw people quite literally into relations of dependency with European trade partners Over time the drugs used to intensify the amount and duration of labor shifted from alcohol opium and marijuana which were used to overcome the drudgery and discomfort of physical labor to caffeine based stimulants which provided a more alert workforce Valuable not only for its ethnographic detail but also for its broader insight into the nature of capitalist expansion this collection reveals the surprising consistency of drug use in the colonial process *Drugs Labor and Colonial Expansion* is a book rich with cross cultural insights that ranges widely across disciplines to provide a new and needed look at the colonial experience

The Stroessner Regime and Indigenous Resistance in Paraguay René Harder Horst, 2021-04-09 Engaged nuanced and accessible this untold story of Paraguay s indigenous peoples constitutes an important addition to the English language literature on this understudied country John Charles Chasteen University of North Carolina Chapel Hill Provides original insights into the makings of indigenous policy during Paraguay s Stroessner era and the democratic opening after 1989 shows how state policies were buffeted by external actors but also how indigenous peoples fought back A must read for those interested in indigenous policy in Latin America Erick D Langer Georgetown University A significant contribution to the field It develops a rich understanding of continuities and change in Paraguayan history including the role of religious missions in indigenous assimilation and or cultural preservation Virginia Garrard Burnett University of Texas Austin Native groups have played an important historical role in Paraguay the most homogenous and the only officially bilingual country in Latin America This book analyzes their complex relationship with the corrupt Alfredo Stroessner regime 1954 89 which framed its policies as inclusive but excluded Paraguay s indigenous people from the benefits of national development and the most basic human rights However this is not a history of oppression and victimhood but rather a study in manipulation Horst argues that while native people struggled daily to secure food and work under Stroessner s often contradictory and heavy handed policies they refused to disappear anonymously into the larger peasant population As savvy actors who manipulated difficult circumstances to foil exclusionary policies they succeeded in publicly embarrassing the regime as often as possible through exposures of state corruption Working in close cooperation with the Catholic Church indigenous peoples capitalized on Catholic legal advocacy in their struggles to defend their territories and resources The church became the strongest defender of native land claims drawing international attention to the plight of indigenous peoples as well as abuses of human rights While indigenous resistance weakened support for the Stroessner regime it also drove native leaders and peoples into closer interaction with and

dependency upon the very national institutions they opposed Contributing their own vision of a multiethnic state the native people of Paraguay created multiple alliances with regime opponents found ways to draw attention to human rights and by demanding tolerance of ethnic plurality helped lead the nation toward greater democracy in 1992 Horst's study the only history to focus on recent social policies and national political strategies for indigenous populations in modern Paraguay provides an important narrative for historians of Paraguay and other parts of Latin America as well as for anthropologists and others interested in the intersection of identity politics and human rights Ren Harder Horst is associate professor of history at Appalachian State University Outlaw Capital Jennifer L. Tucker, 2023-09 With an ethnography of the largest contraband economy in the Americas running through Ciudad del Este Paraguay Outlaw Capital shows how transgressive economies and gray spaces are central to globalized capitalism A key site on the China Paraguay Brazil trade route Ciudad del Este moves billions of dollars worth of consumer goods everything from cell phones to whiskey providing cheap transit to Asian manufacturers and invisible subsidies to Brazilian consumers A vibrant popular economy of Paraguayan street vendors and Brazilian ant contrabandistas capture some of the city's profits contesting the social distribution of wealth through an insurgent urban epistemology of use need and care Yet despite the city's centrality it is narrated as a backward marginal and lawless place Outlaw Capital contests these sensationalist stories showing how uneven development and the Paraguayan state made Ciudad de Este a gray space of profitable transgression By studying the everyday illegalities of both elite traders and ordinary workers Jennifer L. Tucker shows how racialized narratives of economic legitimacy across scales not legal compliance sort whose activities count as formal and legal and whose are targeted for reform or expulsion Ultimately reforms criminalized the popular economy while legalizing protecting and whitening elite illegalities Guerrilla Auditors Gregg Hetherington, 2011-09-14 An ethnography exploring disagreements among Paraguayan peasants government bureaucrats and development experts about how state bureaucracy should function what archival documents are for and who gets to narrate the past **Historical Dictionary of Paraguay** R. New World of Gain Brian P. Owensby, 2021-12-21 In the centuries before Europeans crossed the Atlantic social and material relations among the indigenous Guaran people of present day Paraguay were based on reciprocal gift giving But the Spanish and Portuguese newcomers who arrived in the sixteenth century seemed interested in the Guaran only to advance their own interests either through material exchange or by getting the Guaran to serve them This book tells the story of how Europeans felt empowered to pursue individual gain in the New World and how the Guaran people confronted this challenge to their very way of being Although neither Guaran nor Europeans were positioned to grasp the larger meaning of the moment their meeting was part of a global sea change in human relations and the nature of economic exchange Brian P Owensby uses the centuries long encounter between Europeans and the indigenous people of South America to reframe the notion of economic gain as a historical development rather than a matter of human nature Owensby argues that gain the pursuit of individual material self interest must be understood as a global development that transformed the lives of Europeans and non Europeans wherever these two encountered each other in the great European expansion spanning the sixteenth to nineteenth centuries

