## Sartre Alive:

**Sartre's Theatre** B. P. O'Donohoe, Benedict O'Donohoe, 2005 Published on the eve of the philosopher playwright's centenary this study offers a wide ranging re appraisal of Sartre's complete dramatic opus from the inaugural nativity play *Bariona* 1940 to the swan song chorus of *Armageddon Les Troyennes* 1965 It draws on a close reading of Sartre's writings in philosophy literature and criticism and provides an extensive survey of journalistic and academic reception Each play is situated in relation both to Sartre's intellectual evolution and to the broader historical context This is the first full length study in English for more than thirty years covering the whole of Sartre's theatre and it will interest students of twentieth century European drama as well as those of modern French literature and ideas

**The Time Before Death** Constantin V. Ponomareff, 2013 This collection of fifteen essays deals with the literary memoirs of major twentieth century writers and focuses on the spiritual physical and moral devastation of 20th century life They are comparative and cross cultural There is no other collection of essays with this range brought under one cover

The Power of Consciousness and the Force of Circumstances in Sartre's Philosophy Thomas W. Busch, 1989-11-22 Displaying a masterful grasp of the texts the author shows how otherness forces itself upon the existentialist Sartre gradually constraining him to modify his understanding of consciousness as omnipotent The issue is Sartre's discovery of the social and its conceptual assimilation into his individualistic consciousness oriented philosophy

Thomas R Flynn This very successful and accessible scholarly book is simultaneously a succinct and clear overview of Sartre's philosophical works and a fresh consideration of Sartre's body of work

Choice Busch's admirably clear and compact discussion is essential reading for Sartre scholars since it powerfully addresses many issues dividing them

**Ethics** a useful overview of the evolution of Sartre's thought

**Review of Politics** a thought provoking reassessment of Sartre's philosophical career

**Man and World** succinct richly documented survey

**International Studies in Philosophy**

*Sartre's Ethics of Engagement* T. Storm Heter, 2009-06-15 A refreshing alternative to the longstanding view that Sartre is an extreme individualist placing him instead at the centre of the debate over civic virtue and democratic participation

Sartre's Life, Times and Vision du Monde William L. McBride, 2013-09-13 William L McBride Professor of Philosophy at Purdue University is co founder of the North American Sartre Society and the first chairperson of its executive board His most recent publications include *Social and Political Philosophy* and *Sartre's Political Theory* He was recently named Chevalier dans l'Ordre des Palmes Academiques by the French Government and has served as Chairperson of the Committee on International Cooperation of the American Philosophical Association and as President of the Societe Americaine de Philosophie de Langue Francaise

The Sartrean Mind Matthew C. Eshleman, Constance L. Mui, 2020-01-24 Jean Paul Sartre was one of the most important philosophers of the twentieth century His influence extends beyond academic philosophy to areas as diverse as anti colonial movements youth culture literary criticism and artistic developments around the world Beginning with an introduction and biography of Jean Paul Sartre by Matthew C Eshleman 42 chapters by a team

of international contributors cover all the major aspects of Sartre's thought in the following key areas: Sartre's philosophical and historical context; Sartre and phenomenology; Sartre, existentialism and ontology; Sartre and ethics; Sartre and political theory; Aesthetics; literature and biography; Sartre's engagements with other thinkers. The Sartrean Mind is the most comprehensive collection on Sartre published to date. It is essential reading for students and researchers in philosophy as well as for those in related disciplines where Sartre's work has continuing importance such as literature, French studies and politics.

*A Commentary on Jean-Paul Sartre's Being and Nothingness* Joseph S. Catalano, 1985-09-15 A Commentary on Jean Paul Sartre's *Being and Nothingness* represents, I believe, a very important beginning of a deservedly serious effort to make the whole of *Being and Nothingness* more readily understandable and readable. In his systematic interpretations of Sartre's book, Catalano demonstrates a determination to confront many of the most demanding issues and concepts of *Being and Nothingness*. He does not shrink as do so many interpreters of Sartre from such issues as the varied meanings of being, the meaning of internal negation and absolute event, the idiosyncratic senses of transcendence, the meaning of the upsurge in its different contexts, what it means to say that we exist, our body, the connotation of such concepts as quality, quantity, potentiality and instrumentality in respect to Sartre's world of things, or the origin of negation. Catalano offers what is doubtless one of the most probing, original and illuminating interpretations of Sartre's crucial concept of nothingness to appear in the Sartrean literature. Ronald E. Santoni, *International Philosophical Quarterly*

**Ontology and Ethics in Sartre's Early Philosophy** Yiwei Zheng, 2005-01-01 At the end of *Being and Nothingness*, Sartre made the curious claim that his ethical views follow from his ontology and are based on it. Yiwei Zheng argues that there are unbridgeable gaps between Sartre's ontology and ethics that cannot be filled in, and in the process provides a careful study of some notoriously murky notions in Sartre's early philosophy. Calling into question much of what has passed as received wisdom in Sartrean studies, *Ontology and Ethics in Sartre's Early Philosophy* offers fresh insights to scholars of philosophy, ethics and Sartre.

*Sartre's French Contemporaries and Enduring Influences* William L. McBride, 2013-09-13 Sartre's French Contemporaries and Enduring Influences This final volume examines Sartre's best known philosophical contemporaries in France: Albert Camus, Maurice Merleau-Ponty and Simone de Beauvoir in terms of both their own philosophical insights and their relationship to Sartre's thought. The articles also offer some suggestive connections between Sartre's thought and subsequent developments in European philosophy, notably structuralism, poststructuralism and postmodernism. The comparatively recent nature of much of this scholarship is solid testimony to the enduring influence of Sartrean existentialism.

