Callow, 2001 Doctors called repeatedly to what should have been his deathbed would find a scarecrow twitching and alive A sickly child Louis became in turn a bohemian dandy a literary gypsy traipsing through the mountains of France with a donkey and at twenty eight the lover of an American woman ten years his senior the fabulous Fanny Robert Louis Stevenson Ian Bell, 1992 Fiction is to grown men what play is to the child Robert Louis Stevenson once said in a statement that perfectly captures the magic of his own fiction Immensely popular during his brief life he died in 1894 at the age of forty four he has never lacked for readers since In the century that followed his death many biographies have been written each with its own image of R L S the sickly dreaming child the Bohemian dandy outraging Victorian Edinburgh the romantic wanderer leading his donkey through the wilds of the Cevennes the frail genius doomed to die young For some he is the man of action avid for experience filled with wanderlust for others the writer of stories beloved by children and familiar from innumerable film and television dramas Still others know him as the essayist whose skills matched William Hazlitt's and the novelist to whom even Henry James deferred All of these are R L S but none is the full Stevenson Now in this new and acclaimed biography Ian Bell attempts to see Stevenson whole to trace the line of descent from the son of Calvinist engineers to the man who ended his days as Tusiata among the Samoan islanders Understanding that for Stevenson geography mattered Bell sets out to discover the complete man through the places he lived and the people he lived among as well as through the books that poured from him during his all too short literary life As such Dreams of Exile is both literary biography and travel narrative It follows Stevenson's development as an artist and as a man by following his often chaotic progress from continent to continent in good health and in bad in poverty and in wealth Along the way it reveals his often tortured relations with his family his robust sexuality and the mystery of his stormy marriage to a woman many years his senior But perhaps Bell's most important contribution is to rescue R L S from the many conflicting and often romanticized images that have continued to surround him and in the process to make a telling case for Stevenson's genius as a writer **Robert Louis Stevenson** Claire

Robert Louis Stevenson - Essays Robert Louis Stevenson, 2020-10-09 Robert Louis Stevenson was born at Edinburgh on the 13 November 1850 His father Thomas and his grandfather Robert were both distinguished light house engineers and the maternal grandfather Balfour was a Professor of Moral Philosophy who lived to be ninety years old There was therefore a combination of *Lux et Veritas* in the blood of young Louis Stevenson which in *Dr Jekyll and Mr Hyde* took the form of a luminous portrayal of a great moral idea In the language of Pope Stevenson's life was a long disease Even as a child his weak lungs caused great anxiety to all the family except himself but although Death loves a shining mark it took over forty years of continuous practice for the grim archer to send the black arrow home It is perhaps fortunate for English literature that his health was no better for the boy craved an active life and would doubtless have become an engineer He made a brave attempt to pursue this calling but it was soon evident that his constitution made it impossible After desultory schooling and an immense amount of general reading he entered the University of Edinburgh and then tried the study of law Although the thought of this profession became more and more repugnant and finally intolerable he passed his final examinations satisfactorily This was in 1875 He had already begun a series of excursions to the south of France and other places in search of a climate more favorable to his incipient malady and every return to Edinburgh proved more and more conclusively that he could not live in Scotch mists He had made the acquaintance of a number of literary men and he was consumed with a burning ambition to become a writer Like Ibsen's *Master Builder* there was a troll in his blood which drew him away to the continent on inland voyages with a canoe and lonely tramps with a donkey these gave him material for books full of brilliant pictures shrewd observations and irrepressible humour He contributed various articles to magazines which were immediately recognised by critics like Leslie Stephen as bearing the unmistakable mark of literary genius but they attracted almost no attention from the general reading public and their author had only the consciousness of good work for his reward In 1880 he was married Includes a biography of the author
