Proceedings of the 2022 6th International Seminar on Education, Management and Social Sciences (ISEMSS 2022) Ghaffar Ali, Mehmet Cüneyt Birkök, Intakhab Alam Khan, 2023-09-16 This is an open access book. The aim of the 2022 6th International Seminar on Education Management and Social Sciences (ISEMSS 2022) is to bring together innovative academics and industrial experts in the field of Education Management and Social Sciences to a common forum. The primary goal of the conference is to promote research and developmental activities in Education Management and Social Sciences, and another goal is to promote scientific information interchange between researchers, developers, students, and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in Education Management and Social Sciences and related areas.

Proceedings of the 2024 8th International Seminar on Education, Management and Social Sciences (ISEMSS 2024) Lu Chang, Gabriel Antunes de Araujo, Lei Shi, Qian Zhang, 2024-10-31 This is an open access book. The conference will focus on educational management and social studies, discussing key challenges and research directions for the development of the field, promoting the development and application of theories and methods in the field in universities and enterprises, and providing a favorable platform for innovative scholars and experts focusing on the field of research to exchange new ideas and present their research results.

The Investigative Enterprise William Coleman, Frederic L. Holmes, 2024-03-29 The seven distinguished contributors to this volume illuminate not only the history of the biological and medical sciences but also the relationship between institutes and ideas which characterized the explosion of scientific investigation, especially in Germany. Besides William Coleman and Frederic L. Holmes, they include Robert G. Frank Jr., Timothy Lenoir, John E. Lesch, Kathryn M. Olesko, and Arlene M. Tuchman. Scientific investigation was not new to the nineteenth century, but it was during that period that it began to be carried out on a scale large enough to become crucial to the welfare of nations. Much remains to be learned about how the forms of organization characteristic of the modern investigative enterprise originated. This book explores such questions in relation to one of the dominant experimental sciences of the century: physiology. Each author shows, through the examination of a specific institute or a specific subject, that the interplay between research, pedagogy, personal vision, and state or public interests can be studied to particular advantage in localized settings. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist
