Sense Of The Cosmos Scientific Knowledge And Spiritual Truth:

A Sense of the Cosmos Jacob Needleman, 1976 Western science has operated for centuries on the assumption that we can understand the universe without understanding ourselves We are just now seeking to make the necessary connection between the general laws of nature and those of our own inner nature

Seyyed Hossein Nasr's Ecological Ethics Muzzamel Hussain Imran, 2023-12-02 The book explores the profound insights of Seyyed Hossein Nasr an Islamic scholar on the ecological crisis and its underlying causes Nasr argues that the dominance of scientism which prioritizes contemporary science as the sole source of knowledge has led to a destructive relationship between humans and nature He proposes that restoring the religious perspective is crucial for finding a lasting solution to the ecological problem The book delves into Nasr's comprehensive body of work covering diverse subjects such as Islamic philosophy Islamic art Islamic science Sufism and the ecological crisis Nasr's approach advocates for a holistic and inclusive philosophy that draws inspiration from the perennial philosophy and the principles of Islam He emphasizes the importance of reconnecting with our spiritual heritage and rediscovering reverence for the natural world The book also discusses the relevance and applicability of Nasr's ideas to non Islamic cultures and societies This is a unique study into the work of an important Islamic scholar and ecologist The key audience includes scholars and researchers interested in Islamic philosophy environmental ethics and the intersection of religion and ecology

Gurdjieff Reconsidered Roger Lipsey, 2019-02-05 From a master biographer and longtime Gurdjieff practitioner a brilliant new exploration of the quintessential Western esoteric teacher of the twentieth century The Greek Armenian teacher G I Gurdjieff was one of the most original and provocative spiritual teachers in the twentieth century West Whereas much work on Gurdjieff has been either fawning or blindly critical acclaimed scholar and writer Roger Lipsey balances sympathetic interest in Gurdjieff and his Fourth Way teachings with a historian's sense of context and a biographer's feel for personality and relationships Using a wide range of published and unpublished sources Lipsey explores Gurdjieff's formative travels in Central Asia his famed teaching institution in France the development of the Gurdjieff Movements and music and above all Gurdjieff's fascinating continuous evolution as a teacher Published on the 70th anniversary of Gurdjieff's death *Gurdjieff Reconsidered* delves deeply into Gurdjieff's writings and those of his most important students including P D Ouspensky and Jeanne de Salzmann Lipsey's comprehensive approach and unerring sense of the subject make this a must read for anyone with a serious intention to explore Gurdjieff's life teachings and reputation

The Quest, 2004 *Traditional Islamic Environmentalism* Tarik M. Quadir, 2013-09-16 This work examines the relevance of traditional Islamic thought and practices for a lasting solution to the current environmental crisis Quadir describes how Seyyed Hossein Nasr challenges Muslims to reclaim their traditional intellectual and Sufi heritage as powerful means toward a most thoughtful approach to the crisis In so doing Nasr urges us to take a critical look at the consequences of the worldviews generated by modern science and technology and offers bold solutions for a more caring relationship between

