Ordoliberalism, Law and the Rule of Economics Josef Hien, Christian Joerges, 2017-12-28 Ordoliberalism is a

theoretical and cultural tradition of significant societal and political impact in post war Germany For a long time the theory was only known outside Germany by a handful of experts but ordoliberalism has now moved centre stage after the advent of the financial crisis and has become widely perceived as the ideational source of Germany's crisis politics In this collection the contributors engage in a multi faceted exploration of the conceptual history of ordoliberalism the premises of its founding fathers in law and economics its religious underpinnings the debates over its theoretical assumptions and political commitments and its formative vision of societal ordering based upon a synthesis of economic theories and legal concepts The renewal of that vision through the ordoliberal conceptualisation of the European integration project the challenges of the current European crisis and the divergent perceptions of ordoliberalism within Germany and by its northern and southern EU neighbours are a common concern of all these endeavours They unfold interdisciplinary affinities and misunderstandings cultural predispositions and prejudices and political preferences and cleavages By examining European traditions through the lens of ordoliberalism the book illustrates the diversity of European economic cultures and the difficulty of transnational political exchanges in a time of European crisis

Kuisel, 2023-04-28 Ernest Mercier 1878 1955 was a key figure in the rise of the technical managerial class in early 20th century France A businessman and technocrat he sought to overhaul the French political and economic system through his work in modernizing the electric power industry and promoting the creation of a native petroleum industry As head of France s largest utilities syndicate Mercier was influential within the business and political elite forming connections with figures like Marshals Foch and P tain and Presidents Poincar and Lebrun His technocratic movement Redressement Fran ais 1925 1935 aimed at replacing the political establishment with a results oriented expert driven system Mercier s career deeply intertwined with the rise of the managerial class offers insight into the broader goals of technocrats to modernize France s

economy and society while also seeking a shift in traditional political and social values Mercier's story also illustrates the tensions between modernization and the political climate of the era Despite his drive for economic transformation his elitist tendencies and authoritarian associations including his involvement in the Croix de Feu demonstrate the complexities of his character As a technocrat Mercier aimed to make France more efficient and productive but his belief in authoritarian methods clashed with democratic ideals His biography is not only a study of the man himself but also of the broader technocratic movement that sought to reshape France While his efforts to modernize the French system largely failed during his lifetime they laid the groundwork for the technocratic influence that would grow stronger in the postwar era This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1967
