## Save The Birds:

**A Garden to Save the Birds** Wendy McClure, 2021-04-01 ALA Top 10 Sustainability themed Children's Books 2022 A brother and sister learn that small changes can make a big difference When a bird flies into their window by accident Callum and his sister Emmy learn that from the outside the glass looks just like the sky They also learn that the United States has lost a lot of birds in recent years and that there are lots of things their family can do to help First they set out feeders and make the windows safe Then for the winter they build a little shelter and put out a heated birdbath By springtime all kinds of birds are visiting their yard But with such a big problem is there more they can do to make a difference *Saving Birds* Pete Salmansohn, Stephen W. Kress, 2003 Profiles adults and children working in six habitats around the world to save wild birds some of which are on the brink of extinction Save the Cranes Anatoliĭ Greshnevikov, 2001 *Saving Migrant Birds* John Faaborg, 2014-02-19 Rigorous and well defended Faaborg makes many fresh and in some cases provocative points regarding management guidelines for migrant birds Kenneth Able Great Plains Research In the 1980s numerous scientific surveys documented both declining bird populations especially among Neotropical songbirds that winter in the tropics and the loss of tropical rain forest habitat Drawing the seemingly obvious conclusion scientists and environmental activists linked songbird declines to loss of tropical habitats and alerted the world to an impending ecological catastrophe Their warnings led to the establishment of the Neotropical Migratory Bird Conservation Program also known as Partners in Flight the self proclaimed largest conservation effort in history Looking back over more than a decade of efforts to save migrant birds John Faaborg offers the first serious evaluation of the state of songbird populations today the effectiveness of conservation programs such as Partners in Flight and the reliability and completeness of scientific research on migrant birds Taking neither an alarmist nor a complacent approach he shows that many factors besides habitat loss affect bird populations and that Neotropical migrants as a group are not declining dramatically though some species adapt to habitat alteration more successfully than others Faaborg's state of the art survey thus clarifies the kinds of information we will need and the conservation efforts we should undertake to ensure the long term survival of Neotropical migrant birds Presents a carefully and closely reasoned argument about the magnitude of the conservation problems facing migrant birds how we can reduce these problems and how current conservation efforts have enormous value even if there is no immediate crisis Scott K Robinson Professor and Head Department of Animal Biology University of Illinois *The Race to Save the Lord God Bird* Phillip Hoose, 2004-08-11 Tells the story of the ivory billed woodpecker's extinction in the United States describing the encounters between this species and humans and discussing what these encounters have taught us about preserving endangered creatures *ICT for Intelligent Systems* Jyoti Choudrie, Parikshit N.