man and nature The book argues that only a revival of the traditional worldview which perceives all entities of nature as signs of God can effectively respond to the crisis our planet faces *Sorcerers* Jacob Needleman,2015-11-02 In this novel steeped in esoteric wisdom a young man joins a club of teenage magicians called The Sorcerer s Apprentices and is swept up into a world of magic Skilled Dialogue Isaura Barrera,Lucinda Kramer,2017-08-29 Ever needed to communicate or even collaborate with someone who just didnt agree with you or see things as you did Think theres only two options their way to your way Barrera and Kramer propose a third option inclusive of both ways They present an approach that goes beyond both and to arrive at a third option Skilled Dialogue a field tested series of strategies that can transform contradictory interactions into complementary ones Readers will learn how to build mutually complementary relationships that honor difference access and mine the strengths of differences explore multiple ways of creating mutually satisfying options without the need for compromise apply the six Skilled Dialogue strategies in ways that generate respect i e honor identity reciprocity i e honor voice and responsiveness i e honor connection Case examples and sample scenarios allow readers to practice what theyve learned and provide them with models for their own interactions An invaluable resource for all who interact across differences whether professionally or personally this book will help readers to resolve interactional challenges in ways that allow differences to enhance outcomes rather than detract from them **The Mind's Eye: The Evolution of the Athlete's Skills and Consciousness** Jimmy Joy,2009 The Mind s Eye describes a successful method in the implementation of a mental training program for rowers Under Jimmy Joy s guidance and direction countless rowers at all levels including the international and university level trained using an integral approach that develops the athletes skills and his consciousness This book is Jimmy s description of the specific processes involved in developing you or your athlete s ability to achieve Flow the sense of effortless in an activity and experience peak performance Amazon com **The Spectrum of Gratitude Experience** John Elfers,Patty Hlava,2016-12-07 Drawing from current research in psychology the social sciences and spirituality this book presents a comprehensive investigation into the heart of gratitude as it arises within lived experience and its role in nurturing relationships It explores the range and depth of the emotion experience of gratitude and identifies its relationship with other indicators of wellbeing New research by the authors reveals gratitude as a feature of transcendence and its connection to higher order experience including spirituality and religion This book explores the potential for cultivating gratitude as a transformative practice for personal growth enhancing relationships and spiritual development Parabola ,1977 **The Simplest Way** Madhukar,H. W. L. Poonja,2006 A relaxed and short road to peace of mind uncomplicated by the intellect and personal history This renowned German teacher advocates deconstructing the tyrants called feelings and the egocentered programming of many lifetimes **Friedrich Nietzsche** Liliane Frey-Rohn,1988 Jungian psychologist Liliane Frey Rohn describes the psychological factors that brought Nietzsche into the depths of his own nature through a process in which sacrifice loss and intense loneliness alternated with hero worship and audacious self

glorification In this book a number of human problems are explored and discussed in relation to the brilliant but haunted biography of the 19th century philosopher Friedrich Nietzsche The problem of good and evil the search for personal truth the questions of nihilism and life's meaning and the dangers of self inflation in the wake of religious experience are each considered in this in depth psychological analysis The author sheds new light on Nietzsche's extraordinary life and work illuminating many aspects of his personal spiritual struggle while providing insights into some of the most basic and problematic questions that confront us all *Man and the Universe* Oliver Lodge, 2016-02-12 Originally published in 1908 Lodge applies his background in physics to the study of Christian Theology He aims to reconcile religious doctrine to scientific theory calling for a re interpretation of biblical texts to allow for the integration of science while simultaneously making a case for the acceptance of miracles in the scientific community This title will be of interest to students of Religious Studies as well as to general readers interested in problems of existence **Religion Index One** ,2007 **Man and the Universe** Sir Oliver Lodge, 1917 *The Non-Local Universe* Robert Nadeau, Menas Kafatos, 2001-05-31 Classical physics states that physical reality is local a point in space cannot influence another point beyond a relatively short distance However In 1997 experiments were conducted in which light particles photons originated under certain conditions and traveled in opposite directions to detectors located about seven miles apart The amazing results indicated that the photons interacted or communicated with one another instantly or in no time Since a distance of seven miles is quite vast in quantum physics this led physicists to an extraordinary conclusion even if experiments could somehow be conducted in which the distance between the detectors was half way across the known universe the results would indicate that interaction or communication between the photons would be instantaneous What was revealed in these little known experiments in 1997 is that physical reality is non local a discovery that Robert Nadeau and Menas Kafatos view as the most momentous in the history of science In *The Non Local Universe* Nadeau and Kafatos offer a revolutionary look at the breathtaking implications of non locality They argue that since every particle in the universe has been entangled with other particles like the two photons in the 1997 experiments physical reality on the most basic level is an undivided wholeness In addition to demonstrating that physical processes are vastly interdependent and interactive they also show that more complex systems in both physics and biology display emergent properties and or behaviors that cannot be explained in the terms of the sum of parts One of the most startling implications of non locality in human terms claim the authors is that there is no longer any basis for believing in the stark division between mind and world that has preoccupied much of western thought since the seventeenth century And they also make a convincing case that human consciousness can now be viewed as emergent from and seamlessly connected with the entire cosmos In pursuing this groundbreaking argument the authors not only provide a fascinating history of developments that led to the discovery of non locality and the sometimes heated debate between the great scientists responsible for these discoveries They also argue that advances in scientific knowledge have further eroded the boundaries

between physics and biology and that recent studies on the evolution of the human brain suggest that the logical foundations of mathematics and ordinary language are much more similar than we previously imagined What this new knowledge reveals the authors conclude is that the connection between mind and nature is far more intimate than we previously dared to imagine What they offer is a revolutionary look at the implications of non locality implications that reach deep into that most intimate aspect of humanity consciousness

