*Baumgarten's Philosophical Ethics* Alexander Gottlieb Baumgarten,2023-12-14 Alexander Baumgarten s *Ethica Philosophica* 1740 served as a chief textbook of philosophical instruction in German universities for several decades and was used by Immanuel Kant for his lectures on moral philosophy between 1759 and 1794 Now translated into English for the first time John Hymers explores the extent of Baumgarten s influence on the development of German philosophy Accompanied by an introduction to Baumgarten and his work this translation features an explanation of the main themes of the *Ethica Philosophica* touching upon its relation to Christian Wolff and G F Meier s practical philosophy but focusing especially on its role in Kant s lectures First time translations of elucidatory passages from the writings of Meier Wolff and Heinrich K hler appear together with the relevant transcriptions of Kant s lectures on ethics Based on a thorough knowledge of the original text Hymers clear translation and supporting material makes it possible to distinguish Kant s own remarks and insights from his attempts to expound and summarize Baumgarten s ideas This is a much needed contribution for anyone working in the history of modern philosophy      *What We Owe to Nonhuman Animals* Gary Steiner,2023-09-27 This book strongly challenges the Western philosophical tradition s assertion that humans are superior to nonhuman animals It makes a case for the full and direct moral status of nonhuman animals The book provides the basis for a radical critique of the entire trajectory of animal studies over the past fifteen years The key idea explored is that of felt kinship a sense of shared fate with and obligations to all sentient life It will help to inspire some deep rethinking on the part of leading exponents of animal studies The book s strong outlook is expressed through an appeal for radical humility on the side of humans rather than a

constant reference to the human animal divide Historical figures examined in depth include Aristotle Seneca and Kant contemporary figures examined include Christine Korsgaard and Martha Nussbaum This book presents an account according to which the tradition has not proceeded on the basis of impartial motivations at all but instead has made a set of pointedly self serving assumptions about the proper criteria for assessing moral worth Readers of this book will gain exposure to a wide variety of thinkers in the Western philosophical tradition historical as well as contemporary This book is suitable for professionals working in nonhuman animal studies students advanced undergraduates and practitioners working in the fields of philosophy environmental studies law literature anthropology and related fields **Not Half No End** Geoffrey

**Philosophies of Technology: Francis Bacon and his Contemporaries (2 vols.)**, 2008-10-31 The essays in the present volume attempt to historically reconstruct the various dependencies of philosophical and scientific knowledge of the material and technical culture of the early modern era and to draw systematic conclusions for the writing of early modern history of science The divisive transformation of humanist scholarly culture the Scholastic school philosophy as well as magic in the form of a philosophy of practice is always associated with the work of Francis Bacon All of these essays in this volume reflect the close interaction between technical models and knowledge production in natural philosophy natural history and epistemology It becomes clear that the technological developments of the early modern era cannot be adequately depicted in the form of a pure history of technology but rather only as part of a broader cultural history of the sciences Contributors include Todd Andrew Borlik Arianna Borrelli Thomas Brandstetter Daniel Damler Luisa Dolza Moritz Epple Berthold Heinecke Dana Jalobeanu Jürgen Klein Staffan Müller Wille Romano Nanni Jarmo Pulkkinen Pablo Schneider Andrés Vaccari Benjamin Wardhaugh Sophie Weeks and Claus Zittel

*Novatian's Theology of the Father and Son* Daniel Lloyd, 2020-07-23 Early Christian theologian Novatian's c. 200-258 work begins with the topic of the unique and supreme Father The categories he uses to describe the Father include both traditions from Christian sources and articulations of negative theology especially as seen in Middle Platonism After establishing the limitations set by philosophical and theological language Daniel Lloyd turns to the positive categories Novatian chooses for describing the Father highlighting Novatian's emphasis on revelation evaluating the parameters of the uniqueness of the Father and showing that his theology presents the Father as distinct in attributes such as incomprehensibility eternality and inability to change Having presented Novatian's theology of the Father as the center point of his thought Lloyd next assesses Novatian's theology of the Son showing that his categories and terminology even to the point of calling the Son God do not function against his theology of the unique Father Novatian has many resources for speaking about the Son's divinity in a way that does not contradict his theology of the Father Lloyd presents and analyzes these resources to demonstrate that the Son's status as ontologically subordinate to the Father is the best reading of De Trinitate

**Rome's Enemies Within** John S McHugh, 2024-10-30 The greatest danger to Roman emperors was the threat of deadly conspiracies arising among the Senate the imperial court or even their own families All the emperors that reigned from Augustus to the end of the first century AD faced such efforts to overthrow or assassinate them John McHugh uncovers these conspiracies narrating them and seeking to explain them The underlying cause in many cases was the decline in influence patronage and status granted by emperors to the Senatorial class leading some to seek power for themselves or a more generous candidate Attempted assassinations or coups led the emperors to mistrust the Senate and rely more on freedmen causing more resentment Paranoid emperors often reacted to the merest hint of treason real or imagined with punishments and executions leading more of those around them to consider desperate measures out of self preservation And of course amid this vicious circle of poisonous mistrust there were ambitious family members promoting their own or their offspring s claims to the purple and the duplicitous Praetorian Guard John McHugh brings to light a century of assassination conspiracy and betrayal exploring the motives and aims of the plotters and the bloody cost of success or failure
