Semiperipheral development and foreign policy Mehmet Fatih Tayfur, 1997

Greece and the Cold War Alexander Kazamias, 2022-08-25 After the proclamation of the Truman Doctrine in 1947 the United States became deeply involved in Greek affairs By 1952 however the pro Western government of Marshal Papagos began to support the nationalist Enosis movement in Cyprus and called for an end to British colonial rule in the island The opposition of the US Britain and Turkey to these demands brought Greece face to face with its closest allies at the United Nations in 1954 and led to the outbreak of the first major crisis within NATO since its creation Greece and the Cold War examines these developments from the novel perspective of critical international theory and exposes the unexplored connections between dependence and nationalism in Greek foreign policy Drawing on a wide range of American British and Greek archival sources it argues that nationalism and compliance with the collective interests of NATO were two irreconcilable objectives in Greek foreign policy after 1952 At the same time the book tells the story of how the post Civil War governments of Greece for a variety of political cultural and ideological reasons treated these two objectives as essentially compatible resulting in the adoption of a dualist policy This self contradictory diplomatic doctrine which the author refers to as dependent nationalism lies at the heart of Greece's post War failures both to emancipate its politics from US intervention and to peacefully end its regional dispute with Turkey over Cyprus The book deploys an interdisciplinary approach which brings together the diverse perspectives of diplomatic history foreign policy analysis and political sociology

Foreign Policy in the Twenty-First Century Christopher Hill, 2015-11-02 In the years since 9 11 followed by the wars in Iraq and Afghanistan public attention the world over has been on foreign policy From the United

States to Yemen from China to Venezuela the quality of the decisions taken by politicians and diplomats has been under the closest scrutiny What is more with the increased personal mobility created by globalization many individuals and groups now focus as much on international events as on affairs within their own state Diasporas company managers humanitarian volunteers and other non state actors are aware of the necessity for effective diplomacy to secure the outcomes they hope for This revised and retitled new edition of the author s acclaimed *The Changing Politics of Foreign Policy* provides the concepts and analysis needed to make sense of contemporary developments in this key site of political action It provides a clear and engaging synthesis of what foreign policy means in the twenty first century and shows how it can vary according to regime level of development and geopolitical position Stressing the interplay between context and shared dilemmas it examines how actors including the many non and sub state entities which have developed international strategies engage and attempt to manage their differences within a network of complex multilateral relationships Written by a leading scholar of international renown this new edition has been updated throughout with particular attention given to contemporary issues such as soft power transnational security challenges and the role of regional actors such as the European Union New to this Edition Substantially revised and updated new edition of an extremely influential acclaimed and widely used foreign policy text Updated coverage of events and theory *The National Interest in Question* Christopher Hill, 2013-08-22 This volume examines the interaction between foreign policy making and multicultural societies It analyses the challenges of rapid social change associated with inward migration and increased ethnic and cultural diversity in ten EU Member States **Chaos and Complexity Theory in World Politics** Erçetin, Şefika Şule, Banerjee, Santo, 2014-05-31 As an important research field in mathematics chaos theory impacts many different disciplines such as physics engineering economics and biology Most recently however chaos theory has also been applied to the social sciences helping to explain the complex and interdependent nature of international politics *Chaos and Complexity Theory in World Politics* aims to bring attention to new developments in global politics within the last few years Demonstrating various issues in international relations and the application of chaos theory within this field this publication serves as an essential reference for researchers and professionals as well as useful educational material for academicians and students **Social Change and Education in Greece** S. Themelis, 2013-01-07 Aims to inform students scholars and educators about the complex processes and factors that promote or impede education s potential to enhance individual advancement within the socioeconomic structure of a late industrialized country within the context of modern capitalism **The Political Economies of Turkey and Greece** Mustafa Kutlay, 2018-08-07 The economic policies of reactive states such as Turkey and Greece both of which have shown limited ability to implement institutional reforms in recent years have paved the way for deep crises The crises are devastating for both societies social fabric but they also open up the opportunity to introduce new economic regimes They do however not always invite changes in dominant paradigms Despite weak state capacity and deep economic crisis in both

cases substantial reforms were initiated in Turkey whilst an opposite trend prevailed in Greece Drawing on field research this book develops a political economy framework that explains reform cycles and post crisis outcomes in reactive states

