Mansfield And Vietnam A Study In Rhetorical Adaptation:

Mansfield and Vietnam Gregory A. Olson, 2012-01-01 *Mansfield and Vietnam A Study in Rhetorical Adaptation* is the first major work to examine the role played by Senate Majority Leader Mike Mansfield Democrat from Montana in the formulation and execution of U S Vietnam policy Drawing upon material from the Mansfield Papers personal interviews public speeches and recently declassified documents Olson traces Mansfield s journey from ardent supporter of Diem in the late 1950s to quiet critic of LBJ in the mid 1960s and finally to outspoken opponent of the Vietnam War in the late 1960s and early 1970s Olson focuses his attention on Mansfield s speaking ability and his use of the written word analyzing the ways in which they proved crucial in shaping the policies of the Eisenhower Kennedy Johnson Nixon and Ford presidential administrations He also examines the way personal and political situations converged to force Mansfield into the center of the stormy Vietnam controversy and eventually into a position of leadership in the campaign to end America s military presence in Southeast Asia To date little has been done to evaluate the roles played by key congressional figures in the Vietnam War debate thus *Mansfield and Vietnam* is bound to become a significant contribution not only to rhetorical studies but also to twentieth century diplomatic history and to the study of congressional presidential relations

Mansfield and Vietnam Gregory Allen Olson, 1995 **Cauldron of Resistance** Jessica M. Chapman, 2013-02-19 In 1955 Ngo Dinh Diem organized an election to depose chief of state Bao Dai after which he proclaimed himself the first president of the newly created Republic of Vietnam The United States sanctioned the results of this election which was widely condemned as fraudulent and provided substantial economic aid and advice to the RVN Because of this Diem is often viewed as a mere puppet of the United States in service of its Cold War geopolitical strategy That narrative Jessica M Chapman contends in *Cauldron of Resistance* grossly oversimplifies the complexity of South Vietnam s domestic politics and indeed Diem s own political savvy Based on extensive work in Vietnamese French and American archives Chapman offers a detailed account of three crucial years 1953 1956 during which a new Vietnamese political order was established in the south It is in large part a history of Diem s political ascent as he managed to subdue the former Emperor Bao Dai the armed Hoa Hao and Cao Dai religious organizations and the Binh Xuyen crime organization It is also an unparalleled account of these same outcast political powers forces that would reemerge as destabilizing political and military actors in the late 1950s and early 1960s Chapman shows Diem to be an engaged leader whose personalist ideology influenced his vision for the new South Vietnamese state but also shaped the policies that would spell his demise Washington s support for Diem because of his staunch anticommunism encouraged him to employ oppressive measures to suppress dissent thereby contributing to the alienation of his constituency and helped inspire the organized opposition to his government that would emerge by the late 1950s and eventually lead to the Vietnam War *Light at the End of the Tunnel* Andrew J. Rotter, 2010-03-16 Of all of the wars in which the U S has been engaged none has been as divisive as the conflict in Vietnam The repercussions of this

unsettling episode in American history still resonate in our society Although it ended more than 30 years ago the Vietnam War continues to fascinate and trouble Americans The third edition of *Light at the End of the Tunnel* gives a full overview of the conflict Starting with Ho Chi Minh's revolt against the French editor Andrew J Rotter takes the reader through the succeeding years as scholars government officials journalists and others recount the important events in the conflict and examine issues that developed during this tumultuous time This book is essential reading for anyone who has an interest in understanding the Vietnam War The readings in it will enlighten students about this turning point in the history of the United States and the world The third edition includes greater coverage of the Vietnamese experience of the war and reflects the growing interest in understanding the war as an international event not just a bilateral or trilateral conflict

America's Vietnam War and Its French Connection Frank Cain, 2016-12-08 That America was drawn into the Vietnam War by the French has been recognized but rarely explored This book analyzes the years from 1945 with the French military reconquest of Vietnam until 1963 with the execution of the French endorsed dictator Ngo Dinh Diem demonstrating how the US should not have followed the French into Vietnam It shows how the Korean War triggered the flow of American military hardware and finances to underpin France's war against the Marxist oriented Vietnam Republic led by Ho Chi Minh

White, 2005 This bibliography is a supplement to the Special Bibliography Series Number 80 compiled in 1990 to support the 14th Military History Symposium It is primarily intended as a listing of scholarly works completed since 1990 on the Vietnam War although some works prior to that date are included The bibliography is selected from the holdings on that war housed in the McDermott library United States Air Force Academy and includes books journal articles government publications and technical reports Newspaper articles works of fiction collections of poetry and most personal narratives are not included The Clark Special Collections Branch of the library has extensive primary source materials and artifacts focused on American POW experiences in Southeast Asia Those items are also excluded from this bibliography since they are limited to in house use only Individuals wanting information about that collection should contact the Special Collections Curator and Academy Archivist

