Sixty-Four Years As a Writer Bill Gulick, 2006-07 Bill Gulick's writing career spanning more than six decades is truly remarkable. He has written twenty-seven novels, eight nonfiction books, and several plays. He was a regular contributor to *The Saturday Evening Post* and other national magazines. His stories have become major motion pictures starring screen legends like Burt Lancaster and Jimmy Stewart. A list of his literary friends reads like a who's who of western writing. Gulick is considered one of the foremost authorities on Pacific Northwest history. In *Sixty four Years as a Writer*, he details the journey from his Depression-era Oklahoma roots to his position as one of the nation's premier western authors. Publisher's description: **The Deschutes Project** Robert Autobee, 1994 *A Natural History of Oregon's Lake Abert in the Northwest Great Basin Landscape* Ron Larson, 2023-12-12 A beautifully detailed exploration of flora and fauna. Author Ron Larson offers a natural history of a Great Basin landscape that focuses on the northern region including Lake Abert and Abert Rim and the adjacent area in southcentral Oregon. Although the jewel of this landscape is a lake, the real story is the many plants and animals from the very primitive reddish bacteria-like archaea that thrive only in its high salinity waters to the Golden Eagles and ravens that soar above the desert. The untold species in and around the lake are part of an ecosystem shaped by ageless processes from massive lava flows, repeated drought, and blinding snowstorms. It is an environment rich with biotic and physical interconnections going back millions of years. The Great Basin and in particular the Lake Abert region is special and needs our attention to ensure it remains that way. We must recognize the importance of water for Great Basin ecosystems and the need to manage it better, and we must acknowledge how rich the Great Basin is in natural history. Salt lakes wherever they occur are valuable and provide critically important habitat for migratory water birds, which are unfortunately under threat from upstream water diversions and climate change. Larson's book will help people understand that the Great Basin is unique and that wise stewardship is necessary to keep it unspoiled. The book is an essential reference source drawing together a wide range of materials that will appeal to general readers and researchers alike.

The Park Builders Thomas R. Cox, 2011-04-21 Among the greatest attractions of the Pacific Northwest are its state parks campgrounds and tree lined highways From Idaho hot springs to the Oregon coast millions of people enjoy this priceless legacy every year but few stop to think about the source of this bounty *The Park Builders* profiles the men who provided the parks and the times that shaped them From its beginnings as part of the progressive crusades to its evolution into an expected function of state government the state parks movement in the Northwest is a window onto the political and social developments of the twentieth century The states of Washington Idaho and Oregon were generally in the mainstream of the parks movement but each of their histories is unique Taken together they help to define the nature and limitations of regionalism in the Northwest Especially in the early years the story of state parks was largely the story of individuals Drawing extensively from interviews and personal papers Thomas Cox creates memorable pictures of parks activists in each state Robert Moran creator of the battleship *Nebraska* spent a decade lobbying the state of Washington to accept his magnificent acreage on Orcas Island Sam Boardman went from a road crew to the head of Oregon's park system and took up his mission with a zeal that was literally

religious To me a park is a pulpit he wrote The more you keep it as He made it the closer you are to Him In Idaho Senator Weldon Heyburn no proponent of state expenditures set out to create a national park and ended up with a premier state park named for him State parks serve more people at far less expense than do those in the National Park System Since their fates are determined largely at the state level they are an ideal venue for the study of grassroots activism and regional trends This book is the first to collect these themes into a coherent whole It will serve as a model for further regional studies of its kind
