Rivers And Mountains:

Rivers and Mountains Joanna Brundle, 2017-12-15 Rivers and mountains are both critical parts of Earth's geography. This accessible text discusses how rivers and mountains form, how they interact with the weather, how they change over time, and how civilizations benefit from them. Informative fact boxes, simple diagrams, and vibrant full-color photographs support the compelling main text. This introduction to rivers and mountains is sure to expand young learners' minds as they enhance their knowledge of Earth science and other crucial parts of science curricula. [Where Rivers and Mountains Sing](#) Theodore Levin, 2010-11-15 Theodore Levin takes readers on a journey through the rich sonic world of inner Asia where the elemental energies of wind, water, and echo, the ubiquitous presence of birds and animals, and the legendary feats of heroes have inspired a remarkable art and technology of sound making among nomadic pastoralists. As performers from Tuva and other parts of inner Asia have responded to the growing worldwide popularity of their music, Levin follows them to the West, detailing their efforts to nourish global connections while preserving the power and poignancy of their music traditions.

Performing Mountains Jonathan Pitches, 2020-04-02 Launching the landmark Performing Landscapes series, *Performing Mountains* brings together for the first time Mountain Studies and Performance Studies in order to examine an international selection of dramatic responses to mountain landscapes. Moving between different registers of writing, the book offers a critical assessment of how the cultural turn in landscape studies interacts with the practices of environmental theatre and performance. Conceived in three main parts, it begins by unpicking the layers of disciplinary complexity in both fields before surveying the rich history and practice of rituals, playtexts, and site-specific works inspired by mountains. The last section moves to a unique analysis of mountains themselves using key concepts from performance, training, scenography, acting, and spectatorship. Threaded throughout is a very personal tale of mountain research offering a handrail or alternative guide through the book. [Mountain Rivers](#) Ellen E. Wohl, 2013-04 A comprehensive synthesis of current knowledge on mountain rivers. Discussions on fluvial geomorphology and physical processes from the scale of drainage network development to bedload movement complement summaries of mountain river chemistry and ecology. Contains chapters on drainage basins, channel processes, channel biota, and human impact. Includes bandw photos. Of interest to hydrologists, geomorphologists, civil and environmental engineers, and resource planners. Wohl has a Ph.D. in geology and has done extensive fieldwork in North America, Asia, and Australia. Tamdgidi,2008-06-01 This Summer 2008 VI 3 issue of Human Architecture Journal of the Sociology of Self Knowledge is dedicated to an exploration of Thich

Nhat Hanh's Engaged Buddhist philosophy and spiritual theory and practice from a sociological and social scientific vantage point to highlight the significance his teaching bears for the development of a self-reflective globally humanist and environmentally concerned sociological imagination. Included are several talks, letters, and a poem by Thich Nhat Hanh on the meaning and practice of Engaged Buddhism in regard to issues ranging from war and conflict, the environment, food industry, and consumption, and history of Engaged Buddhism. Other articles put his views in social science and sociological contexts, specifically exploring the overlapping landscapes of Engaged Buddhism with Pragmatism, Deep Ecology, sociological imagination, and ideological analysis. Other contributions are illustrative of the ways in which Thich Nhat Hanh's teachings have engaged contexts such as international conflict, the classroom, urban policing, traumatized populations, economic theory, environmental crisis, and family loss and trauma. A critical commentary by a participant's experience of attending one of Thich Nhat Hanh's retreats in 2005 is also included, followed by a response from a representative of the Plum Village community in France. Contributors include Thich Nhat Hanh, Winston Langley, Michael C. Adorjan, Benjamin W.
