Christian Green, 2019-05-15 A shared interest of law and religion is the advancement of human flourishing yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life The concept of human flourishing is especially important for Africa where community and national development compete with forces of conflict and scarce resources In the broadest sense the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it      Halal Food Febe Armanios, Boğaç A. Menuge, 2016-04-22 When does the exercise of an interest constitute a human right The contributors to Menuge's edited collection offer a range of secular and religious responses to this fundamental question of the legitimacy of human rights claims The first section evaluates the plausibility of natural and transcendent foundations for human rights A further section explores the nature of religious freedom and the vexed question of its proper limits as it arises in the US European and global contexts The final section explores the pragmatic justification of human rights how do we motivate the recognition and enforcement of human rights in the real world This topical book should be of interest to a range of academics from disciplines spanning law philosophy religion and politics Diseases and Diagnoses Sander L. Gilman, 2017-09-08 *Diseases and Diagnoses* discusses why such social problems as addiction sexually transmitted diseases racial predisposition for illness surgery and beauty and electrotherapy all of which concerned thinkers a hundred years ago are reappearing at a staggering rate and in diverse national contexts In the twentieth century such problems were viewed as only historical concerns Yet in the twenty first century we once again find ourselves confronting their implications In this fascinating volume Gilman looks at historical and contemporary debates about the stigma associated with biologically transmitted diseases He shows that there is no indisputable way to measure when a disease or therapy will reappear or how it may be perceived at any given moment in time Consequently Gilman focuses on the socio cultural and political implications that the reappearance of such diseases has had on contemporary society His approach is to show how culture embedded in cultural objects both feeds and is fed by the claims of medical science as for example the reappearance of race as a cultural as well as a medical category If the twentieth century was the age of physics in the latter part of the past century and certainly in the twenty first century biological concerns are recapturing central stage Achievements of the biological sciences are changing the public's sense of what constitutes cutting edge science and medicine None has captured the public imagination more effectively than the mapping of the human genome and the promise of genetic manipulation which fuel what Gilman calls a second age of biology Although not without controversy the role of genetics appears to be key Gilman puts contemporary debates in historical

context showing how they feed social and cultural concerns as well as medical possibilities      **Sacred, Symbolic, and Contested** Gregory S. Szarycz, 2025-09-04 Sacred Symbolic and Contested explores how animals are revered represented and disputed across global cultures Through vivid case studies from sacred cows in India to ritual slaughter in Judaism and animal commodification in industrial societies this book reveals how human animal relationships express deep ethical religious and political tensions You ll encounter surprising contradictions animals celebrated in myth yet mistreated in practice or protected in law yet consumed in daily life Drawing on sociology religious studies and critical animal studies this timely work invites you to rethink the role of animals in shaping human identity culture and moral responsibility

Continuing Problems in USDA's Enforcement of the Humane Methods of Slaughter Act United States. Congress. House. Committee on Oversight and Government Reform. Subcommittee on Domestic Policy, 2010      **Disability in Jewish Law** Tzvi C.
