William Gibson, *Alien Constructions* Patricia Melzer, 2010-01-01 An incisive critical work that looks at Octavia Butler's writing the movies of the Matrix and Alien series and more through a feminist lens Femspec Feminist thinkers and writers are increasingly recognizing science fiction's potential to shatter patriarchal and heterosexual norms while the creators of science fiction are bringing new depth and complexity to the genre by engaging with feminist theories and politics This

book maps the intersection of feminism and science fiction through close readings of science fiction literature by Octavia E Butler Richard Calder and Melissa Scott and the movies The Matrix and the Alien series Patricia Melzer analyzes how these authors and films represent debates and concepts in three areas of feminist thought identity and difference feminist critiques of science and technology and the relationship among gender identity body and desire including the new gender politics of queer desires transgender and intersexed bodies and identities She demonstrates that key political elements shape these debates including global capitalism and exploitative class relations within a growing international system the impact of computer industrial and medical technologies on women s lives and reproductive rights and posthuman embodiment as expressed through biotechnologies the body machine interface and the commodification of desire Melzer s investigation makes it clear that feminist writings and readings of science fiction are part of a feminist critique of existing power relations and that the alien constructions cyborgs clones androids aliens and hybrids that populate postmodern science fiction are as potentially empowering as they are threatening

Punk Rock: So What? Roger Sabin, 2002-09-11 It's now over twenty years since punk pogoed its way into our consciousness. *Punk Rock: So What?* brings together a new generation of academic writers and journalists to provide the first comprehensive assessment of punk and its place in popular music history, culture, and myth. The contributors, who include Suzanne Moore, Lucy O'Brien, Andy Medhurst, Mark Sinker, and Paul Copley, challenge standard views of punk prevalent since the 1970s. They re-situate punk in its historical context, analysing the possible origins of punk in the New York art scene and Manchester clubs, as well as in Malcolm McLaren's brain. Question whether punk deserves its reputation as an anti-fascist, anti-sexist movement which opened up opportunities for women musicians and fans alike. Trace punk's long-lasting influence on comics, literature, art, and cinema, as well as music and fashion. From films such as *Sideways* and *Nancy* to the Great Rock n' Roll Swindle, to work by contemporary artists such as Gavin Turk and Sarah Lucas, discuss the role played by such key figures as Johnny Rotten, Richard Hell, Malcolm McLaren, Mark E. Smith, and Viv Albertine. *Punk Rock Revisited* kicks over the statues of many established beliefs about the meaning of punk, concluding that if anything, punk was more culturally significant than anybody has yet suggested, but perhaps for different reasons.

Surfing the Gnarl Rudy Rucker, 2012-01-25 The original Mad Professor of cyberpunk, Rudy Rucker, along with fellow outlaws William Gibson and Bruce Sterling, transformed modern science fiction, tethering the gnarly speculations of quantum physics to the noir sensibilities of a skeptical and disenchanted generation. In acclaimed novels like *Wetware* and *The Hacker*, and the *Android*, he mapped a neotopian future that belongs not to sober scientists but to drug-addled, sex-crazed youth. And won legions of fans doing it. In his outrageous new story *The Men in the Back Room at the Country Club*, Dr. Rucker infiltrates fundamentalist Virginia to witness the apocalyptic clash between Bible thumpers and Saucer Demons at a country club barbecue. He shoots erotica into orbit with *Rapture in Space* to explore the future of foreplay in freefall. In his gonzo nonfiction masterpiece *Surfing the Gnarl*, he documents the role of the Transreal in transforming both the personal and the political, distinguishes with mathematical precision between high gnarl and low gnarl in literature and life, and argues for remaking popular culture as a revolutionary project. And featuring PM's exclusive Outspoken Interview in which the author explains Infinity, deconstructs his own outrageous film career, answers one Jeopardy question, and finally reveals the truth about Time. All under oath. You'll never be the same. Is that good or bad? Your call.