Supplement to Vietnam 1964-1973, 2005

Defending the Free World Orrin Schwab, 1998-09-24 Schwab examines America's decision to stand in Vietnam with a fresh perspective provided by new archival materials and the intellectual synthesis of institutional political and diplomatic history Vietnam policy is shown at many different levels from the presidency down to the level of CIA operatives in the field and public opinion specialists on the White House staff The views of State Department officers foreign public opinion editorials in major U S newspapers and the powerful leaders of both Congressional houses reveal an informed and highly conflicted public leadership well before American combat troops were committed in large numbers in the summer of 1965 The study begins with John F Kennedy's inaugural address in January of 1961 and proceeds to show the decision making process regarding Vietnam and Indochina through the several critical events that led to Johnson's famous press conference speech of 1965 The

author contends that responsibility for the war and its tragic consequences should not be placed upon individuals but rather at the levels of the state society and the international system This view of agency existing at a higher level than the presidency challenges the dominant view of most diplomatic historians and other writers who have focused on the blunders and misperceptions of policy makers

The Good Neighbor Mary E. Stuckey, 2013-11-01 No modern president has had as much influence on American national politics as Franklin D Roosevelt During FDR's administration power shifted from states and localities to the federal government within the federal government it shifted from Congress to the president and internationally it moved from Europe to the United States All of these changes required significant effort on the part of the president who triumphed over fierce opposition and succeeded in remaking the American political system in ways that continue to shape our politics today Using the metaphor of the good neighbor Mary E Stuckey examines the persuasive work that took place to authorize these changes Through the metaphor FDR's administration can be better understood his emphasis on communal values the importance of national mobilization in domestic as well as foreign affairs in defense of those values his use of what he considered a particularly democratic approach to public communication his treatment of friends and his delineation of enemies and finally the ways in which he used this rhetoric to broaden his neighborhood from the limits of the United States to encompass the entire world laying the groundwork for American ideological dominance in the post World War II era

The Manufacture of Consent Stephen M. Underhill, 2020-02-01 The second Red Scare was a charade orchestrated by a tyrant with the express goal of undermining the New Deal so argues Stephen M Underhill in this hard hitting analysis of J Edgar Hoover's rhetorical agency Drawing on Classification 94 a vast trove of recently declassified records that documents the longtime FBI director's domestic propaganda campaigns in the mid twentieth century Underhill shows that Hoover used the growing power of his office to subvert the presidencies of Franklin D Roosevelt and Harry S Truman and redirect the trajectory of U S culture away from social democracy toward a toxic brand of neoliberalism He did so with help from Republicans who opposed organized labor and Southern Democrats who supported Jim Crow in what is arguably the most culturally significant documented political conspiracy in U S history a wholesale domestic propaganda program that brainwashed Americans and remade their politics Hoover also forged ties with the powerful fascist leaders of the period to promote his own political ambitions All the while as a love letter to Clyde Tolson still preserved in Hoover's papers attests he strove to pass for straight while promoting a culture that demonized same sex love The erosion of democratic traditions Hoover fostered continues to haunt Americans today

National Rhetorics in the Syrian Immigration Crisis Clarke Rountree, Jouni Tilli, 2019-10-01 The Syrian refugee crisis seriously challenged countries in the Middle East Europe the United States and elsewhere in the world It provoked reactions from humanitarian generosity to anti immigrant warnings of the destruction of the West It contributed to the United Kingdom's Brexit from the European Union and the election of Donald Trump as president of the United States This book is a unique study of rhetorical responses to the

crisis through a comparative approach that analyzes the discourses of leading political figures in ten countries including gateway destination and tertiary countries for immigration such as Turkey several European countries and the United States These national discourses constructed the crisis and its refugees so as to welcome or shun them in turn shaping the character and identity of the receiving countries for both domestic and international audiences as more or less humanitarian nationalist Muslim friendly Christian and so forth This book is essential reading for scholars wishing to understand how European and other countries responded to this crisis discursively constructing refugees themselves and an emerging world order

John F. Kennedy and the Liberal Persuasion John M. Murphy, 2019-01-01 The first serious study of his discourse in nearly a quarter century John F Kennedy and the Liberal Persuasion examines the major speeches of Kennedy's presidency from his famed but controversial inaugural address to his belated but powerful demand for civil rights It argues that his eloquence flowed from his capacity to imagine anew the American liberal tradition Kennedy insisted on the intrinsic moral worth of each person and his language sought to make that ideal real in public life This book focuses on that language and argues that presidential words matter Kennedy's legacy rests in no small part on his rhetoric and here Murphy maintains that Kennedy's words made him a most consequential president By grounding the study of these speeches both in the texts themselves and in their broader linguistic and historical contexts the book draws a new portrait of President Kennedy one that not only recognizes his rhetorical artistry but also places him in the midst of public debates with antagonists and allies including Dwight Eisenhower Barry Goldwater Richard Russell James Baldwin Martin Luther King Jr and Robert Kennedy Ultimately this book demonstrates how Kennedy's liberal persuasion defined the era in which he lived and offers a powerful model for Americans today

