Robert Adam:

Robert Adam & His Style Robert Adam, Cooper-Hewitt Museum, 1982 Catalogue of an exhibition held at the Cooper Hewitt Museum New York Robert Adam, Artist and Architect Percy Hetherington Fitzgerald, 1904 **Robert Adam & His Brothers** John Swarbrick, 1915 A dandelion in the garden of an autocratic rose fancier triumphs over the threat of extinction **Robert Adam** Richard Tames, 2008-03-04 Robert Adam Richard John, 2010 Monica Townsend enjoyed living the quiet life of a book editor but from the moment she stepped through her office door one evening everything changed Kidnapped at gunpoint she was held hostage at an abandoned warehouse praying her life would be spared as shots rang through the air Police Officer Chase Travers was on duty when the call came in Being the first officer at the scene he didn't anticipate the sight awaiting him three dead men sprawled on the warehouse floor Upon further inspection of the premises he discovered a barely conscious Monica Townsend and stayed by her side until the paramedics arrived In the hospital later that evening supposed to be returning home to his wife and two sons Chase felt prompted to stay at Monica's bedside to ensure her safety In the still of the night a gunshot rang out in the hospital corridor Chase and Monica escape and begin running for their lives but they face an even bigger challenge as they battle an attraction to each other which intensifies as each hour passes Will they be able to withstand temptation or in the heat of the moment after one devastating phone call will they give in changing their lives forever Robert Adam's London Frances Sands, 2016-11-30 The iconic eighteenth century architect Robert Adam was based in London for more than half of his life and made more designs for this one city than anywhere else in the world This book reviews a wide variety of his designs for London highlighting lesser known buildings as well as familiar ones **Robert Adam** Doreen Yarwood, 1970 Here two aspects of this man and his work are for the first time integrated fully in one volume Dr Johnson's Friend and Robert Adam's Client Topham Beauclerk David Noy, 2016-05-11 Dr Johnson said that he would walk to the ends of the earth to save Beauclerk Other people who claimed to be his friends rejoiced at his early death How did the beautiful youth of Francis Coates 1756 portrait become a man whose greatest claim to fame was causing an infestation of lice at Blenheim Palace through lack of personal hygiene A great grandson of Charles II and Nell Gwyn he lived a privileged life thanks to fortuitously inherited wealth He employed Robert Adam to build him a house at Muswell Hill which has almost completely disappeared from the records of Adam's work due to a dispute about the bill He was one of the leading book collectors of the time with a library of 30 000 volumes whose sale after his death was a major literary event He also used his wealth to indulge interests in science and astronomy and a passion for gambling As a result he ran through his inheritance as quickly as he could sell it falling into ever increasing debt as his lawyer grew richer Beauclerk knew all the leading figures of the British and French Enlightenment He was a friend of Johnson Adam Smith David Hume Horace Walpole Sir Joshua Reynolds John Wilkes and David Garrick He met Rousseau and Voltaire and immersed himself in French salon culture He could charm people when he chose to but did not always try

Recently he has been overshadowed by his wife Lady Di n e Spencer whose life by Carola Hicks *Improper Pursuits* 2001 has made her artistic talent and unconventional life well known The story of their adultery and marriage has not previously been told from Beauclerk s point of view and many other inaccuracies have crept into authoritative works such as the ODNB he is regularly and unfairly dismissed as a bad husband This biography shows that he was much more than the close associate of Johnson known from the pages of Boswell a man of widely varied interests from the Grand Tour to the contemporary theatre who lived Enlightenment life to the full in a way which would not have been possible a generation earlier or later Based on research in unpublished letters legal documents and financial records including some concerning the Adam house as well as published diaries letters and memoirs it shows that he may have left no enduring legacy of his many talents as even his friends admitted but he made the most of all the opportunities available and lived a fascinating life which illuminates every aspect of Georgian elite society from auctions to zoology from care of one s wig to building an observatory and from mishaps in Venice to sea therapy in Brighton

The Work of Robert Adam Geoffrey Beard, Robert Adam, 1978 Robert Adam, Artist and Architect Percy Hetherington Fitzgerald, 2017-07-05