Love and its Entanglements among the Enxet of Paraguay Stephen Kidd, 2021-05-11 In Love and its Entanglements among the Enxet of Paraguay Social and Kinship Relations within a Market Economy Stephen Kidd examines the affective discourse and value systems of the indigenous Enxet people Kidd's analysis focuses on how the Enxet navigate the market economy in Paraguay and the tensions it exerts on their commitment to egalitarianism generosity and personal autonomy

The Anthropology of Religious Charisma C. Lindholm, 2013-12-18 According to Max Weber charisma is opposed to bureaucratic order This collection reveals the limits of that formula The contributors show how charisma is a part of cultural frameworks while retaining its ecstatic character among American and Italian Catholics Syrian Sufis Taiwanese Buddhists Hassidic Jews and Amazonian shamans among others

The Guaraní under Spanish Rule in the Río de la Plata Barbara Anne Ganson, 2003 This ethnographic study is a revisionist view of the most significant and widely known mission system in Latin America that of the Jesuit missions to the Guaran Indians who inhabited the border regions of Paraguay Argentina and Brazil It traces in detail the process of Indian adaptation to Spanish colonialism from the sixteenth through the early nineteenth centuries The book demonstrates conclusively that the Guaran were as instrumental in determining their destinies as were the Catholic Church and Spanish bureaucrats They were neither passive victims of Spanish colonialism nor innocent children of the jungle but important actors who shaped fundamentally the history of the Río de la Plata region The Guaran responded to European contact according to the dynamics of their own culture their individual

interests and experiences and the changing political economic and social realities of the late Bourbon period *Caring for Place* E N Anderson,2016-07-01 How can cultural forms motivate people to care about their environment While important scientific data about ecosystems is mushrooming E N Anderson argues in this powerful new book that putting effective conservation into practice depends primarily on social solidarity and emotional factors Marshaling decades of research on cultures across several continents he shows how societies have been more or less successful in sustainably managing their environments based on collective engagements such as religion art song myth and story This provocative and deeply felt book by a leading writer and scholar in human ecology and anthropology will be read and debated widely for years to come

The Bakairí Indians of Brazil Debra Picchi,2006-02-15 For over twenty five years Debra Picchi has documented how the Bakair Indians have addressed and endured change This up close portrayal of how a remarkable indigenous people of Brazil has managed to hold on to many of their traditions after years of contact with mainstream Brazilian culture is written in a down to earth conversational style yet does not avoid complex issues The original edition represented one of the first ethnographies on South American Indians to espouse political ecology explicitly as a theoretical orientation Expanded coverage in the second edition includes material on the theory of political ecology different methodological approaches used to collect data on populations the latest archaeological findings taking place in Brazil how Bakair gender constructs have changed over the last 100 years and the effects of population increases mechanized production and wealth accumulation Both accessible and rigorous Picchi packs much information into a slim volume which serves as a reminder of the value of long term fieldwork and demonstrates that research is as much about process as it is about product *Scoping the Amazon* Stephen Nugent,2016-07 Savage cannibal or utopian proto environmentalist Nugent examines both popular images of Amazon peoples in film and general books as well as changing anthropological views of the rainforest and its people
