Discourses are extant as well as a few Letters and a funny mock essay In Praise of Hair as well as a few other fragments These orations appear to be written versions of his oral teaching and are like essays on political moral and philosophical subjects Discourses Encomium on hair Fragments      Between Work and Leisure Robert A. Stebbins,2015-06-01 Between Work and Leisure aims to debunk the prevailing myth that work and leisure are separate and mutually antagonistic spheres of life Stebbins shows that a close relationship between leisure and work is positive offering people the possibility of finding joy in work just as they do in leisure Occupational devotion as Stebbins defines it is a strong and positive attachment to a form of self enhancing work where the sense of achievement is high and the core activity or set of tasks is endowed with such intense appeal that the line between work and leisure is virtually erased This volume examines conditions that attract people to their work in this profound way and the many exceptional values and intrinsic rewards they realize there Stebbins frames occupational devotion in four broad social contexts history religion work and leisure and then considers the further subdivisions of gender social class and social character The heart of the book uses research findings on leisure to develop a powerful critique of those who describe deeply felt commitment to work as workaholic behavior He also examines what happens when money becomes a dominant factor in work and the social implications of the compatibility of work and serious leisure using exploratory research to identify their shared motivational factors      **Sport and Tourism** James Higham,Tom Hinch,2010-05-04 Sport and Tourism Globalization Mobility and Identity marks a new era in sport tourism texts Written by global experts whose previous collaborations have been integral to the development of the field the book applies key social science concepts and issues relevant to the academic study of sport and tourism This is a ground breaking text which Critically explores the wider manifestations of sport related tourism and mobility Addresses key themes such as globalization mobility and identity Explores the unique interrelationship that exists in a sport tourism context between activity people and place Includes case studies written by a range of leading scholars from around the world Set to be the an essential text for any student or academic in the field this book cements and advances previous studies by building upon existing literature while extending the field by exploring avenues of study that are yet to be comprehensively addressed The latest collaboration by internationally renowned authors applies new theoretical perspectives for the advancement of sport tourism      Epistemic Explanations Ernest Sosa,2021-07-22 Epistemic Explanations develops an improved virtue epistemology and uses it to explain several epistemic phenomena Part I lays out a telic virtue epistemology that accommodates varieties of knowledge and understanding particularly pertinent to the humanities Part II develops an epistemology of suspension of judgment by relating it to degrees of confidence and to inquiry Part III develops a substantially improved telic virtue epistemology by appeal to default assumptions important in domains of human performance generally and in our intellectual lives as a special case This reconfigures earlier virtue epistemology which now seems a first approximation This part also introduces a metaphysical hierarchy of epistemic categories and defends in particular a category of secure knowledge      **Boating**

**Philosophy and Education** Mrinal Miri,2014-11-13 What if any are the core values and ideas of education Is moral education an independent variety of education or is it something that is intrinsic to most forms of education Analysing education through the critical lens of philosophy this volume explores the challenges that the education system faces in a country like India a country where any form of generalization becomes dubious owing to its inherently multicultural and multi linguistic character Philosophy and Education also critically examines the higher education system of the country and discusses issues ranging from the importance of humanities in university education to the accountability of institutions and the division of academic labour as an interdisciplinary effort The book looks at both the concept and the system of education and provides a much needed philosophical underpinning to our understanding of several core and topical concerns of teaching learning and research
