Beaudreau,2019-05-23 The decade of the 1920s is colloquially known as the Roaring Twenties when modernity came to the U S and the World ushering in a decade of unbounded growth and new found optimism

GDP growth was particularly strong as was employment and investment However as counterintuitive as it may sound or appear the 1920s were also years of stagnation stagnation that owed to the fact that the new greater potential was not being fully exploited In other words while things were great they still fell short of the potential that had been created resulting in a form of growth stagnation That is stagnation in the midst of what was exceptional growth Bernard C Beaudreau is Professor of Economics at Universit Laval in Quebec Canada *The Roaring Twenties - Turning Up the Volume* Bernard C. Beaudreau,2019-06 In this Volume the various measures taken by successive Administrations to fully utilize the new found potential are examined critically These include the Smoot Hawley Tariff Act of 1930 the National Industrial Recovery Act of 1933 and the National Labor Relations Act of 1935 The readings in this case consist of my own published work on the topic over the course of the past decade The articles in question set out to do two things namely situate the relevant policy measure in the appropriate historical context namely the presence of output gaps and second evaluate the efficacy or wisdom of the proposed policy measures For example contrary to popular belief the Smoot Hawley Tariff Act was a response to growing excess capacity related stagnation in the form of unemployment Evidence is presented which shows that the output gaps referred to above were clearly on the minds of Ranking Republicans at the Kansas City National Convention in June 1928 **Historic Photos of Chicago** Russell Lewis,2006 Historic Photos of Chicago captures the remarkable journey of the city of broad shoulders and its people through the historic photographs of the Chicago History Museum From the Great Fire to the rise of industry through prohibition World Wars and into the modern era Chicago has remained a city of innovation and resilience Captions and chapter headings are written by Russell Lewis Chief Historian for Chicago History Museum With hundreds of archival photos reproduced in stunning duotone on heavy art paper this book is an essential addition to any collection of books in Chicago
