been widely acknowledged Block developed a complex conceptual framework and presented this in a prose style which many have found to verge on the impenetrable In this critical and accessible introduction to one of the most fascinating thinkers of the twentieth century Vincent Geoghegan unravels much of the mystery of the man and his ideas Die Technik und die Musen / Technology and the Muses Juliane Mikoletzky, 2016-01-20 The articles compiled in this volume address the manifold relationships between technology art culture and science that have emerged throughout the 200 years of the history of the TU Wien After reflecting in general on the interaction of art and technology and their convergence at the Vienna Chamber of Wonders 2015 exhibition the connections between the members and graduates of the TU Wien and its predecessor institutions to the artistic literary and especially musical life of the time will be examined Further articles are dedicated to the role of the Polytechnic Institute and the TH TU Wien in the early development of photography and film as well as to the efforts of the TH in spreading technical knowledge to the people during the first decades of the 20th century as part of University Extension
