Senators On The Campaign Trail:

Senators on the Campaign Trail Richard F. Fenno, 1998-02-01 This is a book about the politics of representative democracy written from the perspective of the politicians who make it work Typically political scientists study campaigns from the perspective of the voter and for the purpose of explaining election outcomes But campaigns also need to be studied from the perspective of the candidate for the purpose of understanding representation Richard F Fenno Jr traveled with ten U S senators as they campaigned in their home states using what he calls the drop in drop out tag along hang around method of research to present a developmental picture of their activities His focus here is on three such activities pursuing a career campaigning for office and building constituency connections Taken together the three constitute the political underpinnings of representative democracy Fenno describes the achievement the testing and the maintenance of representational relationships He examines challengers and incumbents winners and losers and motivations strategies and behaviors and he reports on differences similarities and patterns among them In studying the candidates varied careers campaigns and connections in stages and sequences and in depth and in allowing us to hear them reflect on these experiences Fenno has been able to offer rare insights into campaigns and elections insights very different from conventional ones that concentrate on the behavior of voters In its focus on the process of representative democracy **Senators on the Campaign Trail** offers a rich rounded developmental view of some high level individuals who work at the business of representation For scholars the book suggests some qualitative confirmation and added stimulation in forging generalizations about politicians For citizens the book argues for replacing the conventional blanket condemnation of our politicians so prevalent today with more discriminating judgments about what they do and why and to what purpose they do it

The Spectacle of U.S. Senate Campaigns Kim Fridkin Kahn, Patrick J. Kenney, 2021-03-09 This book offers a bold comprehensive look at how campaigns actually work from the framing of issues to media coverage to voters decisions In so doing it challenges the common wisdom that campaigns are a noisy symbolic aspect of electoral politics in which the outcomes are determined mainly by economic variables or presidential popularity Campaigns the authors argue do matter in the political process Examining contested U S Senate races between 1988 and 1992 Kim Kahn and Patrick Kenney explore the details of the candidates strategies and messages the content tone and bias of the media coverage and the attitudes and behaviors of potential voters Kahn and Kenney discover that when the competition between candidates is strong political issues become clearly defined and the voting population responds Through a mix of survey data content analysis and interviews the authors demonstrate how competition influences serious political debates in elections Candidates take stands and compare themselves to their opponents The news media offer more coverage of the races presenting evaluations of the candidates positions critiques of their political careers and analyses of their campaign ads In response the voters pay closer attention to the rhetoric of the candidates as they learn more about central campaign themes often adjusting their own voting criteria The book

concentrates on Senate races because of the variance in campaign strategy and spending media coverage and voter reactions but many of the findings apply to elections at all levels

The Politics of the Black Nation Georgia A. Persons, 2017-07-12 This volume of the National Political Science Review the official publication of the National Political Science Association is anchored by a major symposium on The Politics of the Black Nation the book authored by Matthew Holden in 1973 which is now considered one of the most influential books in the field of black politics Twenty five years provide a sufficient timespan on which to base a retrospective of the book and simultaneously to reflect upon the evolution of the black liberation struggle more formally called African American politics In the present age there is not much talk about a black nation certainly not as was heard during the 1960s and mid 1970s Yet there is a persistent sense of separateness in that there is constant thought and talk of Black America as a significantly separate communal entity Black Americans are seen as a racially and culturally distinct community holding to social political economic interests which have special significance and poignancy for them Holden s perception of the nature of the times in the early seventies stands in sharp contrast to how contemporary analysts of African American politics tend to perceive the nature of African Americans role in political life and their position in American society in the present age In this retrospective readers have the opportunity to get a sense of what Holden argued of the seven essays that make up his seminal volume and to consider how well Holden s observations have stood the tests of time In addition to the essays presented at the symposium which pointedly discuss Holden s work there are essays dealing with African American Politics in Constancy and Change by contributors including Charles Henry David Covin Robert C Smith Clyde Lusane Cheryl Miller D Linell Finley and Sekou Franklin among others Other features are a highly informative discussion of the Literary Digest magazine s Straw Vote Presidential Polls 1916 1936 and a

Congress and Policy Change Gerald C. Wright, Leroy N. Rieselbach, Lawrence C. Dodd, 1986 This book is about congressional policy making and particularly processes by which congressional policy changes and does not change At times in our history Congress has been a policy initiator at others it has been the bastion of

resistance to new directions of government action It reflects the will of the citizenry at times while at others its rules and processes have done more to serve the interests of special and minority interests from preface In this collection of original essays each presenting new research on the personal political and institutional factors influencing congressional policy

Senator Leahy Philip Baruth,2017-05-02 Having vaulted to a position in the United States Senate at the tender age of thirty four Patrick Leahy now claims the longest tenure of any member of that institution still serving and he was third in line for the presidency when the Democrats held control Few recent American lawmakers have watched history unfold so at such close range fewer still have influenced it so powerfully Philip Baruth brings a thriller like intensity to the most spectacular of those scenes the 9 11 attack on the US capital the contentious drafting of the Patriot Act the ensuing anthrax attacks and the dramatic 2014 opening of diplomatic ties with Cuba Throughout the biography focuses in on Leahy s meticulous image making his cultivation of a Top Cop persona both in the media and at the ballot box It is an approach that culminates in simultaneous roles for the lawmaker as chair of the Senate Judiciary Committee and as the tough talking distinguished gentleman in Christopher Nolan s acclaimed Dark Knight trilogy of Batman films Leahy s improbable success Philip Baruth argues in the end lies in his ability both to be and to play the top cop not only in post Watergate Vermont but in a post 9 11 America viciously divided between the red states and the blue JFK in the Senate: Pathway to the Presidency John

Senate **Hearings** United States. Congress Senate,1967 **Unfolding Ambition in Senate Primary Elections** Aaron S. King,2017-05-30 Theories of ambition teach us that elected offices are valuable commodities to certain politicians and

under the right circumstances the benefits of running for an office outweigh the associated risks Yet some ambitious politicians emerge as candidates while others do not This book analyzes strategic candidacy decisions to explain how primary elections for the United States Senate unfold With new comprehensive data on pools of potential candidates it examines the determinants of electoral and fundraising success analyzes the importance of the timing of candidacy decisions and the strategic interactions of prospective officeholders and investigates the impact of strategic retirements Using both qualitative and quantitative tools including event history techniques to capture the complex dynamics of these races it concludes that the manner in which politicians interact with one another and the unique context within each campaign leads to individuals emerging from the pool of potential candidates in systematic ways In the end the strategic behavior of ambitious politicians has important implications for the slate of candidates available to the electorate and ultimately the quality of representation between constituents and their legislators
