Servants Hall The Domestic History Of A Country House:

The Servants' Hall Merlin Waterson,1990 *The Country House Servant* Pamela A Sambrook,2002-05-13 One 19th century footman complained about the work involved in drawing more than 40 baths for his household yet Lady Grenville felt no compunction in describing her footman as a lazy flunkey For centuries a large body of domestic servants was an often unappreciated foundation for the smooth running of a household Today the warrens of domestic offices intrigue visitors This book makes sense of these and the social structures behind them It describes the skills equipment cleaning methods and work organization of the housemaid laundrymaid footman valet and hall boy the servants who spent their days polishing fine furniture and washing brilliant chandeliers but also sponging filthy riding habits and washing babies nappies The author also looks at how servants spent their leisure time One footman enjoyed rowing on the lake every morning before work while others had to sit up late at night sewing their own work dresses Contemporary manuals diaries accounts and first hand recollections provide a vivid insight into what life was really like for those in domestic service A wealth of photographs engravings and panels illustrate the domestic workings of country houses many now looked after by the National Trust This is an absorbing book for social historians and visitors to country houses alike **Country House Brewing in England,**

1500-1900 Pamela Sambrook,1996-07-01 Until the 18th century or even later beer was the staple drink of most men and women at all levels of society Tea and coffee were expensive luxuries while water might well carry disease To supply the needs of both owners and servants every country house with an accessible source of water had a brewhouse usually close at hand Although many of the brewhouses still stand in some cases with the original brewing vessels as at Lacock and Charlecote their habitual conversion to other uses has allowed them to be ignored Yet they are distinctive buildings as much part of a country house as an ice house or stables which need both to be recognized and preserved The scale of brewing in country houses which went on to a surprisingly late date in the 19th century with odd survivals such as Hickleton in Yorkshire in the 20th was often considerable if small besides that of commercial brewing Copious records for both brewing and consumption exist Pamela Sambrook describes the brewing equipment such as coppers mash tuns underbacks and coolers the types of beers brewed from strong ale to small beer and how they were kept and the brewers themselves their skills and attitudes English Country House Brewing 1500 1900 shows the role beer played in the life of the country house with beer allowances and beer money an integral part of servants rewards Generous allowances were made for arduous tasks such as harvesting For celebrations such as the heir s coming of age extra strong ale was provided This book which is heavily illustrated is an important and original contribution to architectural brewing and social history **Servants' Stories**

Up and Down Stairs Jeremy Musson, 2009-11-12 Country houses were reliant on an intricate hierarchy of servants each of whom provided an essential skill Up and Down Stairs brings to life this hierarchy and shows how large numbers of people lived together under strict segregation and how sometimes this segregation was broken as with the famous marriage of a squire to his dairymaid at Uppark Jeremy Musson captures the voices of the servants who ran these vast houses and made them work From unpublished memoirs to letters wages newspaper articles he pieces together their daily lives from the Middle Ages through to the twentieth century The story of domestic servants is inseparable from the story of the country house as an icon of power civilisation and luxury This is particularly true with the great estates such as Chatsworth Hatfield Burghley and Wilton Jeremy Musson looks at how these grand houses were for centuries admired and

imitated around the world *Domestic Service and Gender, 1660-1750* Tim Meldrum, 2014-09-11 In this exciting new study Tim Meldrum explores the real lives of domestic servants From close examination of court records and other documentary evidence he has reconstructed the lives of ordinary domestic servants in London A revealing account of life below the stairs the gendered nature of domestic service how different members of the household interacted with one another it makes a valuable contribution to the separate spheres debate *The Power and the Glory* Adrian Tinniswood, 2024-11-12 A spirited history of the English country house in its golden age For generations the great palaces of Britain were home to living histories noble families that had reigned for centuries But by the end of the nineteenth century members of elite society found themselves for the first time in the company of arrivistes Their new neighbors from chorus girls to millionaire greengrocers to guano impresarios lacked lineage and were unencumbered by the weight of tradition In *The Power and the Glory* historian Adrian Tinniswood reconstructs life in the country house during its golden age before the Great War when Britain ruled over a quarter of the earth's population and its stately homes were at their most opulent But change was on the horizon the landed classes were being forced to grapple not only with new neighbors but also with new social norms and expectations An exuberant story *The Power and the Glory* offers a delicious captivating and often scandalous history of the British country house *Cultural Ideals of Home* Deborah Chambers, 2020-03-18 Spanning the nineteenth to twenty first centuries this book investigates how home is imagined staged and experienced in western culture Questions about meanings of home and domestic culture are triggered by dramatic changes in values and ideals about the dwellings we live in and the dwellings we desire or dread Deborah Chambers explores how home is idealised as a middle class haven managed as an investment and signified as a status symbol and expression of personal identity She addresses a range of public state commercial popular and expert discourses about home the heritage industry design exhibitions television social media home mobilities and migration smart technologies and ecological sustainability Drawing on cross disciplinary research including cultural history and cultural geography the book offers a distinctive media and cultural studies approach supported by original historically informed case studies on interior and domestic design exhibitions of model homes TV home interiors media home imaginaries multiscreen homes corporate visions of homes of tomorrow and digital smart homes A comprehensive and engaging study this book is ideal for students and researchers of cultural studies cultural history media and communication studies as well as sociology gender studies cultural geography and design studies *The Agrarian History of England and Wales: 1750-1850* H. P. R. Finberg, 1989 *Stories from Home* Margaret Ponsonby, 2016-04-01 Most homes in the past were not elite wealthy interiors complete with high fashion furnishings designed by well known architects and designers as many domestic histories often seem to have assumed As this book makes clear there were in fact an enormous variety of house interiors in England during the period 1750 1850 reflecting the location status and gender of particular householders as well as their changing attitudes tastes and aspirations By focusing on non metropolitan homes

which represented the majority of households in England this study highlights the need for historians to look beyond prevailing attitudes that often reduce interiors to generic descriptions based on high fashions of the decorative arts Instead it shows how numerous social and cultural influences affected the manner in which homes were furnished and decorated Issues such as the availability of goods gender regional taste income the second hand market changing notions of privacy and household hierarchies and print culture could all have a significant impact on domestic furnishing The study ends with a discussion of how domestic interiors of historic properties have been presented and displayed in modern times highlighting how competing notions of the past can cloud as well as illuminate the issue Combining cultural history and qualitative analysis of evidence this book presents a new way of looking at ordinary and provincial homes that enriches our understanding of English domestic life of the late eighteenth and early nineteenth centuries *Genealogies Cataloged by the Library of Congress Since 1986* Library of Congress,1991 The bibliographic holdings of family histories at the Library of Congress Entries are arranged alphabetically of the works of those involved in Genealogy and also items available through the Library of Congress *Keeping Their Place* Pamela Sambrook,2005-07-21 In 1851 there were over a million servants in Britain This book reveals first hand tales of put upon servants who often had to rise hours before dawn to lay fires heat water and prepare meals for their employers and then work into the small hours Yet there are also heartwarming stories of personal devotion and reward and of how the servants enjoyed themselves in their time off There are moments of great poignancy as well as hilarity a steward s dawning realisation that the housekeeper he befriended is a thief a young footman chasing a melon as it rolls through a castle s corridors into the moat the smart manservant weeping at the station as he bids farewell to his mother This was an era when footmen were paid extra for being six foot or over and female servants had to wear black bonnets to church *The Servants' Hall* Merlin Waterson,1980 *The Bystander* ,1904 *What the Butler Saw* E. S. Turner,2012-05-15 A book which goes on a special shelf in my library P G Wodehouse *What the Butler Saw* 1962 is one of E S Turner s most pertinent and illuminating social histories an exploration of the upstairs downstairs relationship across three centuries of English life Drawing on literature contemporary accounts and household manuals Turner describes in fascinating detail how it came to be that the upper classes felt a need for an ever larger household staff engaged in every imaginable form of drudgery and accordingly how those in service from high to low butler to footman housemaid to au pair had to give satisfaction to their masters and mistresses while also on occasions contending with physical blows tantrums and in the cases of some unfortunate servant girls threats to their virtue *The Routledge History of Women in Europe Since 1700* Deborah Simonton,2006-04-27 This landmark publication collects the essays of the leading women s historians and provides the most coherent overview of women s role and place in Western Europe from the beginning of the eighteenth century to the twentieth century **Coke of Norfolk (1754-1842): a Biography** Susanna Wade Martins,2010-02-18 First modern biography of Thomas William Coke first earl of Leicester who revolutionised agricultural practices and became an

outspoken critic of Britain's war against America over independence Thomas William Coke Coke of Norfolk 1754 1842 is best known as one of the main promoters of the improved farming of the Agricultural Revolution He was also a county MP for over forty years between 1776 and 1832 and the owner of one of the finest palladian mansions in Britain and by far the largest estate in Norfolk at Holkham Hall A friend of Charles James Fox he moved in the highest Whig social circles and lavishly entertained distinguished friends from both political and academic fields who came to Holkham for its splendid library works of art and antiquities as well as the game coverts A charismatic figure he was an outspoken critic of Britain's war against the Americans in their fight for independence which made him friends who visited and corresponded across the Atlantic Despite his importance both locally and nationally there has been no full scale biography of him for a hundred years a gap which this book sets out to address It sets his agricultural achievements in a wider context and places Coke himself in his milieu as one of a small circle of landed grandees who were of major influence during a period of political turbulence and agricultural change The author also examines Coke's reputation as a patriot Dr SUSANNA WADE MARTINS is Honorary Research Fellow School of History University of East Anglia