Science and Religion United Ulrich A. K. Betz,2024-05-30 This book offers a fresh perspective on how science and religion are connected and how prayer aligns with the laws of nature It explores a holistic worldview where science and religion complement each other shedding light on life society and philosophical and societal concerns We are born into a world full of mysteries that we only partially understand We don t know where we are coming from we don t know why we live and we don t know where we will go We don t know how everything started we even don t know what everything really is We are living in an era of rapid change marked by disruptive technologies like artificial intelligence and computers Combined with a perception that the old wisdom transferred to us by religion is outdated traditional values and institutions that had worth and power over many centuries are now losing their appeal Science has made remarkable progress but can t answer life s most profound questions about our origins purpose and destination why do we live and what should we do In this book the author begins with an overview of science our understanding of the universe highlighting gaps in our knowledge like what started the Big Bang followed by examples of successful scientific achievements and insights into the limits of science In the subsequent chapters the author examines topics such as mind over matter and the coexistence of evolution creation natural laws and miracles An attempt to answer the theodicy question is also provided in this book where the author connects new scientific discoveries with ancient religious wisdom The book concludes with a chapter devoted to innovation and a call for building a better world This book is a compelling read for scholars professionals and curious laymen alike ready to expand their horizons

Aristotelians and Platonists Luigi Morelli,2015-11-25 At the heart of this book is Rudolf Steiners culmination in the twentieth century or the convergence of the working of Aristotelians and Platonists for the renewal of culture And questions arise Where is the whole of the School of Michael at present How can we characterize and honor one and the other stream and avoid stereotypes and misunderstandings This work approaches the matter in its historical unfolding in three successive steps in which Steiner Aristotles and Plato Schrrers incarnations form a thread The first tableau opens up in the previous Age of Michael in Greece when Plato and Aristotle inaugurated the work of the two Michaelic streams The second addresses the Middle Ages and centers around the contrast between Alain de Lille and Thomas Aquinas between the School of Chartres and Scholasticism Steiners and Schrrers life tasks in the nineteenth century form the prelude to the present The heart of the book and its longest section looks at the present It contrasts the working of Aristotelians and Platonists in the natural sciences in psychology and in the social sciences From the ground of extensive observation and characterization it then turns to pressing questions What can Platonists learn from Aristotelians And how

about the reverse Starting from the example of individuals meeting across the streams how can we extend this understanding so that it becomes an ongoing practice and a cultural concern How can Michaelic individuals and institutions work in ways that honor the whole of the Michaelic movement *Reasonable Faith* Americo Tulipano,2019-10-24 Christians and non Christians alike are troubled by powerful questions Why do innocent people suffer Why isn t spiritual truth objectively provable How can evolution be reconciled with belief in God What is a soul What is moral truth How much hard history do the gospels contain What did Jesus mean when he spoke of perfection What is evil Clear concise answers to these and 265 other questions are offered in *Reasonable Faith* Backed by many years of inquiry and research this book takes on questions that have been avoided or given terse treatment by other Christian answer books In the process of facing such questions this work provides an honest and reasonable basis for compassionate Christian faith Like a breath of fresh air wonderful Dr Francis Collins Director of the National Institute of Health Author of *The Language of God* A masterpiece Brother Aelred Reid Benedictine Monk St John s Abbey Collegeville Minnesota Beautifully written and diligently researched Reverend Richard A Santella Retired United Methodist Minister Wonderful Joan Roughgarden Professor of biology Stanford University Author of *Evolution and Christian Faith* **Hidden Heart of the Cosmos** Swimme, Brian Thomas ,2019-10-24 First published in 1996 *Hidden Heart of the Cosmos* sought to answer the question What does it mean to be human to live on planet Earth in the universe as it is now understood In this new and updated edition bestselling author and evolutionary cosmologist Brian Thomas Swimme takes us on a journey through the cosmos in search of the new story that is developing in response to this age old question Publisher
