Music and Ideology in Cold War Europe Mark Carroll, 2006-11-02 This book places the radicalization of art music in early post war France in its broader socio cultural and political context It pursues two general and intersecting lines of inquiry The first details the stances towards musical conservatism and innovation adopted by cultural strategists representing Western and Soviet ideological interests at the onset of the Cold War The second which draws upon the commentaries of Theodor Adorno and Jean Paul Sartre recognizes that the Cold War generated a heightened political awareness amongst French musicians at the very time when the social relevance of avant garde music had become the subject of widespread debate The study considers the implications of the performance at *L'Oeuvre du XXe siècle* an international arts festival staged in Paris in 1952 with the intention of discrediting socialist realism by means of two opposing musical types neo classicism represented by Stravinsky's *Symphony in C* and serialism Boulez's *Structures 1a*

operas focuses on the way that ideology is presented on stage To watch or listen is to engage with a vivid artistic testament to the ideological world of mid twentieth century Britain But it is more than that too because in many ways Britten's operas continue to proffer a diagnosis of certain unresolved problems in our own time Only rarely as in *Peter Grimes* which shows the violence inherent in all forms of social and psychological identification does Britten unmistakably call into question

fundamental precepts of his contemporary ideology This has not however prevented some writers from romanticizing Britten as a quiet revolutionary This book argues in contrast that his operas and some interpretations of them have obscured a greater social and philosophical complicity that it is timely if at the same time uncomfortable for his early twenty first century audiences to address

**Avant-Garde on Record** Jonathan Goldman, 2023-11 An innovative contribution to music history cultural studies and sound studies *Avant garde on Record* revisits post war composers and their technologically oriented brand of musical modernism It describes how a broad range of figures including Pierre Boulez Karlheinz Stockhausen Henri Pousseur Toshir Mayuzumi Claire Schapira Anthony Braxton and Gunther Schuller engaged with avant garde aesthetics while responding to a rapidly changing technologically fuelled spatialized audio culture Jonathan Goldman focuses on how contemporary listeners understood these composers' works in the golden age of LPs and explores how this reception was mediated through consumer oriented sound technology that formed a prism through which listeners processed the music of their time His account reveals unexpected aspects of twentieth century audio culture from sonic ping pong to *son et lumi re* shows from Venetian choral music by Stravinsky to the soundscape of Niagara Falls from a Buddhist Cantata to an LP box set cast as a parlour game
