Playing Sick Meredith Conti, 2018-07-27 Few life occurrences shaped individual and collective identities within Victorian era society as critically as witnessing or suffering from illness The prevalence of illness narratives within late nineteenth century popular culture was made manifest on the period's British and American stages where theatrical embodiments of illness were indisputable staples of actors' repertoires *Playing Sick Performances of Illness in the Age of Victorian Medicine* reconstructs how actors embodied three of the era's most provocative illnesses tuberculosis drug addiction and mental illness In placing performances of illness within wider medicocultural contexts Meredith Conti analyzes how such depictions confirmed or resisted salient constructions of diseases

and the diseased Conti s case studies which range from Eleonora Duse s portrayal of the consumptive courtesan Marguerite Gautier to Henry Irving s performance of senile dementia in King Lear help to illuminate the interdependence of medical science and theatre in constructing nineteenth century illness narratives Through reconstructing these performances Conti isolates from the period s acting practices a lexicon of embodied illness a flexible set of physical and vocal techniques that performers employed to theatricalize the sick body In an age when medical science encouraged a gradual decentering of the patient from their own diagnosis and treatment late nineteenth century performances of illness symbolically restored the sick to positions of visibility and consequence **Ellen Terry, Player in Her Time** Nina Auerbach,1997-01-29 Nina Auerbach
