A Critical Analysis of C.D. Broad's Theory of Perception. (The Woodbridge Prize Essay in Philosophy, Columbia University, 1950.). Martin LEAN,1953 *Sense-perception and Matter, a Critical Analysis of C. D. Broad's Theory of Perception, by Martin Lean... [A Dissertation.]*. Martin Lean,1953 **Sense-Perception and Matter** Lean Martin,Martin Lean, Martin,2014-12 First published in 1999 Routledge is an imprint of Taylor Francis an informa company Sense Without Matter Or Direct Perception Arthur Aston Luce,1954 Sensory Perception Friedrich G. Barth,Patrizia Giampieri-Deutsch,Hans-Dieter Klein,2012-10-13 Sensory perception mind and matter aims at a deeper understanding of the many facets of sensory perception and their relations to brain function and cognition It is an attempt to promote the interdisciplinary discourse between the neurosciences and psychology which speaks the language of cognitive experiences and philosophy which has been thinking about the meaning and origin of consciousness since its beginning Leading experts contribute to such a discourse by informing the reader about exciting modern developments both technical and conceptual and by pointing to the big gaps still to be bridged The various chapters provide access to scientific research on sensory perception and the mind from a broad perspective covering a large spectrum of topics which range from the molecular mechanisms at work in sensory cells to the study of the unconscious and to neurophilosophy **Forms and Concepts** Christoph Helmig,2012-12-19 Forms and Concepts is the first comprehensive study of the central role of concepts and concept acquisition in the Platonic tradition It sets up a stimulating dialogue between Plato s innatist approach and Aristotle s much more empirical response The primary aim is to analyze and assess the strategies with which Platonists responded to Aristotle s and Alexander of Aphrodisias rival theory The monograph culminates in a careful reconstruction of the elaborate attempt undertaken by the Neoplatonist Proclus 6th century AD to devise a systematic Platonic theory of concept acquisition **The Well-ordered Universe** Deborah A. Boyle,2018 The prolific Margaret Cavendish 1623 1673 published books on natural philosophy as well as stories plays poems orations allegories and letters Her mature philosophical system offered a unique panpsychist theory of Nature as composed of a continuous non atomistic perceiving knowing matter In contrast to the dominant philosophical

thinking of her day Cavendish argued that all matter has free will and can choose whether or not to follow Nature's rules The Well Ordered Universe explores the development of Cavendish's natural philosophy from the atomism of her 1653 poems to the panpsychist materialism of her 1668 Grounds of Natural Philosophy Deborah Boyle argues that her natural philosophy her medical theories and her social and political philosophy are all informed by an underlying concern with order regularity and rule following This focus on order reveals interesting connections among apparently disparate elements of Cavendish's philosophical program including her views on gender on animals and the environment and on sickness and health Focusing on the role of order in Cavendish's philosophy also helps reveal key differences between her natural philosophy and her more conservative social and political philosophy Cavendish believed that humans' special desire for public recognition often leads to an unruly ambition causing humans to disrupt society in ways not seen in the rest of Nature Thus The Well Ordered Universe defends Cavendish as a royalist who endorsed absolute monarchy and a rigid social hierarchy for maintaining order in human society

*Intentionality in Mulla Sadra* Sümeyye Parıldar, 2020-03-11 This volume translates Brentano's intentionality into medieval psychological and ontological discussions through Sadrian theories of sense perception and mental existence Applying a new methodology it reframes various parts of Sadrian theory around the problem of intentionality which results in a refreshed reading of the philosopher Mulla Sadra The book starts out by defining intentionality problem and discussing the historiography of Brentano's conceptualization It examines immateriality content and aboutness and sense perception In its conclusion the book claims that intentionality in Mulla Sadra combines ontological and psychological realities and that as a result of Sadrian monism the intentionality intentional object the agent and the reality are different versions of same reality
