Blake, Douglas Gray, 2016-12-05 Authors of the Middle Ages is a series designed for research and reference The aim is to combine in one compact work a biography of a medieval author with all the information needed for further research The series is divided into two sub series The first edited by M C Seymour focuses on English Writers of the Late Middle Ages and the second edited by Patrick Geary deals with Historical and Religious Writers of the Latin West William Caxton was the first English printer and publisher of printed books He translated many books into English and by the prologues and epilogues added to many of his printed works he helped to establish literary tastes and fashions at the end of the medieval period The life of Reginald Peacock bishop heretic and author reflects the many controversies of 15th century England Drawing on many contemporary sources and based on fresh research Wendy Scase offers a new interpretation of an enigmatic writer Douglas Gray traces the lives of the two poets Robert Henryson and William Dunbar Among the several distinguished poets of late medieval Scotland Henryson stands out for his humanity learned wit and imaginative power while Dunbar was one of the most spectacular flamboyant and versatile Scottish poets of the Middle Ages This study gives an account of the little that is known of their lives and extensively details both their works and later scholarship John Capgrave 1393-1464 was an Augustinian friar Cambridge theologian hagiographer and chronicler who became Prior Provincial of his order His life presented here in the light of fresh research and with full documentation illuminates the importance of the order in the troubled times of mid 15th century England English Literature in the Age of Chaucer Dieter Mehl, 2014-06-11 Written in an engaging and accessible manner English Literature in the Age of Chaucer serves as both a lucid introduction to Middle English literature for those coming fresh to the study of earlier English writing and as a stimulating examination of the themes traditions and the literary achievement of a number of particularly original and interesting authors In addition to detailed and sensitive treatment of

Chaucer's major works the book includes chapters on his chief contemporaries such as John Gower William Langland and the Gawain poet It also examines the often underrated contribution to the English literary tradition of his successors John Lydgate and Thomas Hoccleve as well as the interesting and original work of the Scottish poets Robert Henryson William Dunbar and Gavin Douglas who also claim Chaucer as their model Apart from the narrative poetry of Chaucer and his followers the book also contains chapters on the Middle English lyric Middle English prose including Mandeville's travels the most original and imaginative writings of the Middle English mystics in particular Julian of Norwich and Margery Kempe and Thomas Malory's impressive prose compilation of Arthurian stories

The Impact of Latin Culture on Medieval and Early Modern Scottish Writing Ian Johnson, Alessandra Petrina, 2018-04-30 In the late medieval and early modern periods Scottish latinity had its distinctive stamp most intriguingly so in its effects upon the literary vernacular and on themes of national identity This volume shows how when viewed through the prism of latinity Scottish textuality was distinctive and fecund The flowering of Scottish writing owed itself to a subtle combination of literary praxis the ideal of eloquentia and ideological deftness which enabled writers to service a burgeoning national literary tradition *The New Moulton's Library of Literary Criticism: Medieval-early Renaissance*, 1985

[The Oxford History of Literary Translation in English](#) Roger Ellis, 2008-03-20 THE OXFORD HISTORY OF LITERARY TRANSLATION IN ENGLISH General Editors Peter France and Stuart Gillespie This groundbreaking five volume history runs from the Middle Ages to the year 2000 It is a critical history treating translations wherever appropriate as literary works in their own right and reveals the vital part played by translators and translation in shaping the literary culture of the English speaking world both for writers and readers It thus offers new and often challenging perspectives on the history of literature in English As well as examining the translations and their wider impact it explores the processes by which they came into being and were disseminated and provides extensive bibliographical and biographical reference material Volume 1 of The Oxford History of Literary Translation in English originates with what medievalists have long known that virtually everything written in the Middle Ages in English can be regarded one way or another as a translation and that medieval understandings of what constitutes literature were significantly more generous than many modern ones It uses modern as well as medieval understandings of translation to inform its discussions the two understandings have a great deal in common and it aims to situate medieval translation in English as fully as possible in its various cultural contexts this includes in particular the complicated inter relations of translation throughout the period into Latin and for the Middle English period of translation in French Since it also understands the Middle Ages of its title as including the first half of the sixteenth century it studies what has survived of nearly a thousand years of translation activity in England [Books for College Libraries: Language and literature](#), 1988

Medieval Insular Literature Between the Oral and the Written, II Hildegard L. C. Tristram, 1997 *The New Cambridge Bibliography of English Literature: Volume 1, 600-1660* George Watson, Ian Roy Willison, 1974-08-29 More than

fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries
