The Reader's Adviser Winifred F. Courtney, Sarah Land Prakken, 1974 *The Legacy of Robert Penn Warren* David Madden, 2000-08 Robert Penn Warren was unique among twentieth century American writers for having achieved excellence in a broad and assorted range of genres poems novels plays critical works historical essays personal essays biography and innovative textbooks In this collection of essays critics and poets among the finest Warren scholars assess Warren's legacy within his various genres and illuminate his centrality to twentieth century American culture Although Warren was best known for his novel *All the King's Men* the fact that most of these essays focus on his poetry attests to the urgency these poets and scholars feel about the need to call attention to this relatively neglected aspect of his work Although their approaches and themes are varied the pieces in *The Legacy of Robert Penn Warren* are united in their assertion that the writer's true legacy is that he was in a century of increasing specialization a myriad minded Renaissance man *Robert Penn Warren, Critic* Charlotte H. Beck, 2006 Using a largely chronological approach Charlotte Beck has carefully traced the evolution of Warren's criticism focusing on seminal examples of the critical books essays and introductions that Warren produced over a period of almost seventy years Her conclusions often run counter to previous evaluations of Warren's criticism especially to those that complacently link Warren to Cleanth Brooks his lifelong friend and collaborator and to New Criticism in general Beck demonstrates that Warren consistently treats writers holistically taking into account biographical as well as historical data to account for their entire body of work rather than focusing on a single literary text Jacket The Publishers Weekly, 1890 *Authors on Writing* B. Tomlinson, 2005-03-01 Drawing on some 3 000 published interviews with contemporary authors *Authors on Writing* Metaphors and Intellectual Labor reveals new ways of conceiving of writing as intellectual labor Authors metaphorical stories about composing highlight not interior worlds but socially situated cultures of

composing and apparatuses of authorship Through an original method of interpreting metaphorical stories Tomlinson argues that writing is both an individual activity and a collective practice a solitary activity that depends upon rich sustained and complex social networks institutions and beliefs This new book draws upon interviews with writers including Seamus Heaney Roald Dahl Samuel Beckett Bret Easton Ellis John Fowles Allen Ginsburg Alice Walker and Gore Vidal The Critical Twilight (Routledge Revivals) John Fekete,2014-08-07 First published in 1977 this book was the first to map extensively the ideological typography of the Anglo American tradition of literary theory It interrogates comprehensively and in detail the assumptions and categorical development within critical ideas from I A Richards and T S Eliot through John Crowe Ransom and the New Criticism to Northrop Frye and Marshall McLuhan This analysis reveals the Anglo American tradition of literary cultural theory is most properly intelligible within the overall field of social consciousness as an ideology of progressive cultural rationalization Against a background of ideological development since nineteenth century Romanticism John Fekete illuminates the boundaries of literary ideology in relation to the shapes and changes of modern culture and society
