Sappers The Royal Engineers In British Columbia:

Sappers Beth Hill,1987 The Royal Engineers laid the foundations for much of British Columbia Between 1858 and 1863 they planned towns surveyed land settled disputes diverted rivers produced maps established the international boundary and built astonishingly long lasting trails and roads This lively account of their work and travels in the province also describes where many examples of the Engineers work can still be found today The Work of the Royal Engineers in British Columbia, 1858 to 1863 Frederic William Howay,1910 Pioneer Photographers of the Far West Peter E. Palmquist,Thomas R. Kailbourn,2000 This extraordinarily comprehensive well documented biographical dictionary of some 1 500 photographers and workers engaged in photographically related pursuits active in western North America before 1865 is enriched by some 250 illustrations Far from being simply a reference tool the book provides a rich trove of fascinating narratives that cover both the professional and personal lives of a colorful cast of characters J. F. Bosher,2010-04 During the century 1850 1950 Vancouver Island attracted Imperial officers and other Imperials from India the British Isles and elsewhere in the Empire Victoria was the main British port on the north west Pacific Coast for forty years before the city of Vancouver was founded in 1886 to be the coastal terminus of the Canadian Pacific Railway These two coastal cities were historically and geographically different The Island joined Canada in 1871 and thirty five years later the Royal Navy withdrew from Esquimalt but Island communities did not lose their Imperial character until the 1950s P 4 of cover *Royal City* Jim Wolf,2005 Rediscover New Westminster in this richly illustrated history of British Columbia s first capital city Jim Wolf has created an illuminating overview of the city s development and growth incorporating the words of those who witnessed and recorded the events and paired it with the remarkable images of the photographers who viewed New Westminster with discerning eyes capturing history in magical moments with the click of their cameras *Royal City* will be a treasured keepsake for current and past residents of New Westminster as well as a useful tool for anyone interested in the history of this colourful city and its early photographers **British Columbia Coast Names, 1592-1906, to which are Added a Few Names in Adjacent United States Territory** John T. fur trader and politician James Douglas's governance and the critical role played by the many unions between white settlers and and Indigenous women Barman expertly weaves together seemingly disparate events that converged to lay the foundations of today's Canadian province **British Columbia and Yukon Gold Hunters** Donald E. Honourable Conquests A. J. Smithers, 1998-11-12 The origin of the Corps of Royal Engineers now affectionately known as The Sappers but then as the King's Military Engineers has been traced as far as 1414 though it was not until 1716 that a permanent officer corps of engineers was established by the Board of Ordnance with the title Corps of Engineers Being part of the Regular Army it is hardly surprising that the Corps should be associated in the public mind with such tasks as building roads bridges and defensive works or breaching those of the enemy and scant attention was hitherto been paid to the remarkable achievements of the Corps in times of peace In Honourable Conquests A J Smithers sets out to redress that balance Britain having acquired an Empire more by accident than design it fell to the lot of the Army first in India and later in other parts of the Empire to act in the role of unofficial Colonial Policemen As well we all know the policemen's lot is not a happy one so the ingenious Engineers found better ways to pass the time thereby leaving behind them some remarkable testimonies not only to their professional skills but to their very considerable contribution to the welfare of mankind in India in Canada in Australia and other parts of the Empire It is to such men as General Pasley Colonel By General Cotton and Sir Colin Scott Moncrieff truly great men now all but forgotten on whom Smithers turns his narrative skill and wry humour in this fascinating book As the completion of the Channel Tunnel approaches his penultimate chapter concerning the involvement of the Royal Engineers with that project over a hundred years ago will be of particularly topical interest
