Transforming Post-Communist Political Economies National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Task Force on Economies in Transition, 1998-03-02 This ground breaking new volume focuses on the interaction between political social and economic change in Central and Eastern Europe and the New Independent States It includes a wide selection of analytic papers thought provoking essays by leading scholars in diverse fields and an agenda for future research It integrates work on the micro and macro levels of the economy and provides a broad overview of the transition process This volume broadens the current intellectual and policy debate concerning the historic transition now taking place from a narrow concern with purely economic factors to the dynamics of political and social change It questions the assumption that the post communist economies are all following the same path and that they will inevitably develop into replicas of economies in the advanced industrial West It challenges accepted thinking and promotes the utilization of new methods and perspectives **The**

Transformation of State Socialism D. Lane, 2007-09-12 This book considers aspects of transformation of former state socialist countries social and economic outcomes forces in the transformation process problems of consolidation of the new regimes and other scenarios It also looks at alternative types of society that might replace state socialism particularly state capitalism and market socialism

From Old Times to New Europe Agata Fijalkowski, 2016-04-22 From Old Times to New Europe considers the post totalitarian legal framework in today s Europe arguing that the study of totalitarianism and post totalitarianism continues to be significant as ever Drawing mainly on the Polish experience this analysis focuses on the significant part played by history in the development of the region s identity and preferences concerning the role of the state in public and private life It examines the political socio economic and legal aspects of key events and draws comparisons with other CEE states whilst implementing key socio legal theories to explain trends and strains in this post Communist and post totalitarian period With the benefit of access to archival sources in Poland and Russia this book will be of interest to students and researchers of European law law and society and international criminal justice **Reforging the Weakest Link** Neil

Robinson, 2019-06-04 Originally published in 2004 The collapse of the USSR and the emergence of 15 new states from its ashes presents another challenge to the global economy how to reintegrate the post Soviet space into the international economy The spread of liberal market ideology and integration of national economic spaces into a global marketplace faces

unique difficulties in the former USSR This insightful volume explains these challenges showing how Soviet legacies have worked against a smooth re entry of Russia Ukraine and Belarus into the global economy It also demonstrates how and why global economic forces have had very uneven effects in the area how the area differs from other parts of the post communist world where reintegration has proceeded more smoothly and what the future prospects and political implications are for the region in the global economy

The Legacy of State Socialism and the Future of Transformation David Lane,2002

Taking stock of the first decade of the transformation in the former Soviet bloc this timely book explores the legacies of state socialism and attempts by once communist countries to move toward a democratic market oriented system Leading international scholars consider the ways traditions interact with other factors both domestic and foreign to influence the course of social political and economic change With its blend of theory and case studies and its clear narrative this book will be a valuable text for students of transition Russian politics and the transformation of Eastern Europe Visit our website for sample chapters

Underground Economies in Transition Edgar L. Feige,Katarina Ott,2019-05-23 Published in 1999 this work examines the crucial role played by unofficial and underground activities in the transitional economies of Central and Eastern Europe and new independent states Countries undergoing radical transformations from socialism to capitalism experience fundamental changes in institutional rules governing property rights government regulations taxation and the appropriate conduct of public service Underground and unofficial activities represents non compliant economic behaviours involving evasion avoidance circumvention abuse and or corruption of the institutional rules as well as efforts to conceal these illicit behaviours from the view of public authorities The book employs the conceptual framework of the new institutional economics to elaborate the theoretical relationship between underground activities and overall performance of transition economies The social cultural and economic causes of unofficial activities are examined as well as their consequences for economic policy and performance Policy issues include the relationship between tax evasion and corruption the underground economy and organized crime state and regulation and methods and consequences of legalization of the underground economy

Socialism Phillip J. Bryson,2015-10-09 Socialism Origins Expansion Decline and Attempted

Revival in the United States This book is an attempt to address all the important economic aspects of socialismthe concepts and theories the historical attempts to implement socialist economic systems and the endeavor to establish socialism in the United States Part I reviews the origins and ideas of socialism which reflect an aspiration radically to transform the market system the great advantages of which were explained by Adam Smith Part II reviews the establishment of Marxist Leninist economic systems in the USSR and the East European countries The movement featured central economic planning which survived from the 1920s until about 1990 its failure was the attempt of statist organization to crush the market system and replace it with Stalinist command planning Central planning was meticulously copied in the bloc countries of East Europe in China in India and elsewhere The national replications of central economic planning always produced the same disappointing

usually disastrous results Efforts to reform the system always failed Meanwhile the democratic countries of Western Europe established socialist parties and policies but in less than a century after Marx the great hopes of socialism to achieve successful and productive nationalization of industries on the basis of a national economic plan had been recognized as unproductive and undesirable Part III reviews the failed attempt to establish a viable socialist party in the United States The real thrust toward socialism originally launched by the New Deal of Roosevelt came when Barak Obama a thoroughly indoctrinated and dedicated socialist ascended to the US presidency This socialism is an attempt to expand income redistribution and social welfare policies and to pursue massive industrial regulation and unconstitutional interventions in the private sector The implications of these policies are discussed together with the associated loss of market freedoms and personal liberties Russia's Diamond Colony John Tichotsky,2014-01-02 This study looks at the reform process in Sakha and at a one hundred year history of economic development The research revealed that Sakha s progress has always been determined by the export of key resources **The Reformability Of China's State Sector** James Wen,Dianqing Xu,1997-03-01 China has achieved alarming success in accelerating the economic growth rate since it started economic reform about 16 years ago However its state sector is still running severe deficits Even though its productivity might be improved since the reform started its financial situation nevertheless has been worsening mainly as a result of increased competition from the rapidly expanding non state sector Therefore the reform of this sector has become an urgent problem All the papers collected in this book are closely related to the various issues that the reform of the state sector has to solve Among the contributors are Professor Merton H Miller a Nobel laureate and expert on firm finance and governance Mr Ji Lin the vice president of the Chinese Academy of Social Sciences Dr Justin Y Lin the director of Center of China s Economic Research at Beijing University Professor Gang Fan the well known Chinese Economist and vice director of the Institute of Economic Research at the Chinese Academy of Social Sciences Professor Guoqiang Tian an expert on mechanism design at Texas A M University and many other researchers and professors from China and the North America s research institutes and universities Therefore this book will be extremely useful and relevant to those economists as well as government decision makers working in the field of the transitional economy
