SEOUL Best 100 Seoul Metropolitan Government,2011-12-30 *The Economics and Politics of High-Speed Rail* Daniel Albalade,Germa Bel i Queralt,2012-06-14 The technological revolution linked to high speed rail HSR has been accompanied by myths and claims about its contribution to society and the economy Although HSR is unquestionably a technological advance that has become a symbol of modernity this review and analysis of the international experiences shows that the conditions necessary to have a positive impact economically socially and environmentally are enormously restrictive The Economics and Politics of High Speed Rail Lessons from Experiences Abroad by Daniel Albalade and Germ Bel introduces the main questions policy makers and scholars should examine when considering and studying HSR implementation with particular emphasis on the US s recent interest in this technology and possible application in California Albalade and Bel then review the experiences of the most significant implementations of HSR around the globe This in depth international perspective includes chapters on the pioneers of HSR Japan and France the European followers Germany Spain and Italy as well as Asian experiences in China Taiwan and Korea Albalade and Bel s study provides a clear distinction between the myths and realities associated with this transportation innovation Among the most relevant findings this study highlights how HSR projects that do not satisfy highly restrictive conditions on mobility patterns measured costs and economically rational designs that make it desirable have been the source of huge financial debacles and the economic failure of HSR in most cases which result in unfortunate consequences for taxpayers The Economics and Politics of High Speed Rail is a rigorous investigation of the economic and political challenges and ramifications of implementing new public transportation technology *Global Tourism* Ahana Chakraborty,2007 South Koreans in the Debt Crisis Jesook Song,2009-08-18 Examines the rise of neoliberal social welfare policy in South Korea during the period of the Asian Debt Crisis the ultimate consequences of which include the reinforcing of traditional gender roles *Korea's Occupied Cinemas, 1893-1948* Brian Yecies,Ae-Gyung Shim,2012-05-23 Korea s Occupied Cinemas 1893 1948 compares and contrasts the development of cinema in Korea during the Japanese occupation 1910 1945 and US Army Military 1945 1948 periods within the larger context of cinemas in occupied territories It differs from previous studies by drawing links between the arrival in Korea of modern technology and ideas and the cultural political and social environment as it follows the development of exhibition film policy

and filmmaking from 1893 to 1948 During this time Korean filmmakers seized every opportunity to learn production techniques and practice their skills contributing to the growth of a national cinema despite the conditions produced by their occupation by colonial and military powers At the same time Korea served as an important territory for the global expansion of the American and Japanese film industries and after the late 1930s Koreans functioned as key figures in the co production of propaganda films that were designed to glorify loyalty to the Japanese Empire For these reasons and as a result of the tensions created by divided loyalties the history of cinema in Korea is a far more dynamic story than simply that of a national cinema struggling to develop its own narrative content and aesthetics under colonial conditions North Korea in Pictures
