## **Sentence Adverbials In A Functional Description Pragmatics Beyond Vii2:**

*Sentence Adverbials in a Functional Description* Eva Koktova, 1986-01-01 The author presents empirical arguments in favor of a joint syntactico semantic treatment within the framework of a functional generative description of a range of adverbial expressions which should be viewed as belonging to a single lexically heterogeneous but functionally homogeneous class exhibiting scoping properties and functioning as complementation of attitude CA These CA expressions do not only share their underlying functional properties but also certain surface syntax properties

*Optimizing Adverb Positions* Eva Engels, 2012-02-08 Adverb positions vary within a single language as well as across diverse languages Based on the study of adverbs in English French and German this monograph shows that the distribution of adverbs is influenced by various factors at distinct levels of linguistic representation comprising semantics syntax phonology and information structure which interact in determining adverb positions The results of the investigation are formulated within the theoretical framework of Optimality Theory which captures the complex interaction of these factors by hierarchically ranked constraints deriving cross linguistic variation of adverb positions by differences in the language specific constraint hierarchies The book is divided into two parts While Part I examines adverb positions in general Part II investigates under which circumstances an adverb may attach to a phonetically empty constituent in the languages under discussion The book appeals to a linguistic audience interested in Germanic and Romance languages as well as in theoretical syntax in general

**Adjectives in Germanic and Romance** Petra Sleeman, Freek Van de Velde, Harry Perridon, 2014-02-15 Although the Germanic and Romance languages are two branches of the same language family and although both have developed the adjective as a separate syntactic and morphological category the syntax morphology and interpretation of adjectives is by no means the same in these two language groups and there is even variation within each of the language groups One of the main aims of this volume is to map the differences and similarities in syntactic behavior morphology and meaning of the Germanic and Romance adjective and to find an answer to the following question Are the dissimilarities the result of autonomous developments in each of the two branches of the Indo European language family or are they caused by language contact
