Made in Mexico Luis I. Reyes, 2024-03-26 For more than a century, directors from both sides of the border have chosen Mexico as the location to create their cinematic art, leaving an indelible imprint on the imaginations of moviegoers and filmmakers worldwide. Now, for the first time, *Made in Mexico: Hollywood South of the Border* presents a comprehensive examination of more than one hundred Hollywood theatrical feature films made in Mexico between 1914 and the present day. Lavishly illustrated throughout, *Made in Mexico* examines how Hollywood films depicted Mexico and how Mexico represented itself in relation to the films shot on location. It pulls back the curtain on how Hollywood filmmakers influenced Mexican films and how Mexican filmmakers influenced Hollywood. Listed chronologically and featuring cast credits, synopsis, and contemporary reviews, along with a production history for each entry, this book highlights the concept of crossing borders in which artists from both nations collaborated with one another. *Made in Mexico* also provides a brief historical perspective on the aesthetics, economics, and politics of the film industries in each country, giving readers a glimpse of the external forces at play in the production of these films. With motion pictures permeating the cultural and historical landscape of both Mexico and the United States, this compulsively readable compendium demonstrates the far-reaching influences of the featured films on the popular culture of both nations.

Film Noir Pettey Homer B. Pettey, 2014-11-11 Explores the development of film noir as a cultural and artistic phenomenon. This book traces the development of what we know as film noir from the proto-noir elements of Feuillade's silent French crime series and German Expressionism to the genre's mid-twentieth-century popularization and influence on contemporary global media. By employing experimental lighting effects, oblique camera angles, distorted compositions, and shifting points of view, film noir's style both creates and comments upon a morally

adumbrated world where the alienating effects of the uncanny the fetishistic and the surreal dominate What drew original audiences to film noir is an immediate recognition of this modern social and psychological reality Much of the appeal of film noir concerns its commentary on social anxieties its cynical view of political and capitalist corruption and its all too brutal depictions of American modernity This book examines the changing often volatile shifts in representations of masculinity and femininity as well as the genre s complex relationship with Afro American culture observable through noir s musical and sonic experiments Key features Traces the history of film noir from its aesthetic antecedents through its mid century popularization to its influence on contemporary global media Discusses the influence of literary and artistic sources on the development of film noir Includes extensive bibliographies filmographies and recommended noir film viewing Concludes with a reflective chapter by Alain Silver and James Ursini on their own influential studies and collections on film noir criticism
