## **Riversong Waldorf School Our Community Cookbook:**

**Waldorf School Community Cookbook**, 1984      The Waldorf School Book of Soups Marsha Post, 2006-10 3 selected lectures by Rudolf Steiner This is one of those books that can change your life Radical thought provoking and indeed mind boggling it leads to a completely new way of looking at what it means to be human a spiritual being in a universe that itself is not just physical but psychic and spiritual as well These three previously untranslated lectures are a masterly introduction to what Rudolf Steiner means by Anthroposophy They explain why Steiner describes this path which means literally the wisdom of the human being as one that unites what is spiritual in the human being with what is spiritual in the universe Steiner begins by describing what happens when we die He shows the relationship between our physical life on Earth and the etheric astral and spiritual life of the cosmos He also explains how physical lives are completely interwoven with cosmic existence and how the missing links in evolution are spiritual in nature Steiner then demonstrates what he calls the dilettantism and soullessness of mainstream psychology He points out that since the second half of the nineteenth century the idea of the soul has been lost and that consequently understanding of our inner lives is without a sure foundation A very different view emerges however from a truly spiritual perspective In the third lecture Steiner takes as his guide our three states of being waking dreaming and sleeping He describes in detail what happens in these three states and how each is bound up with our lives as physical psychic and spiritual beings With the profound insights in this book the world becomes a much larger richer and more exciting place to live      Cooking Through the Curriculum, 1997      **The Waldorf Kindergarten Snack Book** Lisa Hildreth, 2005-11-01 We recognize that we have moved into a new globalism that the world is one economically and geopolitically and that futurists extol the possibilities opened up by the new complex of silicon based electronic interactive networks Yet at the same time our thinking about who we are and what we are capable of as human beings remains pitifully inadequate and largely determined by nineteenth century models Thus all talk of family values of virtues of new forms of collaboration and cooperation tends either to miss the point for to reinforce the most regressive aspects of our technology Spirituality and Social Renewal series introduction How can we foster the development of initiatives How can enterprises such as community projects schools farms and businesses be established in the best possible ways How can we work as equals sharing responsibilities and encouraging one another in our development while offering the highest quality product or service Vision in Action is a workbook for all who are involved in social creation collaborative actions that can influence the social environment within which we live and where our ideas and actions can make a difference This volume is a user friendly hands on guide for developing healthy small organizations ones with soul and spirit      **The School-community Cookbook** Carl S.