US-Spanish Relations after Franco, 1975-1989 Morten Heiberg, 2018-02-19 On September 26 1953 the Eisenhower administration signed three executive agreements with General Franco's regime which allowed the United States to install military bases in Spain in exchange for economic and military aid The deal clearly favored US Cold War interests and critics soon denounced that by signing the Pact of Madrid America had betrayed its own democratic credentials The agreements stabilized the dictatorship and effectively converted it into a US satellite During the transition to democracy after 1975 the US military presence in Spain was strongly debated Many politicians and a large section of the Spanish public demanded a new foreign policy and a much higher degree of autonomy for Spain in the international system However as this book unravels the UCD center governments of the late 1970s and early 1980s essentially gave up on their long held claim to a new and more balanced relationship with Washington This fact was carefully concealed from the public Thus it was only well into the mid 1980s when the new socialist government gradually developed a more consistent foreign policy doctrine that Washington fully realized that the bilateral relations had to be approached in an entirely different manner For all these reasons the present work is also a statement in the ongoing scholarly debate on the Spanish transition to democracy and the importance of foreign influences on this process Finally the book sheds new light on the role of King Juan Carlos in foreign affairs just as it discusses Spain's alleged role in the Iran Contra Affair The Greek Connection James H.

Barron, 2020-07-28 Spanning from WWII to the Cold War and beyond this is the magnificent triumphant biography of the investigative journalist resistance fighter and whistle blower who helped expose the Watergate scandal Doris Kearns Goodwin author of *Leadership* He was one of the most fascinating figures in 20th century political history Yet today Elias Demetracopoulos is strangely overlooked even though his life reads like an epic adventure story As a precocious twelve year old in occupied Athens he engaged in heroic resistance efforts against the Nazis for which he was imprisoned and tortured After his life was miraculously spared he became an investigative journalist covering Greece's tumultuous politics and America's increasing influence in the region A clever and scoop hungry reporter Elias soon gained access to powerful figures in both governments and attracted many enemies When the Greek military dictatorship took power in 1967 he narrowly escaped to Washington DC where he would lead the fight to restore democracy in his homeland while running afoul of the American government too Now after a decade of research and original reporting James H Barron uncovers the story of a man whose tireless pursuit of uncomfortable truths would put him at odds with not only his own government but that of the Truman Eisenhower Kennedy Johnson Nixon Ford Carter and Reagan administrations making him a target of CIA FBI and State Department surveillance and harassment and Greek kidnapping and assassination plots American authorities may have purposefully overlooked A stunning feat of biographic storytelling sweeping from World War II to the Cold War Watergate

and beyond The Greek Connection is about a lifetime of standing up for democracy and a free press against powerful special interests It has much to teach us about our own era s abuses of power dark money journalist intimidation and foreign interference in elections

Post-identity? Richard McMahon,2013-06-26 Collective identity the emotionally powerful sense of belonging to a group is a crucial source of popular legitimacy for nations However efforts since the 1990s to politically support European integration by using identity mechanisms borrowed from nationalism have had very limited success European integration may require new post national approaches to the relationship between culture and politics This controversial and timely volume poses the logical question if identity doesn t effectively connect culture with European integration politics what does The book brings together leading scholars from several of the disciplines that have developed concepts of culture and methods of cultural research These expert interdisciplinary contributors apply a startling diversity of approaches to culture linking it to facets of integration as varied as external policy the democratic deficit economic dynamism and the geography of integration This book examines commonalities and connections within the European space as well as representations of these in identity discourses It will be useful for students and scholars of sociology geography anthropology social psychology political science and the history of European integration

Greek-Turkish Relations Mustafa Aydın,Kostas Ifantis,2025-06-27 This book provides an overview of the complex and turbulent relations between Greece and Turkey focusing on recent developments and the challenges in their bilateral relationship It draws on a comprehensive array of international relations theories to suggest that sources of instability in the Aegean are found in security relations identity and cultural discourses and patriarchal and class societal structures The chapters reflect on several questions about the role and significance of constitutive and non constitutive elements in the Greek Turkish policy and social arenas They offer a better understanding of the bilateral interaction and why the Greek Turkish relationship continue to hold the potential for traditional geopolitical antagonism and conflict as well as why it is so hard to escape a security culture of hopelessly unresolved problems enduring security dilemmas crisis prone geopolitics The chapters in this book discuss the historical context including attempts at reconciliation and examine the role of perceptions geopolitics and historical grievances in shaping the current situation The book emphasizes the cyclical nature of relations with periods of calm followed by tensions and crises It highlights the need for a comprehensive approach to resolve the existing disputes including the importance of confidence building measures and a political settlement Overall the book underlines the complexity of Greek Turkish relations and the challenges in achieving lasting peace and stability in the region This book is aimed at scholars policymakers and students in the fields of international relations political science and security studies The chapters in this book except for Chapter 8 were published as a special issue of Journal of Balkan and Near Eastern Studies Chapter 8 was originally published in Southeast European and Black Sea Studies

American Book Publishing Record ,2004 *IBSS: Political Science: 2004 Vol. 53* The British Library of Political and Economic Science,2005-10-26 First published in 1952 the
