Crosby, 2018-09-14 This book investigates how popular American literature and film transformed the poisonous woman from a misogynist figure used to exclude women and minorities from political power into a feminist hero used to justify the expansion of their public roles Sara Crosby locates the origins of this metamorphosis in Uncle Tom s Cabin where Harriet Beecher Stowe applied an alternative medical discourse to revise the poisonous Cassy into a doctor The newly medicalized poisoner then served as a focal point for two competing narratives that envisioned the American nation as a multi racial egalitarian democracy or as a white and male supremacist ethno state Crosby tracks this battle from the heroic healers created by Stowe Mary Webb Oscar

Micheaux and Louisa May Alcott to the even more monstrous poisoners or vampires imagined by E D E N Southworth Oliver Wendell Holmes Theda Bara Thomas Dixon Jr and D W Griffith

Regions of Identity, 1999-03 Examining turn of the century American women's fiction the author argues that this writing played a crucial role in the production of a national fantasy of a unified American identity in the face of the racial regional ethnic and sexual divisions of the period Contributing to New Americanist perspectives of nation formation the book shows that these writers are central to American literary discourses for reconfiguring the relationship among constituent regions in order to reconfigure the nation itself Analyzing fiction by Sarah Orne Jewett Florence Converse Pauline Hopkins Mar a Amparo Ruiz de Burton Kate Chopin and Sui Sin Far the book foregrounds the ways each writer's own location on the grid of American identities shapes her attempt to forge an inclusive narrative of America This disparate group of writers Northerners Southerners Californios African Americans Chinese Americans Anglo Americans heterosexuals and lesbians reflects the widespread nature of concerns over national identity and the importance of regions to representations of that identity The author argues that femininity as a politicized cultural construct is basic to each of these author's attempts to recast America because each understands the link between true womanhood and the longstanding equation of New England with the nation But such attempts to mobilize the naturalized feminine to stabilize a fractured and exclusionary American identity inevitably reveal the fissures that undermine the universality of both categories The book thus participates in several larger and ongoing conversations within American studies and feminist literary and genre criticism the reassessment of regional and minor fiction in relation to national identity the critique of the politics of genre construction the uses and limits of identity politics and the connections among all these issues

Special relationships Janet Beer, Bridget Bennett, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This book addresses the special relationship from the perspective of post Second World War British governments It argues that Britain's foreign policy challenges the dominant idea that its power has been waning and that it sees itself as the junior partner to the hegemonic US The book also shows how at moments of international crisis successive British governments have attempted to re play the same foreign policy role within the special relationship It discusses the power of a profoundly antagonistic relationship between Mark Twain and Walter Scott The book demonstrates Stowe's mis reading and mis representation of the Highland Clearances It explains how Our Nig the work of a Northern free black also provides a working class portrait of New England farm life removed from the frontier that dominates accounts of American agrarian life Telegraphy which transformed transatlantic relations in the middle of the century was used by spiritualists as a metaphor for the ways in which communications from the other world could be understood The story of the Bolton Whitman Fellowship is discussed Beside Sarah Orne Jewett's desk was a small copy of the well known Raeburn portrait of Sir Walter Scott Henry James and George Eliot shared a transatlantic literary network which embodied an easy flow of mutual interest and appreciation between their two milieux In her autobiography

Gertrude Stein assigns to her lifelong companion the repeated comment that she has met three geniuses in her life Stein Picasso and Alfred North Whitehead

Writing for Immortality Anne E. Boyd, 2010-01-01 Before the Civil War American writers such as Catharine Maria Sedgwick and Harriet Beecher Stowe had established authorship as a respectable profession for women But though they had written some of the most popular and influential novels of the century they accepted the taboo against female writers regarding themselves as educators and businesswomen During and after the Civil War some women writers began to challenge this view seeing themselves as artists writing for themselves and for posterity Writing for Immortality studies the lives and works of four prominent members of the first generation of American women who strived for recognition as serious literary artists Louisa May Alcott Elizabeth Stuart Phelps Elizabeth Stoddard and Constance Fenimore Woolson Combining literary criticism and cultural history Anne E Boyd examines how these authors negotiated the masculine connotation of artist imagining a space for themselves in the literary pantheon Redrawing the boundaries between male and female literary spheres and between American and British literary traditions Boyd shows how these writers rejected the didacticism of the previous generation of women writers and instead drew their inspiration from the most prominent literary writers of their day Emerson James Barrett Browning and Eliot Placing the works and experiences of Alcott Phelps Stoddard and Woolson within contemporary discussions about genius and the American artist Boyd reaches a sobering conclusion Although these women were encouraged by the democratic ideals implicit in such concepts they were equally discouraged by lingering prejudices about their applicability to women
