*Medieval Mythography, Volume 3* Jane Chance,2014-12-02 With this volume Jane Chance concludes her monumental study of the history of mythography in medieval literature Her focus here is the advent of hybrid mythography the transformation of mythological commentary by blending the scholarly with the courtly and the personal Chance's in depth examination of works by the major writers of the period including Dante Boccaccio and Christine de Pizan demonstrates how they essentially co-opted a thousand year tradition Their intricate narratives of identity mixed commentary with poetry reinterpreted classical gods and heroes to suit personal agendas and gave rise to innovative techniques such as inglossation the use of a mythological figure to comment on the protagonist within an autobiographical allegory In this manner through allegorical authorial projection of the self the poets explored a subjective world and manifested a burgeoning humanism that

would eventually come to full fruition in the Renaissance No other work examines the mythographic interrelationships between these poets and their unique and personal approaches to mythological commentary
