Sebald Their travellers tales of wonder are read as a challenge to the hubris of thinking the world too well known and an invitation to encounter the world including its most troubling histories with a sense of wonder Where Sense Arises Pasquale De Marco, 2025-07-16 In the realm of sense we find ourselves surrounded by a vast and mysterious landscape encompassing everything from the physical world to the mental world from the social world to the natural world and from the world of art to the world of morality It is a realm that is both familiar and strange both knowable and unknowable This book invites you on a journey to explore the sense of sense to understand its nature its limits and its significance Together we will examine the relationship between sense and language sense and the world sense and the self and sense and meaning We will also explore the sense of beauty the sense of wonder the sense of transcendence the sense of history and the sense of hope As we embark on this journey we will challenge our assumptions and open ourselves up to new ways of thinking The sense of sense is not always easy to grasp but it is a journey that is well worth taking For it is only by understanding the sense of sense that we can truly understand ourselves and our place in the world This book is not just an intellectual exercise it is an invitation to experience the world in a new way It is an invitation to awaken our senses and to open ourselves up to the wonder and beauty of the world around us It is an invitation to find meaning and purpose in our lives Whether you are a philosopher a scientist an artist or simply someone who is curious about the world around you this book has something to offer It is a book that will challenge you inspire you and change the way you see the world If you like this book write a review

A Sense of Place Annie Davy, 2019-02-07 Tried and tested accessible strategies that support the wellbeing and learning journey of children through mindfulness with a focus on learning outdoors and connecting with the world Being outside and connecting with nature is key to young children's learning and wellbeing especially in a busy fast changing and digitalised world Outdoors children can more easily connect to their bodies and learn about themselves and others and how to be in the world They use their senses to explore understand and become mindful of the earth and the people around them But how can Early Years practitioners best support young children as they engage with nature while also passing on the values about the future of the planet A Sense of Place is an easily accessible guide that will make outdoor learning more interesting and fun while also supporting children's development of resilience and resourcefulness so that they can survive and thrive in the world as they grow Wonder and Education Anders Schinkel, 2020-11-12 Many people whether educators or not will agree that an education that does not inspire wonder is barren Wonder is commonly perceived as akin to curiosity as stimulating inquiry and as something that enhances pleasure in learning but there are many experiences of wonder that do not have an obvious place in education In Wonder and Education Anders Schinkel theorises a kind of wonder with less obvious yet fundamental educational importance which he calls contemplative wonder Contemplative wonder disrupts frameworks of understanding that are taken for granted and perceived as natural and draws our attention to the world behind our constructions sparking our interest in the world as something worth attending to for its own sake rather than for

our purposes It opens up space for the consideration of radical alternatives wherever it occurs and in many cases is linked with deep experiences of value therefore it is not just important for education in general but also more specifically for moral and political education Balanced Wonder Jan B. W. Pedersen, 2019-10-15 In Balanced Wonder Experiential Sources of Imagination Virtue and Human Flourishing Jan B W Pedersen digs deep into the alluring topic of wonder and argues in a scholarly vet accessible way that the experience of wonder when balanced serves as a strong contributor to human flourishing Along the way Pedersen describes seven properties of wonder and shows how wonder it is distinct from other altered states including awe horror the sublime curiosity amazement admiration and astonishment Examining the contribution of both emotion and imagination in the experience of wonder filtered through the Neo Aristotelian work of philosophers Douglas Rasmussen Alasdair MacIntyre and Martha Nussbaum Pedersen also makes it clear that wonder may contribute to human flourishing in various ways such as the widening of perception extension of moral scope or sensitivity a wondrous afterglow openness humility an imaginative attitude reverence and gratitude Importantly for wonder to act as a strong contributor to human flourishing one needs to wonder at the right thing in the right amount in at the right time in the right way and for the right purpose A Sense of Wonder Jenny Aitken, Jan Hunt, Elizabeth Roy, Bess Sajfar, Sally Featherstone, 2015-09-24 This practical book offers a scientific framework for the early years that is divided into four key areas biological science physical science earth science and environmental science Topics covered include life nature environmental care sustainability and biodiversity with links throughout to the EYFS A Sense of Wonder is an easy to read guide for educators looking to implement play based science learning and inspire children of all ages in the Early Years Foundation Stage Science Fiction After 1900 Brooks Landon, 2014-05 First published in 2003 Routledge is an imprint of Taylor Francis an informa company Cents of Wonder - Science Fiction's First Award Winners Steve Davidson, Kermit Woodall, Now Together For The First Time Anywhere Pulled straight from the pages of the leading magazines of their age 14 stories by the people whose imagination creativity and scientific acumen helped define the genre that would become known as Science Fiction Between 1926 and 1930 Hugo Gernsback hosted the science fiction field s inaugural writing contests first in Amazing Stories and then again in Science Wonder Stories the genre's first two magazines devoted entirely to the publication of scientifiction tales These are the authors whose tales of wonder and speculation inspired the writers you re more familiar with writers such as Asimov Bradbury Le Guin Heinlein Brackett Moore and others Before there was science fiction before there were Fans before conventions before comics before cosplay these fourteen pioneers stepped off into the unknown of imagination and helped entire generations learn to willingly suspend their disbelief engage their sense of wonder and take off for the stars And they won awards for it Transformative Science Education Kevin J. Pugh, 2020 Use this book to move science learning out of the classroom and into everyday life Science has a profound capacity to transform how we experience the world but it can be challenging to foster transformative experiences. When it comes to the science classroom

too often the Las Vegas slogan applies What happens here stays here Based on over 20 years of research this guide presents the Teaching for Transformative Experiences in Science instructional model to help teachers craft practices that will encourage students to apply science concepts beyond defined school boundaries. This practical resource includes detailed vignettes classroom examples guidance for trying out strategies and materials for assessing transformative experiences Book Features Introduction to transformative experience theory A model of teaching based on empirical classroom research Vignettes and classroom examples that illustrate application of the model strategies Try It Out guides Assessment materials Changing how students experience science can change more than their understanding of science It can change the world From the Foreword by Gale M Sinatra USC Rossier School of Education Philosophical Romanticism Nikolas Kompridis, 2006-09-27 Philosophical Romanticism is one of the first books to address the relationship between philosophy and romanticism an area which is currently undergoing a major revival This collection of specially written articles by world class philosophers explores the contribution of romantic thought to topics such as freedom autonomy and subjectivity memory and imagination pluralism and practical reasoning modernism scepticism and irony art and ethics and cosmology time and technology While the roots of romanticism are to be found in early German idealism Philosophical Romanticism shows that it is not a purely European phenomenon the development of romanticism can be traced through to North American philosophy in the era of Emerson and Dewey and up to the current work of Stanley Cavell and Richard Rorty The articles in this collection suggest that philosophical romanticism offers a compelling alternative to both the reductionist tendencies of the naturalism in analytic philosophy and deconstruction and other forms of scepticism found in continental philosophy This outstanding collection will be of interest to those studying philosophy literature and nineteenth and twentieth century thought
