Sense Of Wonder Helping Children Discover Their Own Self Worth:

A Sense of Wonder Janene Wolsey Baadsgaard, 1984 Grotowski, Women, and Contemporary Performance Virginie Magnat, 2013-09-11 As the first examination of women's foremost contributions to Jerzy Grotowski's cross cultural investigation of performance this book complements and broadens existing literature by offering a more diverse and inclusive re assessment of Grotowski's legacy thereby probing its significance for contemporary performance practice and research Although the particularly strenuous physical training emblematic of Grotowski's approach is not gender specific it has historically been associated with a masculine conception of the performer incarnated by Ryszard Cieslak in *The Constant Prince* thus overlooking the work of Rena Mirecka Maja Komorowska and Elizabeth Albahaca to name only the leading women performers identified with the period of theatre productions This book therefore redresses this imbalance by focusing on key women from different cultures and generations who share a direct connection to Grotowski's legacy while clearly asserting their artistic independence These women actively participated in all phases of the Polish director's practical research and continue to play a vital role in today's transnational community of artists whose work reflects Grotowski's enduring influence Grounding her inquiry in her embodied research and on going collaboration with these artists Magnat explores the interrelation of creativity embodiment agency and spirituality within their performing and teaching Building on current debates in performance studies experimental ethnography Indigenous research global gender studies and ecocriticism the author maps out interconnections between these women's distinct artistic practices across the boundaries that once delineated Grotowski's theatrical and post theatrical experiments The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Healing The Bereaved Child Alan Wolfelt, 2013-12-19 First published in 1996 One spring morning a gardener noticed an unfamiliar seedling poking through the ground near the rocky untidy edge of his garden So begins the parable that sets the tone for this inspiring heartfelt new book for caregivers to bereaved children By comparing grief counseling to gardening Dr Wolfelt frees caregivers of the traditional medical model of bereavement care which implies that grief is an illness that must be cured He suggests that caregivers
