Aschheim,1994-02-25 Countless attempts have been made to appropriate the ideas of Friedrich Nietzsche for diverse cultural and political ends but nowhere have these efforts been more sustained and of greater consequence than in Germany Aschheim offers a magisterial chronicle of the philosopher s presence in German life and politics      **Reforming the Tsar's Army** David Schimmelpenninck van der Oye,Bruce W. Menning,2004-03-18 This volume examines how Imperial Russia s armed forces sought to adapt to the challenges of modern warfare From Peter the Great to Nicholas II rulers always understood the need to maintain an army and navy capable of preserving the empire s great power status Yet they inevitably faced the dilemma of importing European military and technological innovations while keeping out political ideas that could challenge the autocracy s monopoly on power Within the context of a constant race to avoid oblivion the impulse for military renewal emerges as a fundamental and recurring theme in modern Russian history      *Lonergan and the Philosophy of Historical Existence* Thomas J. McPartland,2001 Bernard Lonergan s ambitious study of human knowledge based on his theory of consciousness is among the major achievements of twentieth century philosophy He challenges the principles of contemporary intellectual culture by finding norms and standards not in external perceptions or reified concepts but in the dynamism of consciousness itself

they confronted seem inadequate they show the significance of linking social and political thought to conceptions of self and active worldly practices Trenchant and illuminating Goldman's book is essential reading for anyone interested in political theory social thought and the intellectual history of Germany This sequel to Harvey Goldman's well received Max Weber and Thomas Mann continues his rich exploration of the political and cultural critiques embodied in the more mature writings of these two authors Combining social and political thought intelligently

### **The German Conception of History** Georg G.

Iggers, 2014-01-01 The first comprehensive critical examination in any language of the German national tradition of historiography This is the first comprehensive critical examination in any language of the German national tradition of historiography It analyzes the basic theoretical assumptions of the German historians of the nineteenth and twentieth centuries and relates these assumptions to political thought and action The German national tradition of historiography had its beginnings in the reaction against the Enlightenment and the French Revolution of 1789 This historiography rejected the rationalistic theory of natural law as universally valid and held that all human values must be understood within the context of the historical flux But it maintained at the same time the Lutheran doctrine that existing political institutions had a rational basis in the will of God though only a few of these historians were unqualified conservatives Most argued for liberal institutions within the authoritarian state but considered that constitutional liberties had to be subordinated to foreign policy a subordination that was to have tragic results Mr Iggers first defines Historismus or historicism and analyzes its origins Then he traces the transformation of German historical thought from Herder's cosmopolitan culture oriented nationalism to exclusive state centered nationalism of the War of Liberation and of national unification He considers the development of historicism in the writings of such thinkers as von Humboldt Ranke Dilthey Max Weber Troeltsch and Meinecke and he discusses the radicalization and ultimate disintegration of the historicist position showing how its inadequacies contributed to the political debacle of the Weimar Republic and the rise of National Socialism No one who wants to fully understand the political development of national Germany can neglect this study

piece of careful scholarship that is also superbly entertaining Starr who is president of Oberlin College and has been associated with the Kennan Institute for Advanced Russian Studies is also a professional jazz musician and his knowledgeable affection for the music shines through the text Andrea Lee New York Times Book Review

### **Max Weber and the Dispute over Reason and Value** Stephen P. Turner, Regis A. Factor, 2014-04-04 The problem of the nature of values and the relation

between values and rationality is one of the defining issues of twentieth century thought and Max Weber was one of the defining figures in the debate In this book Turner and Factor consider the development of the dispute over Max Weber's contribution to this discourse by showing how Weber's views have been used revised and adapted in new contexts The story of the dispute is itself fascinating for it cuts across the major political and intellectual currents of the twentieth century from positivism pragmatism and value free social science through the philosophy of Jaspers and Heidegger to Critical Theory and

the revival of Natural Right and Natural Law As Weber's ideas were imported to Britain and America they found new formulations and new adherents and critics and became absorbed into different traditions and new issues This book was first published in 1984

**1910** Thomas Harrison, 2023-04-28 The year 1910 marks an astonishing and largely unrecognized juncture in Western history In this perceptive interdisciplinary analysis Thomas Harrison addresses the extraordinary intellectual achievement of the time Focusing on the cultural climate of Middle Europe and paying particular attention to the life and work of Carlo Michelstaedter he deftly portrays the reciprocal implications of different discourses philosophy literature sociology music and painting His beautifully balanced and deeply informed study provides a new wider and more ambitious definition of expressionism and shows the significance of this movement in shaping the artistic and intellectual mood of the age 1910 probes the recurrent themes and obsessions in the work of intellectuals as diverse as Egon Schiele Georg Trakl Vasily Kandinsky Georg Lukacs Georg Simmel Dino Campana and Arnold Schoenberg Together with Michelstaedter who committed suicide in 1910 at the age of 23 these thinkers shared the essential concerns of expressionism a sense of irresolvable conflict in human existence the philosophical status of death and a quest for the nature of human subjectivity Expressionism Harrison argues provocatively was a last desperate attempt by the intelligentsia to defend some of the most venerable assumptions of European culture This ideological desperation he claims was more than a spiritual prelude to World War I it was an unheeded prophetic critique This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996 The year 1910 marks an astonishing and largely unrecognized juncture in Western history In this perceptive interdisciplinary analysis Thomas Harrison addresses the extraordinary intellectual achievement of the time Focusing on the cultural climate of Frontiers of History Donald R. Kelley, 2006-01-01 In 1764-65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create The Barber of Seville and The Marriage of Figaro plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais's visit to Madrid he never went to Seville and a re-creation of the society that fired his imagination Drawing on Beaumarchais's letters and commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the inspirations for such widely recognized characters as the barber valet Figaro the lordly Count Almaviva and the beautiful but deceived Rosine Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed

of King Charles III Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais      Oscar Wilde E.H. Mikhail,1978-06-17      The State, Identity, and the National Question in China and Japan Germaine A. Hoston,2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model
