Senor Kon Tiki:

Senor Kon-tiki ,1968 **Kon-Tiki** Thor Heyerdahl,2014-11-11 One of the great adventures of our time Life Am going to cross Pacific on a wooden raft to support a theory that the South Sea islands were peopled from Peru Will you come Reply at once That is how six brave and inquisitive men came to seek a dangerous path to test a scientific theory On a primitive raft made of forty foot balsa logs and named Kon Tiki in honor of a legendary sun king Thor Heyerdahl and five companions deliberately risked their lives to show that the ancient Peruvians could have made the 4 300 mile voyage to the Polynesian islands on a similar craft For three months the bold young men made their way across the pacific at the complete mercy of the ocean They encountered storms that threatened to tear their raft apart whales large enough to sink them in the blink of an eye and sharks ready to feast on any man unfortunate enough to fall overboard In the true spirit of adventure they held on until finally making landfall on a remote Polynesian island proving Heyerdahl s theory possible after all On every page of this true chronicle from the actual building of the raft through all the dangerous and comic adventures on the sea to the spectacular crash landing and the native islanders hula dances each reader will find a wholesome and spellbinding escape from the twenty first century [A Hero for the Atomic Age](#) Axel Andersson,2010 Nomination for Best Foreign Film at the 2013 Academy Awards In English and many other languages the name Kon Tiki has become a byword for adventure and the exotic The journey of the Kon Tiki from Peru to Polynesia in 1947 became one of the founding myths of the postwar world In the voyage of six Scandinavians and a parrot on a balsa raft across the Pacific Ocean the classic journey of discovery was re invented for generations to come Kon Tiki spoke of heroism masculinity free spirited rebellion against scientific dogmatism and the promise of an attainable exotic world while it updated these mythological staples to fit the times After years of relentless media exploitation of the 101 day raft journey Heyerdahl emerged as the protagonist in a legend that helped to create a new postwar West A Hero for the Atomic Age tells the story of how Heyerdahl organized an expedition to sail a balsa raft from Callao in Peru to the Tuamotu Islands in French Polynesia and explains how he turned this physical crossing into an epic narrative that became imbued with a universal appeal The book also addresses for the first time the problematic nature of Heyerdahl s theory that a white culture bearing race had initiated all the world s great civilizations *Señor Kon-Tiki. Boken Om Thor Heyerdahl. Señor Kon-Tiki ... Viaje por la Polinesia y Am rica del Sur Viaje por la Polinesia y Am rica del Sur **Señor Kon-Tiki; the Biography of Thor Heyerdahl** Arnold Jacoby,1967 The voyage of Kon Tiki just two decades ago was one of the great true adventures of our century For its daring leader Thor Heyderahl this expedition was the turning point of a life already crowded with excitement Now overnight he was an international celebrity but a man half obscured by the shadow of his own achievement Millions new his name but few knew the man behind the voyage In this definitive biography Arnold Jacoby focuses on that man He tells of Heyerdahl s boyhood youth of the experimental year when he and his bride returned to nature on a remote Pacific island to see if modern man was better off than primitive man and of his wartime experiences in the Free Norwegian Army One theme recurs throughout those years Heyerdahl s growing conviction that accepted scientific opinion about the origins of the South Sea islanders was incorrect But his own theories brought only scorn from the scientific community until he set out to prove himself right in the only way possible by recreating the Pacific voyage he knew must once have take place The Kon Tiki and subsequent expeditions to Easter Island and the Galapagos won Heyerdahl renown and perhaps more importantly scientific respect The behind the scenese stories of these achievements and thier aftermath are all part of this fascinating book inside jacket

Easter Island Michael Capek,2008-09-01 Examines the mysterious stone heads of Easter Island **Corpsman** ,1966-08 **Ancient Ocean Crossings** Stephen C. Jett,2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In Ancient Ocean Crossings Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth s two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and

daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development

The Survival of Easter Island Jan J. Boersema, 2015-04-13 In this book Jan J Boersema reconstructs the ecological and cultural history of Easter Island and critiques the hitherto accepted theory of the collapse of its civilization The collapse theory advanced most recently by Jared Diamond and Clive Ponting is based on the documented overexploitation of natural resources particularly woodlands on which Easter Island culture depended Deforestation is said to have led to erosion followed by hunger conflict and economic and cultural collapse Drawing on scientific data and historical sources including the shipping journals of the Dutch merchant who was the first European to visit the island in 1722 Boersema shows that deforestation did not in fact jeopardize food production and lead to starvation and violence On the basis of historical and scientific evidence Boersema demonstrates how Easter Island society responded to cultural and environmental change as it evolved and managed to survive
