Robert Frost: Sixteen Poems to Learn by Heart Robert Frost, Jay Parini, 2024-03-05 Celebrate Robert Frost's 150th birthday with a deluxe keepsake edition featuring 16 of his greatest poems with brilliant essays highlighting his special genius and the power of memorization to unlock the magic of his language. During a public reading, Robert Frost was once asked why he so frequently recited his poems from memory. With typical wit, he replied, "If they won't stick to me, I won't stick to them." Remarkably, among the modern poets, his poems stick to the reader. *Mending Wall* with its famous invocation of the rural maxim "Good fences make good neighbors." *The Road Not Taken* about the beguiling possibilities of life. *Birches* which reminds us that "One could do worse than be a swinger of birches." *Stopping by Woods on a Snowy Evening* with its unforgettable final line "And miles to go before I sleep." Here, poet and Frost biographer Jay Parini presents these and 12 other Frost poems to learn by heart. In short accompanying commentaries, Parini illuminates the stylistic and imaginative features of each of the poems, drawing in biographical material from Frost's life to provide further context. The goal of this little book is to encourage readers to slow down, to listen to Frost's words and phrases, to locate their deepest rhythms, and hear the tune of each poem as it unfolds. Memorizing a poem can teach us much about a poem's structure and argument and about the resonance of particular words. And best of all, memorization makes a poem part of our inner lives. Once committed to memory, a poem is available to us for recall at any time, and the occasions for remembering it will make themselves known to us. It isn't something we have to work at. Anyone who has read and loved Frost's poetry will want to own and treasure this little gift edition. Those reading Frost for the first time or those wishing to become better acquainted with one of America's greatest poets will not find a better, more insightful guide than Jay Parini.

Frost, 2017-10-17 This stunning celebration of the best loved work by four time Pulitzer Prize winning poet Frost includes 35 poems specially chosen by author and historian Parini. Illustrator Paraskevas brings the poems including Mending Wall and The Road Not Taken to life with his pitch perfect scenes. Full color 8 x 9 A Collection of Poems by Robert Frost Robert Frost, 2019-10-08 The early works of beloved poet Robert Frost collected in one volume. The poetry of Robert Frost is praised for its realistic depiction of rural life in New England during the early twentieth century as well as for its examination of social and philosophical issues. Through the use of American idiom and free verse Frost produced many enduring poems that remain popular with modern readers. A Collection of Poems by Robert Frost contains all the poems from his first four published collections: A Boy's Will 1913, North of Boston 1914, Mountain Interval 1916 and New Hampshire 1923 including classics such as The Road Not Taken, Fire and Ice and Stopping by Woods on a Snowy Evening The Collected Poems of Robert Frost Robert Frost, 2016-11 A collection of poems by Robert Frost *The Notebooks of Robert Frost* Robert Frost, 2007-01-01 During his lifetime Robert Frost notoriously resisted collecting his prose, going so far as to halt the publication of one prepared compilation and to lose the transcripts of the Charles Eliot Norton Lectures he delivered at Harvard in 1936. But for all his qualms Frost conceded to his son that you can say a lot in prose that verse won't let you say and that the prose he had written had in fact made good competition for his verse. This volume, the first critical edition of Robert Frost's prose, allows readers and scholars to appreciate the great American author's forays beyond poetry and to discover in the prose that he did make public in newspapers, magazines, journals, speeches, and books the wit, force, and grace that made his poetry famous. The Collected Prose of Robert Frost offers an extensive and illuminating body of work ranging from juvenilia, Frost's contributions to his high school Bulletin, to the charming chicken stories he wrote as a young family man for The Eastern Poultryman and Farm Poultry, to such famous essays as The Figure a Poem Makes and the speeches and contributions to magazines solicited when he had become the Grand Old Man of American letters. Gathered, annotated, and cross referenced by Mark Richardson, the collection is based on extensive work in archives of Frost's manuscripts. It provides detailed notes on the author's habits of composition and on important textual issues and includes much previously unpublished material. It is a book of boundless appeal and importance, one that should find a home on the bookshelf of anyone interested in Frost **Robert Frost: Speaking on Campus** Robert Frost, 2009-09-28 Frost was the first American who could be honestly reckoned a master poet by world standards. Robert Graves. Robert Frost's poetry has triumphantly survived him, but most readers today have not known him in one of his most significant capacities as teacher and lecturer. Here collected for the first time are excerpts from forty-six of his presentations delivered to students at more than thirty academic institutions over three decades. Frost's topics include What I think I'm doing when I write a poem, Getting up things to say for yourself, The future of the world, Fall in love at sight, and Not freedom from but freedom of.
