American Homicide Richard M. Hough, Kimberly D. help explain why and how people kill and how society reacts This brief yet comprehensive book takes a balanced approach combining scholarly research and theory with compelling details about recent cases and coverage of current trends Comparative coverage of homicide types and rates in countries around the world shows how American homicide statistics compare internationally *What's Eating You?* Cynthia J. Miller, A. Bowdoin Van Riper, 2017-02-23 Explores the horrific side of consumption as it is portrayed in film and television from what and whom we eat to food that bites back **Psycho Paths** Philip L. Simpson, 2000 Philip L Simpson provides an original and broad overview of the evolving serial killer genre in the two media most responsible for its popularity literature and cinema of the 1980s and 1990s The fictional serial killer with a motiveless highly individualized modus operandi is the latest manifestation of the multiple murderers and homicidal maniacs that haunt American literature and particularly visual media such as cinema and television Simpson theorizes that the serial killer genre results from a combination of earlier genre depictions of multiple murderers inherited Gothic storytelling conventions and threatening folkloric figures reworked over the years into a contemporary mythology of violence Updated and repackaged for mass consumption the Gothic villains the monsters the vampires and the werewolves of the past have evolved into the fictional serial killer who clearly reflects American cultural anxieties at the start of the twenty first century Citing numerous sources Simpson argues that serial killers recent popularity as genre monsters owes much to their pliability to any number of authorial ideological agendas from both the left and the right ends of the political spectrum Serial killers in fiction are a kind of debased and traumatized visionary whose murders privately and publicly re empower them with a pseudo divine aura in the contemporary political moment The current fascination with serial killer narratives can thus be explained as the latest manifestation of the ongoing human fascination with tales of gruesome murders and mythic villains finding a receptive audience in a nation galvanized by the increasingly apocalyptic tension between the extremist philosophies of both the New Right and the anti New Right Faced with a blizzard of works of varying quality dealing with the serial killer Simpson has ruled out the catalog approach in this study in favor of in depth an analysis of the best American work in the genre He has chosen novels and films that have at least some degree of public name recognition or notoriety including *Red Dragon* and *The Silence of the Lambs* by Thomas Harris *Manhunter* directed by Michael Mann *Henry Portrait of a Serial Killer* directed by John McNaughton *Seven* directed by David Fincher *Natural Born Killers* directed by Oliver Stone *Zombie* by Joyce Carol Oates and *American Psycho* by Bret Easton Ellis *Fundamentals of Criminology* Kelly Frailing, Dee Wood Harper, 2013-07-19 *Fundamentals of Criminology* New Dimensions delivers a comprehensive and comprehensible introduction to the discipline of criminology As the title implies it covers the fundamentals of criminology including the major theories of crime causation classic and current empirical tests of those theories the strengths and weaknesses and the policy implications of each It also describes the types of crime and provides current rates trends over time and theoretical explanations for each as well as a discussion of characteristics of offenders and victims What sets this

book apart from the many other fine criminology textbooks out there is its inclusion of some new dimensions of criminology. The new dimensions in this book include but are not limited to research designs in criminology, new theories of crime causation, crime in different contexts, connections between criminology and criminal justice policy, and a number of lingering issues for both disciplines. In combination with the fundamentals, these new dimensions are designed to provide readers with the richest, most complete understanding of what crime is, how much of it there is, what causes it, and what to do about it, as well as the ability and desire to pose important questions for the future of both criminology and criminal justice. The authors have produced a comprehensive, readable, and thoroughly interesting text covering the topic of sociological criminology. Yes, there are a plethora of texts in this area, but Harper and Frailing's addition to the field has a number of features moving it ahead of the competition. There is in-depth coverage of emerging areas in crime, including cybercrime and human trafficking, as well as an excellent section on how disasters augment the opportunities for crime by hindering capable guardianship. The authors' arguments for evidence-based crime prevention strategies and public policies are compelling. *Fundamentals of Criminology* is worthy of the closest consideration by instructors teaching undergraduate criminology courses.

Law and Justice on the Small Screen Peter Robson, Jessica Silbey, 2012-08-01

Law and Justice on the Small Screen is a wide-ranging collection of essays about law in and on television. In light of the book's innovative taxonomy of the field and its international reach, it will make a novel contribution to the scholarly literature about law and popular culture. Television shows from France, Canada, the United Kingdom, Germany, Spain, and the United States are discussed. The essays are organised into three sections: 1. methodological questions regarding the analysis of law and popular culture on television; 2. a focus on genre studies within television programming, including a subsection on reality television; and 3. content analysis of individual television shows, with attention to big picture jurisprudential questions of law's efficacy and the promise of justice. The book's content is organised to make it appropriate for undergraduate and graduate classes in the following areas: media studies, law and culture, socio-legal studies, comparative law, jurisprudence, the law of lawyering, alternative dispute resolution, and criminal law. Individual chapters have been contributed by, among others, Taunya Banks, Paul Bergman, Lief Carter, Christine Corcos, Rebecca Johnson, Stefan Machura, Nancy Marder, Michael McCann, Kimberlianne Podlas, and Susan Ross, with an Introduction by Peter Robson and Jessica Silbey.