*Sartre's Two Ethics* Thomas C. Anderson, 1993 Sartre's moral thinking progressed from an abstract idealistic ethics of authenticity to a more concrete, realistic and materialistic morality. Much of Sartre's important unpublished work on ethics relevant to both his first and his second ethics has become available to scholars only in the years since his death. Only now has it become possible to give a complete presentation of both the first and the second ethics and to accurately identify their relationship. Sartre's Two

Ethics also presents Professor Anderson's original criticisms of Sartre's two ethics and concludes that the second is a significant advance over the first.

**Sartre and Psychoanalysis** Betty Cannon, 1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition. Drawing upon Sartre's work as well as her own experiences as a practicing therapist, she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory. The mind, Sartre argued, cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested. Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value. Through the Sartrean approach, Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs. By comparing Sartre with Freud and influential post-Freudians like Melanie Klein, Otto Kernberg, Margaret Mahler, D.W. Winnicott, Heinz Kohut, Harry Stack Sullivan, and Jacques Lacan, she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory. In the process, she adds a new dimension to our understanding of Sartre and his place in twentieth-century philosophy.

*Human Hope and the Death Instinct* David Holbrook, 2013-10-22 *Human Hope and the Death Instinct: An Exploration of Psychoanalytical Theories of Human Nature and their Implications for Culture and Education* focuses on the study of human nature. The manuscript first offers information on psychology as a form of philosophical anthropology and reactions against the Freudian theory, including the origins of love and hate, death instinct, and metapsychology and negation. The book then discusses human nature and the development of object relations psychology. Topics include the theories of W.R.D. Fairbairn on love and structure of personality, relationships of psychology, poetry, and science; Fairbairn's analysis of the logic of hate; and Melanie Klein's concept of phantasy and aggression. The text evaluates the relationships of identity and social theory, education, culture, and moral development, as well as amorality, progress, and democracy. The manuscript also discusses the connection of psychoanalysis and existentialism, including Jean-Paul Sartre's concept of freedom and R.D. Laing's position on existentialism. The book is a vital source of data for readers wanting to study human nature.

**Sartre Alive** Ronald Aronson, Adrian Van den Hoven, 1991

**The Specter of the Absurd** Donald A. Crosby, 2016-03-22 This book is our century's most comprehensive and wise treatment of nihilism in all of its guises, comparing favorably with Rosen Cavell and indeed with Spengler. Crosby argues that our culture is genuinely haunted by nihilism, expressing itself in the fideism of fundamentalism as well as in the debilitating alienation from all orientation. This results from a one-sided development of Western culture. Unlike most writers on this topic, Crosby acknowledges many sources colluding to frame the culture of nihilism, including the death of God, the objectification of nature, the meaninglessness of suffering in a mechanical universe, the ephemerality of time in a world where value does not accumulate, the arbitrariness of historicized reason, the reduction of value to will, and the alienation of the Cartesian ego. These sources are reviewed in the first two parts of the book with the result that the phenomenon of nihilism becomes understandable. In its

third and fourth parts Crosby provides a critical analysis of the religious and philosophical forces leading to nihilism by discussing authors from the early modern period through Dostoyevsky Sartre Russell and Derrida He shows that these forces are skewed and impoverished and should not be allowed to determine our situation The comprehensive attention to detail and the multi perspectival interpretation demonstrates as well as asserts the richness of the culture that puts nihilism in its place Part Five finally rephrases the criticism of the sources of nihilism in positive ways Part Four in particular is a tour de force of philosophical argument Its richness of nuance plurality of views examined and adroitness of critical interpretation provide cumulatively a powerful non nihilistic reading of the philosophic tradition The force of the argument derives from its comprehensive cumulative character Crosby distinguishes and relates five areas of nihilism political moral epistemological cosmic and existential Throughout the book he illustrates and examines these as they are expressed in literature and art in daily life and practical affairs and in philosophy The book is richly erudite in its marshalling of consciousness from so many domains

**An Analysis of Jean-Paul Sartre's Plays in Théâtre complet** Adrian van den Hoven,2024-08-01 An Analysis of Jean Paul Sartre s Plays in Th tre complet is the first volume to propose a critical analysis of all of Jean Paul Sartre s plays as published in the Biblioth que de la Pl iade Paris Gallimard 2005 Viewing the plays in the context of Sartre s philosophy his prose writings and works by other philosophers novelists and playwrights this comprehensive volume is essential reading for students of French literature theatre and existentialist philosophy

*Reading Sartre's Second Ethics* Elizabeth A. Bowman,Robert V. Stone,2023-03-27 In *Reading Sartre's Second Ethics* Elizabeth A Bowman and Robert V Stone provide a comprehensive reconstructive and critical interpretation of Jean Paul Sartre s mature dialectical ethics The key Sartrean texts are two posthumously published lectures one delivered at the Gramsci Institute in Rome in 1964 the other scheduled to be delivered at Cornell University in 1965 but cancelled by Sartre in protest of U S foreign policy Though different in content method and intended audience Sartre gave both lectures the shared title *Morality and History* As Bowman and Stone argue these texts comprise a single systematic ethic in two parts The Cornell lecture focuses primarily on a regressive and phenomenological analysis of normativity and its ambiguous place in lived moral experience the Rome lecture focuses primarily on a progressive and dialectical synthesis of the ends or goals of historical conduct Taken together the two texts demonstrate that integral humanity is always possible because the means to it can always be freely invented