Excerpt from Robert Adam Artist and Architect His Works and His System It will be seen from the list of societies to whom I retailed my Adam story that I went pretty far afield and brought the subject before a fairly representative audience These were The Society of Arts who gave me the silver medal for my performance The Society for the Encouragement of the Fine Arts The London Society of Architects The Architectural Societies of Edinburgh Manchester Liverpool Oxford Glasgow Newcastle Carlisle Birmingham Dublin Hull York Bath Sheffield These visits were exceedingly interesting I was always cordially received and I could see that the hearers were much interested in a subject to which hitherto but little attention had been paid It was a difficult and even awkward situation to be speaking in presence of experts I found the best way was to say out plainly what I thought on the matter and say it boldly without showing hesitation or the fear of falling into mistakes or of displaying one s ignorance My preservation was an unaffected enthusiasm for Adam and all his work with a native instinct for what was artistic At these lectures of mine sometimes the attendance was large at other times rather moderate but the students were always attracted I calculate that on the whole I must have brought the subject within the knowledge of some thousands and many of these must have worked on or have been led to take up the matter to apply it and study it seriously Nor was I slack in the direction of writing From the earliest days old buildings having grace and beauty had always the most extraordinary attraction for me I am ashamed to say none of the boasted scenes of nature the mountains lakes and plains appealed to me in the way that a small ancient town did In a building particularly of the renaissance type there seemed to be something more living and suggestive A well designed building was company it seemed to speak I had a particular delight in the renaissance buildings on account I believe of the sincerity and unobtrusiveness of their ornamentation with a sort of general delicacy of treatment The old classical or Greek elements seemed to me to be a little obtrusive and coarse also a little uninteresting The cornices and

pediments stood out and claimed attention noisily To see a picture even of one of these palaces affects one their ornamentation is so telling and yet so retiring Adam s work always offered much of this charm and feeling its detail invariably interested and attracted the eye or set the mind in motion There was always some striking or graceful little arrangement that repaid inspection About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

[The Architecture of Ruins](#) Jonathan Hill,2019-03-25 The Architecture of Ruins Designs on the Past Present and Future identifies an alternative and significant history of architecture from the sixteenth century to the twenty first century in which a building is designed occupied and imagined as a ruin This design practice conceives a monument and a ruin as creative interdependent and simultaneous themes within a single building dialectic addressing temporal and environmental questions in poetic psychological and practical terms and stimulating questions of personal and national identity nature and culture weather and climate permanence and impermanence and life and death Conceiving a building as a dialogue between a monument and a ruin intensifies the already blurred relations between the unfinished and the ruined and envisages the past the present and the future in a single architecture Structured around a collection of biographies this book conceives a monument and a ruin as metaphors for a life and means to negotiate between a self and a society Emphasising the interconnections between

designers and the particular ways in which later architects learned from earlier ones the chapters investigate an evolving interdisciplinary design practice to show the relevance of historical understanding to design Like a history a design is a reinterpretation of the past that is meaningful to the present Equally a design is equivalent to a fiction convincing users to suspend disbelief We expect a history or a novel to be written in words but they can also be delineated in drawing cast in concrete or seeded in soil The architect is a physical novelist as well as a physical historian Like building sites ruins are full of potential In revealing not only what is lost but also what is incomplete a ruin suggests the future as well as the past As a stimulus to the imagination a ruin s incomplete and broken forms expand architecture s allegorical and metaphorical capacity indicating that a building can remain unfinished literally and in the imagination focusing attention on the creativity of users as well as architects Emphasising the symbiotic relations between nature and culture a building designed occupied and imagined as a ruin acknowledges the coproduction of multiple authors whether human non human or atmospheric and is an appropriate model for architecture in an era of increasing climate change

John Swarbrick,2017-11-20 Excerpt from Robert Adam His Brothers Their Lives Work Influence on English Architecture Decoration and Furniture Some years have elapsed since I was invited to become the author Of this book Then I was filled with admiration for some Of the finest works Of the brothers for long I had been generally familiar with their best known undertakings and with the collection of engravings of their work Published in the eighteenth Century and at the beginning of the nineteenth but these had hitherto failed to convey to me an adequate conception of their remarkable ability as designers It was not until I saw the actual works That have been preserved with care in many of the great houses Of this country that I became able to properly appreciate the value Of their work And to ascertain the true position of the brothers among the architects and art workers Of their day In addition to visiting the works Of the brothers in London and the vicinity I have familiarised myself with examples in the more distant parts Of the provinces as well as in both Scotland and Ireland I have

also been able whilst upon the Continent to pay Visits to most of the places at which both Robert and James Adam Stayed when engaged abroad upon study and research and in these and Similar ways I have sought to do what in me lay to render this book more useful and of greater interest About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