Resowing the Seeds of War Stephen J. Heidt, 2021-03-01 Ending a war as Fred Charles Ikl wrote poses a much greater challenge than beginning one In addition to issues related to battle tactics prisoners of war diplomatic relations and cease fire negotiations ending war involves domestic political calculations Balancing the tides of public opinion versus policy needs poses a deep and enduring problem for presidents In a first of its kind study *Resowing the Seeds of War* explains how Presidents Truman Eisenhower Nixon and Obama managed the political policy and bureaucratic challenges that arise at the end of war via a series of rhetorical choices that reframe modify or unravel depictions of national enemies the cause of the conflict and the stakes for the nation and world This end of war rhetoric justifies ending hostilities rationalizes postwar national policy argues for the construction of postwar security arrangements and often sustains public support for massive financial investment in reconstruction By tracking presidential manipulations of savage imagery from World War II to the War on Terror this book concludes that even as metaphoric reframing facilitates exit from conflict it incurs unexpected consequences that make national involvement in the next conflict more likely

Creating Conservatism Michael J. Lee, 2014-08-01 *Creating Conservatism* charts the vital role of canonical post World War II 1945 1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued

for decades that the conservative movement was a product of print rather than a march a protest or a pivotal moment of persecution The Road to Serfdom Ideas Have Consequences Witness The Conservative Mind God and Man at Yale The Conscience of a Conservative and other mid century texts became influential not only among conservative office holders office seekers and well heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars Creating Conservatism generates original insights about the struggle over what it means to think and speak conservatively in America

Intellectual Populism Paul Stob,2020-04-01 In response to denunciations of populism as undemocratic and anti intellectual Intellectual Populism argues that populism has contributed to a distinct and democratic intellectual tradition in which ordinary people assume leading roles in the pursuit of knowledge Focusing on the Gilded Age and Progressive Era the decades that saw the birth of populism in the United States this book uses case studies of certain intellectual figures to trace the key rhetorical appeals that proved capable of resisting the status quo and building alternative communities of inquiry As this book shows Robert Ingersoll 1833 1899 Mary Baker Eddy 1821 1910 Thomas Davidson 1840 1900 Booker T Washington 1856 1915 and Zitk la 1876 1938 deployed populist rhetoric to rally ordinary people as thinkers in new intellectual efforts Through these case studies Intellectual Populism demonstrates how orators and advocates can channel the frustrations and energies of the American people toward productive democratic intellectual ends *Enemyship* Jeremy Engels,2010-11-01 The Declaration of Independence is usually celebrated as a radical document that inspired revolution in the English colonies in France and elsewhere In Enemyship however Jeremy Engels views the Declaration as a rhetorical strategy that outlined wildly effective arguments justifying revolution against a colonial authority and then threatened political stability once independence was finally achieved Enemyship examines what happened during the latter years of the Revolutionary War and in the immediate post Revolutionary period when the rhetorics and energies of revolution began to seem problematic to many wealthy and powerful Americans To mitigate this threat says Engles the founders of the United States deployed the rhetorics of what he calls enemyship calling upon Americans to unite in opposition to their shared national enemies **Vietnam**

George Donelson Moss,2020-12-30 Now in its 7th edition Vietnam An American Ordeal continues to provide a thorough account of the failed American effort to create a viable non Communist state in Southern Vietnam Unlike most general histories of U S involvement in Vietnam which are either conventional diplomatic or military histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the U S Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina

and why they failed In this new edition George Donelson Moss expands and refines key moments of the Vietnam War and its aftermath including the strategic and diplomatic background for United States involvement in Indochina during World War II how the French with British and American support regained control in southern Vietnam Saigon and the vicinity in the fall 1945 the account for the formation of SEATO and the account of the Sino Vietnamese War of 1979 The text has also been revised and updated to align with recently published monographic literature on the time period The accessible writing will enable students to gain a solid understanding of how and why the United States went to war against The Democratic Republic of Vietnam and why it lost the long bitter conflict This book will be of interest to students and scholars of American history the history of foreign relations and the Vietnam War itself **American Presidential Statecraft** Ronald E. Powaski,2017-04-03 This book the second of two volumes examines the presidency in last half of twentieth century America and explores the successes and failures of presidents in their foreign policy initiatives It examines each president s ability to apply his skills to a foreign policy issue in the face of opposition that may come from a variety of sources including the Congress the Pentagon the State Department the press and often their own in house advisers This volume in particular focuses on John F Kennedy Lyndon Johnson Richard Nixon Ronald Reagan and George W Bush From Melos to My Lai Lawrence A. Tritle,2000-03-30 This is a brilliant and moving discussion of the nature of violence in the ancient and modern world and how the traumas experienced affected the survivors Invoking the Invisible Hand Robert Asen,2009-03-02 In Invoking the Invisible Hand Robert Asen scrutinizes contemporary debates over proposals to privatize Social Security Asen argues that a rights based rhetoric employed by Social Security s original supporters enabled advocates of privatization to align their proposals with the widely held belief that Social Security functions simply as a return on a worker s contributions and that it is not in fact a social insurance program By analyzing major debates over a preeminent American institution Asen reveals the ways in which language is deployed to identify problems for public policy craft policy solutions and promote policies to the populace He shows how debate participants seek to create favorable contexts for their preferred policies and how they connect these policies to idealized images of the nation
