Robert Frank Moving Out:

Robert Frank Robert Frank, 1994 *Moving Out: Robert Frank* Philip Brookman, Sarah Greenough, 1994 **Robert Frank : Moving Out** Robert Frank, Whitney Museum of American Art, National Gallery of Art (U.S.), 1994 **Feast of Excess** George Cotkin, 2016 *Feast of Excess* is an engaging and accessible portrait of The New Sensibility as it was named by Susan Sontag in 1965. The New Sensibility sought to push culture in extreme directions either towards stark minimalism or gaudy maximalism. Through vignette profiles of prominent figures John Cage, Patricia Highsmith, Allen Ginsberg, Andy Warhol, Anne Sexton, John Coltrane, Bob Dylan, Erica Jong, and Thomas Pynchon, to name a few, George Cotkin presents their bold headline-grabbing performances and places them within the historical moment. *Awakening the Eye* George Kouvaros, 2015-09-01. Until now celebrated photographer Robert Frank's daring and unconventional work as a filmmaker has not been awarded the critical notice it deserves. In this timely volume, George Kouvaros surveys Frank's films and videos and places them in the larger context of experimentation in American art and literature since World War II. Born in 1924, Frank emigrated from Switzerland to the United States in 1947 and quickly made his mark as a photojournalist. A 1955 Guggenheim Foundation fellowship allowed him to travel across the country photographing aspects of American life that had previously received little attention. The resulting book *The Americans*, with an Introduction by Jack Kerouac, is generally considered a landmark in the history of postwar photography. During the same period, Frank befriended other artists and writers among them Allen Ginsberg, Peter Orlovsky, and Gregory Corso, all of whom are featured in his first film *Pull My Daisy*, which is narrated by Kerouac. This film set the terms for a new era of experimental filmmaking. By examining Frank's films and videos, including *Pull My Daisy*, *Me and My Brother*, and *Cocksucker Blues*, in the framework of his more widely recognized photographic achievements, Kouvaros develops a model of cross-media history in which photography, film, and video are complicit in the search for fresh forms of visual expression. *Awakening the Eye* is an insightful, compelling, and at times moving account of Frank's determination to forge a personal connection between the circumstances of his life and the media in which he works.

Existential America George Cotkin, 2003. As Cotkin shows, not only did Americans readily take to existentialism, but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville to Emily Dickinson and William James, who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues. After introducing the concept of an American existential tradition, Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre, Beauvoir, and Camus. **An American Collection** Amon Carter Museum of Western Art, Patricia A. Suspended Conversations Martha Langford,2021-10-13 In *Suspended Conversations* Martha Langford shows how photographic albums tell intimate and revealing stories about individuals and families Rather than isolate the individual photograph treat albums as texts or argue that photography has supplanted memory she demonstrates that the photographic album must be taken as a whole and interpreted as a visual and verbal performance that extends oral consciousness Exhibiting a collection of photographic travelogues memoirs thematic collections and family sagas compiled between 1860 and 1960 and held by the McCord Museum of Canadian History this second edition includes a revised and expanded preface along with new photographs of the Notman albums Printed in colour throughout the enhanced material draws out the distinct nuances and details of each album giving them new life to tell their stories Albums are treasured by families collected as illustrations of the past by museums of social history and examined by scholars for what they can reveal about attitudes and sensibilities but when no one is left to tell the tale the intrigue of the album becomes a puzzle a suspended conversation Langford argues that oral consciousness provides the missing key Correlating photography and orality she explains how albums were designed to work as performances and how we can unlock their mysteries A fascinating glimpse of the preoccupations of previous centuries *Suspended Conversations* brings photography into the great conversation of how we remember and how we send our stories into the future
